The Library of Big Band Hits Ronny S. Schiff,1995-01 Anonymous Sounds Nessa Johnston,Jamie Sexton,Elodie A. Roy,2025-01-09 This cross disciplinary collection provides the first comprehensive study of library music practices in the 1960s and 1970s Library music was inexpensive off the shelf music available to license for a small fee It was widely used in television and film as a cheaper alternative to commissioned soundtracks The book pays attention to the different individuals groups organisations and institutions involved in making library music as well as to its transnational sites of production from continental recording studios to regional cutting rooms It addresses questions of distributed creativity collective authorship and agency Combining empirical and theoretical research the book unveils the modus operandi of a highly secretive yet enduringly significant cultural industry By drawing attention to the cultural ubiquity and intersectionality of library music the collection also shifts emphasis from individual film and TV composers to the invisible community of music publishers writers and session musicians It argues that the latter were collectively responsible for fashioning much of the sonic identity of 1960s and 1970s film and television As well as providing a nuanced understanding of historical library music cultures the collection shows how they continue to inform contemporary audiovisual cultures *Library of Congress Subject Headings* Library of Congress,Library of Congress.
