Networks for Faith Formation Steve Emery-Wright,Ed Mackenzie,2017-05-19 The spiritual formation of young people can often focus on encouraging their personal spiritual practices and perhaps linking them to a local youth group While both are important *Networks for Faith Formation* argues that a far wider set of relationships are needed to help faith grow The aim of *Networks for Faith Formation* is to describe and commend eight key networks relational bonds that nurture and nourish faith The eight networks are bedroom practices personal faith church family friends mentors small groups events and gatherings and mission and service The description of each network draws on biblical studies practical theology and the social sciences and practical ideas for helping young people engage with such networks are included throughout the book In a context where some overlook the complexity of spiritual formation *Networks for Faith Formation* is an important resource for church leaders youth ministers and parents seeking to help young people grow in faith Since relational bonds are key for people of any age it can also help all within the church understand the need for relationships in spiritual growth *Adventurers in Faith* Mike Smathers,2014-08-29 At the beginning of his working life a man is told that he is wasting his life by following the path he has chosen Moreover it is 1932 the midst of the Depression and he cannot find a position in his chosen field Finally one solitary position in the whole United States opens up and he is able to snag it The corporation he works for is national in scope but the division in which he has chosen to work is one of the corporations smallest At the same time he is desperately trying to get the woman he has been courting by mail for two years to marry him She is resisting He is broke and in debt but he somehow gets money to travel the five hundred miles to see her It is only the third time they have been together in the two years they have been writing love letters to each other He convinces her to marry him the best decision he ever made and they head out on a journey to a place they have never seen and know little about It is in the remote hills of Tennessee Two years later the family moves to an even more remote outpost He has a vision of creating something that neither anyone

in his corporation nor any similar corporation has ever achieved before For thirty five years the couple labors in relative obscurity working on their vision He refuses promotion to a more prestigious and lucrative position in his corporation Near the end of his life he is suddenly and surprisingly elected to the highest office in his corporation This is their story

M. White, 2020-11-03 The little known history of an attempt to end a religious schism in imperial Russia and the questions it raised about church and state Established in 1800 edinoverie translated as unity in faith was intended to draw back those who had broken with the Russian Orthodox Church over ritual reforms in the seventeenth century Called Old Believers they had been persecuted as heretics In time the Russian state began tolerating Old Believers in order to lure them out of hiding and make use of their financial resources as a means of controlling and developing Russia's

vast and heterogeneous empire However the Russian Empire was also an Orthodox state and conversion from Orthodoxy constituted a criminal act So which was better for ensuring the stability of the Russian Empire managing heterogeneity through religious toleration or enforcing homogeneity through missionary campaigns Edinoverie remained contested and controversial throughout the nineteenth and early twentieth centuries as it was distrusted by both the Orthodox Church and the Old Believers themselves The state reinforced this ambivalence using edinoverie as a means by which to monitor Old Believer communities and employing it as a carrot to the stick of prison exile and the deprivation of rights In *Unity in Faith* James White s study of edinoverie offers an unparalleled perspective of the complex triangular relationship between the state the Orthodox Church and religious minorities in imperial Russia
