From Figuration To Abstraction:

Mondrian Piet Mondrian, H. Henkels, 1987 Herbert Henkels provides an overview of Mondrian's transition from figuration to non-figurative art and recreates the cultural and intellectual background against which Mondrian's career and sense of mission as an artist unfolded. Copiously illustrated with archive photographs of Mondrian, his family, friends, and studios, with pages from his sketchbooks and numerous reproductions of his works, the book also includes Mondrian's important essay *Plastic Art and pure Art* published in the English Constructivist group's book *Circle* in 1937. The 116 colour plates which form the heart of the volume are accompanied by selected quotations from Mondrian's essay *Dialogue and Trialogue of Neo Plasticism* published in *De Stijl* 1918-1920. Three interviews with the artist, an illustrated chronology with excerpts from Mondrian's letters, and a select bibliography complete this handsome volume. From Figuration to Abstraction [London, 1986], 1986 Transformation from Figuration to Abstraction in the Work of an Artist/educator Andrew A. Sirica, 1991 Figuration/Abstraction Charlotte Benton, 2017-07-05 The notion that the practice of abstraction was confined to Western Europe while a stereotyped form of figuration defined the art of the Eastern bloc continues to dominate art historical accounts of public sculpture of the post-war period. This book offers a number of alternative readings and demonstrates strategic uses of figuration and abstraction across East and West. Encompassing sites of memory including war memorials and Holocaust memorials, state civic and corporate sculpture, as well as temporary and unexecuted projects, the book shows that persuasive advocates of figuration were to be found in the West while in the East imaginative experiments in abstraction were proposed in the name of Social Realism. Presenting fresh insights into sculptural practice in the period between 1945 and 1968, this book brings together a wide range of authors, some of whom have never before been published in English. Their essays are complemented by extracts from documentary texts which give a flavour of contemporary debates, and a biographical section includes entries on many sculptors who will be unfamiliar to an English-speaking audience. On Abstract Art Briony Fer, 2000-01-01 Introducing abstract painting and sculpture of the 20th century, this volume explores new ways to think about abstract art and the problems of interpretation it raises. Each of the ten chapters in the book addresses a particular problem associated with abstract art by focusing on specific works. **Abstract Crossings** María Amalia García, 2019-07-16 Toward the middle of the 1950s, abstract art became a dominant trend in the Latin American cultural scene. Many artists incorporated elements of abstraction into their rigorous artistic vocabularies, while at the same time the representation of geometric lines and structures filtered into everyday life, appearing in textiles, posters, murals, and landscapes. The translation of a field-changing Spanish language book, *Abstract Crossings*, analyzes the relationship between, on the one hand, the emergence of abstract proposals in avant-garde groups and, on the other, the institutionalization and newfound hegemony of abstract poetics as part of Latin America's imaginary of modernization. A profusion of mid-century artistic institutional exchanges between Argentina and Brazil makes a study of the trajectories of

abstraction in these two countries particularly valuable Examining the work of artists such as Max Bill Lygia Clark Waldemar Cordeiro and Tom s Maldonado author Mar a Amalia Garc a rewrites the artistic history of the period and proposes a novel reading of the cultural dialogue between Argentina and Brazil This is the first book in the new Studies on Latin American Art series supported by a gift from the Institute for Studies on Latin American Art

Forming Abstraction Adele Nelson,2022-01-04 Art produced outside hegemonic centers is often seen as a form of derivation or relegated to a provisional status Forming Abstraction turns this narrative on its head In the first book length study of postwar Brazilian art and culture Adele Nelson highlights the importance of exhibitionary and pedagogical institutions in the development of abstract art in Brazil By focusing on the formation of the S o Paulo Biennial in 1951 the early activities of artists Geraldo de Barros Lygia Clark Waldemar Cordeiro H lio Oiticica Lygia Pape and Ivan Serpa and the ideas of critics like M rio Pedrosa Nelson illuminates the complex strategic processes of citation and adaption of both local and international forms The book ultimately demonstrates that Brazilian art institutions and abstract artistic groups and their exhibitions of abstract art in particular served as crucial loci for the articulation of societal identities in a newly democratic nation at the onset of the Cold War

Artworld Prestige Timothy Van Laar,Leonard Diepeveen,2013-01-31 Why does the artworld often privilege one cultural form over another Why does it grant more attention to reviews in say Artforum over ARTnews And how can an artist once hailed as visionary be dismissed as derivative just a few years later Exploring the ever shifting estimations of value that make up the confluence of artists critics patrons and gallery owners known as the artworld Timothy van Laar and Leonard Diepeveen argue that prestige a matter of socially constructed deference and conferral plays an indispensable role in the attention and reception given to modern and contemporary art After an initial chapter that develops a theory of prestige and the poignancy of its loss the book looks at how arguments of prestige function in systems of representation various media and art s relationship to affect It considers twentieth century artists who moved not away from but toward figuration looks at what is at stake in the recurrent argument about the death of painting examines the decline and an apparent return of sensual pleasure as a central attribute of visual art and concludes with a look at the peculiar function of prestige in outsider art Illustrated with artwork by David Park Jorge Pardo Gerhard Richter Anish Kapoor Cecily Brown Howard Finster and others Artworld Prestige provides an engaging guide to the changes debates and shifts that animate aesthetic judgments

Animating Film Theory Karen Redrobe, 2014-03-21

Animating Film Theory provides an enriched understanding of the relationship between two of the most unwieldy and unstable organizing concepts in cinema and media studies animation and film theory For the most part animation has been excluded from the purview of film theory The contributors to this collection consider the reasons for this marginalization while also bringing attention to key historical contributions across a wide range of animation practices geographic and linguistic terrains and historical periods They delve deep into questions of how animation might best be understood as well as how it relates to concepts such as the still the moving image the frame animism and utopia The contributors take on the kinds of theoretical questions that have remained underexplored because as Karen Beckman argues scholars of cinema and media studies have allowed themselves to be constrained by too narrow a sense of what cinema is This collection reanimates and expands film studies by taking the concept of animation seriously Contributors Karen Beckman Suzanne Buchan Scott Bukatman Alan Cholodenko Yuriko Furuhashi Alexander R Galloway Oliver Gaycken Bishnupriya Ghosh Tom Gunning Andrew R Johnston Herv Joubert Laurencin Gertrud Koch Thomas LaMarre Christopher P Lehman Esther Leslie John MacKay Mihaela Mihailova Marc Steinberg Tess Takahashi

Poisoned Abstraction Graham Bader, 2021-01-01 A definitive resource full of fresh insights and new revelations on one of the most influential interwar artists This richly illustrated book offers a definitive new assessment of the oeuvre of Kurt Schwitters

1887-1948 a central figure of the interwar European avant garde. Active as an artist, designer, publisher, performer, critic, poet and playwright, Schwitters is best known for intimately scaled, materially rich collages and assemblages made from found objects. Often referred to as having lost all contact with their role and history in the world at large, considering works reaching from Schwitters's earliest collage-based pieces of 1918-19 through his 1920s advertising designs to his seminal environmental installation, the Merzbau, Graham Bader carefully unpacks the meaning behind such projects and sheds new light on the tumultuous historical conditions in which they were made. In the process, he reveals a new Schwitters, aesthetically committed and politically astute for our time. This authoritative account reframes our understanding of Schwitters's multifaceted artistic practice and explores the complex entwinement of art, politics, and history in the modern period.
