Hall-Quest, 1966      *Documenting First Wave Feminisms* Nancy Forestell, Maureen Moynagh, 2013-12-31 This book is the second of a two volume anthology of primary source documents on feminism in the nineteenth and early twentieth centuries Unique in its extensive treatment of the first wave feminist movement in Canada it highlights distinct elements of its origins and evolution The book is organized into thematic rubrics that address key issues debates and struggles within the first wave in Canada as well as international influences and Canadian engagement in transnational networks and initiatives Documents by Indigenous Anglophone Francophone and immigrant female activists demonstrate the richness and complexity of Canadian feminism during this period Together with its first volume *Documenting First Wave Feminisms* reveals a more nuanced picture attentive to nationalism and transnationalism of the first wave than has previously been understood      The Canadian Magazine , 1900      From Colony to Nation Emília Viotti da Costa, Stuart B. Schwartz, 1975      *Hemispheric Indigeneities* Miléna Santoro, Erick D. Langer, 2018-11-01 *Hemispheric Indigeneities* is a critical anthology that brings together indigenous and nonindigenous scholars specializing in the Andes Mesoamerica and Canada The overarching theme is the changing understanding of indigeneity from first contact to the contemporary period in three of the world's major regions of indigenous peoples Although the terms *indio* *indig ne* and *indian* only exist in Spanish French and English respectively because of European conquest and colonization indigenous peoples have appropriated or changed this terminology in ways that reflect their shifting self identifications and aspirations As the essays in this volume demonstrate this process constantly transformed the relation of Native peoples in the Americas to other peoples and the state This volume's presentation of various factors geographical temporal and cross cultural provide illuminating contributions to the burgeoning field of hemispheric indigenous studies *Hemispheric Indigeneities* explores indigenous agency and shows that what it means to be indigenous was and is mutable It also demonstrates that self identification evolves in response to the relationship between indigenous peoples and the state The contributors analyze the conceptions of what indigeneity meant means today or could come to mean tomorrow      *The American Political Science Review* , 1929      **San Min Chu I, the Three Principles of the People** Sun Yat-Sen, 1928      San Min Chu I Dr. Sun Yat-Sen, 1928      **Structure of the United Nations and the Relations of the U.S. to the United Nations** United States. as history In contrast with current global politics plagued by divisions of outsider and insider patriot and traitor Charumbira invites the reader into the liminal spaces of the region s history and questions the centrality of the nation state in understanding African or postcolonial history today Using an interdisciplinary methodology Charumbira offers a series of case studies bringing in characters from far flung places to show that history and memory in and of one small place can have a far reaching impact in the wider world The questions raised by these stories go beyond the history of colonized or colonizer in one former colony to illuminate contemporary vexations about what it means to be a citizen patriot or member of a nation in an ever globalizing world Rather than a history of how the rulers of Rhodesia or Zimbabwe marshaled state power to force citizens to accept a single definition of national memory and identity *Imagining a Nation* shows how ordinary people invested in the soft power of individual social and collective memories to create and perpetuate exclusionary national myths
