Li Yus Twelve Towers:

Towers in the Void S. E. Kile, 2023-05-30 The maverick cultural entrepreneur Li Yu survived the tumultuous Ming Qing dynastic transition of the mid seventeenth century through a commercially successful practice founded on intermedial experimentation He engaged an astonishingly broad variety of cultural forms from theatrical performance and literary production to fashion and wellness from garden and interior design to the composition of letters and administrative documents Drawing on his nonliterary work to reshape his writing he translated this wide ranging expertise into easily transmittable woodblock printed form *Towers in the Void* is a groundbreaking analysis of Li Yu s work across these varied fields It uses the concept of media to traverse them revealing Li Yu s creative enterprise as a remaking of early modern media forms S E Kile argues that Li Yu s cultural experimentation exploits the seams between language and the tangible world He draws attention to the materiality of particular media forms expanding the scope of early modern media by interweaving books buildings and bodies Within and across these media Li Yu s cultural entrepreneurship with the technology of the printed book embraced its reproducibility while retaining a personal touch His literary practice informed his garden design and conversely he drew on garden design to transform the vernacular short story Ideas for extreme body modification in Li Yu s fiction remade the possibilities of real human bodies in his nonfiction writing *Towers in the Void* calls for seeing books bodies and buildings as interlinked media forms both in early modern China and in today s media saturated world positioning the Ming and Qing as a crucial site of global early modern cultural change

Renditions

, 1989 **Causality and Containment in Seventeenth-Century Chinese Fiction** McMahon, 2023-07-31 A number of features characterize late Ming vernacular fiction as part of the general cultural expansion of that period These features centrally include the exposition of sexual transgression and the function of containment by which is meant the ideology of the control of desires The late Ming writers are studiously devoted to illustrating minute obscene or erotic details that belie the decorum of the orthodox surface However this subversiveness of detail decreases in intensity from the late Ming to the early Qing when values of containment are reinvoked Related topics are the theme of causality and its role in the story's mapping of the logic of adultery adultery as an emblem of the woman's escape from containment and the use of the narrative topos of the gap in the wall as a locus of sexual transgression
