The fall of empires and the rise of nation states was a defining political transition in the making of the modern world Here ten prominent specialists discuss the empire to nation transition in comparative perspective Chapters on Latin America the Middle East Eastern Euro *From Empire to Nation* Milton Rokeach,1960

From Empire to Nation Rupert Emerson,1970 Radical Democracy in Modern Indian Political Thought Tejas Parasher,2023-07-20 Between the 1910s and the 1970s an eclectic group of Indian thinkers constitutional reformers and political activists articulated a theory of robustly democratic participatory popular sovereignty Taking parliamentary government and the modern nation state to be prone to corruption these thinkers advocated for ambitious federalist projects of popular government as alternatives to liberal representative democracy Radical Democracy in Modern Indian Political Thought is the first study of this counter tradition of democratic politics in South Asia Examining well known historical figures such as Dadabhai Naoroji M K Gandhi and M N Roy alongside long neglected thinkers from the Indian socialist movement Tejas Parasher illuminates the diversity of political futures imagined at the end of the British Empire in South Asia This book reframes the history of twentieth century anti colonialism in novel terms as a contest over the nature of modern political representation and pushes readers to rethink accepted understandings of democracy today Encyclopedia of Nationalism, Two-Volume Set ,2000-10-27 Nationalism has unexpectedly become a leading local and international force since the end of the Cold War Long predicted to give way to pan national or economic organizations nationalism exerts its tremendous force on all continents and in a wide variety of ways The Encyclopedia of Nationalism captures the aims and scope of this force through a wide ranging examination of concepts figures movements and events It is the only encyclopedic study of nationalism available today Key Features International Editorial Board Articles begin with short glossaries and conclude with short bibliographies of titles essential for further reading Website devoted to project at www.academicpress.com/nations **Resisting Occupation** Miguel A. De La Torre,Mitri Raheb,2022-03-14 In Resisting Occupation international scholars discuss the radical denial of human flourishing caused by the occupation of mind body spirit and land They explore how religious perspectives can be and often are constructed by occupiers to justify their actions perpetuate exploitation and domesticate indigenous landholders In the name of Christianization and civilization which has proven to be a global phenomenon beyond time and space a consistent domestication process is established The colonized are taught to want to yearn for and to embrace their occupation seeing themselves through the eyes of their colonizers Writing from different spots around the globe the scholars of this book demonstrate how occupation a synonym for empire is manifested within their social context and reveal unity in their struggle for liberation Recognizing that where there is oppression there is resistance

the contributors turn to religion While questioning the logic rationale theology and epistemology of the empire s religion they nonetheless seek the liberative response of resistance at times using the very religion of the occupiers From Mediation to Nation-Building Joseph R. Rudolph Jr., William J. Lahneman, 2013-05-16 The eruption in the early 1990s of highly visible humanitarian crises and exceedingly bloody civil wars in the Horn of Africa imploding Yugoslavia and Rwanda set in motion a trend towards third party intervention in communal conflict in areas as far apart as the Balkans and East Timor However haltingly and selectively that trend towards extra systemic means of managing ethnic and national conflict is still discernible motivated as it was in the 1990s by the inability of in house accommodation methods to resolve ethno political conflicts peacefully and the tendency of such conflicts to spill into the international system in the form of massive refugee flows regional instability and failed states hosting criminal and terrorist elements In its various forms third party intervention has become a fixed part of the current international system Our book examines the various forms in which that intervention occurs from the least intrusive and costly forms of third party activity to the most intrusive and expensive endeavors More specifically organized in the form of overview essays followed by case studies that explore the utility and limitations successes and failures of various forms of third party activity in managing conflict the book begins by examining diplomatic intervention and then proceeds to cover in turn legal economic and military instruments of conflict management before concluding with a section on political tutelage arrangements and nation capacity building operations The chapters themselves are authored by a mix of contributors drawn from relevant disciplines both senior and younger scholars academics and practitioners and North Americans and Europeans All treat a common theme but no attempt was made to solicit work from contributors with a common orientation towards the value of third party intervention Nor were the authors straight jacketed with heavy content guidelines from the editors Their essays validate the value of this approach Far from being chaotic in nature they generally supplement one another while offering opposing viewpoints on the overall topic for example our Italian contributor who specializes in non government organizations offers a chapter illustrating their utility under certain conditions whereas the chapter from an Afghan practitioner notes the downside of too much reliance on NGOs in nation building operations The essays also cover topics not often treated and are written from the viewpoint of those on the ground The chapter on creating a police force in post Dayton Bosnia Herzegovina for example reads much like a diary from the American colonel who was sent to Bosnia in early 1996 charged with that task **The Military And Security In The Third World** Sheldon W. Simon, 2019-06-26 This book explores two of the most important dimensions of the military as an institution in Third World politics its role in domestic power structures and internal development and its impact on the formation and execution of the security aspects of foreign policy These internal and external orientations are compared here across selected Third World countries in Asia Africa and Latin America The authors are area experts and specialists in comparative and international politics Part 1 focuses on how the interaction of military and civilian elites creates a specific

domestic political climate The socioeconomic characteristics of these elites are compared and related to their policy preferences An examination of military establishments in regimes ranging from communist Cuba through business oriented Indonesia reveals whether military similarities persist among differing types of government In Part 2 the contributors examine the role of military force in the Third World through a general empirical treatment of military behavior in developing countries an assessment of the security policies with emphasis on their military components of several Middle Eastern and Asian states and an evaluation of the U S experience in supporting anti communist Third World security efforts

Where Nation-States Come From Philip G. Roeder, 2012-01-09 To date the world can lay claim to little more than 190 sovereign independent entities recognized as nation states while by some estimates there may be up to eight hundred more nation state projects underway and seven to eight thousand potential projects Why do a few such endeavors come to fruition while most fail Standard explanations have pointed to national awakenings nationalist mobilizations economic efficiency military prowess or intervention by the great powers Where Nation States Come From provides a compelling alternative account one that incorporates an in depth examination of the Russian Empire the Soviet Union and their successor states Philip Roeder argues that almost all successful nation state projects have been associated with a particular political institution prior to independence the segment state a jurisdiction defined by both human and territorial boundaries Independence represents an administrative upgrade of a segment state Before independence segmental institutions shape politics on the periphery of an existing sovereign state Leaders of segment states are thus better positioned than other proponents of nation state endeavors to forge locally hegemonic national identities Before independence segmental institutions also shape the politics between the periphery and center of existing states Leaders of segment states are hence also more able to challenge the status quo and to induce the leaders of the existing state to concede independence Roeder clarifies the mechanisms that link such institutions to outcomes and demonstrates that these relationships have prevailed around the world through most of the age of nationalism

Russians As The New Minority Jeff Chinn, Robert Kaiser, 2019-07-11 Twenty five million Russians live in the newly independent states carved from the territory of the former Soviet Union When they or their ancestors emigrated to these non Russian areas they seldom saw themselves as having moved abroad Now with the dissolution of the USSR these Russians find themselves to be minorities often unwelcome in new states created to fulfill the aspirations of indigenous populations Will the governments of these newly independent states be able to accept the fact that their populations are multi national Will the formerly dominant and privileged Russians be able to live with their new status as equals or more often subordinates To what extent do the new regimes policies of accommodation or exclusion establish lasting patterns for relations between the titular majorities and the minority Russians Developing the concept of interactive nationalism this timely book explores the movement of Russians to the borderlands during the Russian Empire and Soviet times the evolution of nationality policies during the Soviet era and the processes of indigenization during the late Soviet period and under the newfound independence of the republics The authors examine questions of citizenship language policy and political representation in each of the successor states emphasizing the interaction between the indigenous population and the Russians Through the use of case studies the authors explore the tragic ethnic violence that has erupted since the demise of the Soviet Union and weigh strategies for managing national conflict and developing stable democratic institutions that will respect the rights of all ethnic groups Jeff Chinn is associate professor of political science at the University of Missouri Columbia Robert Kaiser is assistant professor of geography at the University of Missouri Columbia **China from Empire to Nation-State** Hui Wang, 2014-10-14 This translation of the Introduction to Wang Hui's *Rise of Modern Chinese Thought* 2004 makes part of his four volume masterwork available to English readers for the first time A leading public intellectual in China Wang charts the historical currents that have shaped Chinese modernity from the Song Dynasty to the present day and along the way challenges the West to rethink some of its most basic assumptions about what it means to be modern China from Empire to Nation State exposes oversimplifications and distortions implicit in Western critiques of Chinese history which long held that

China was culturally resistant to modernization only able to join the community of modern nations when the Qing Empire finally collapsed in 1912. Noting that Western ideas have failed to take into account the diversity of Chinese experience, Wang recovers important strains of premodern thought. Chinese thinkers theorized politics in ways that do not line up neatly with political thought in the West; for example, the notion of a Heavenly Principle that governed everything from the ordering of the cosmos to the structure of society and rationality itself. Often dismissed as evidence of imperial China's irredeemably backward culture, many Neo-Confucian concepts reemerged in twentieth-century Chinese political discourse as thinkers and activists from across the ideological spectrum appealed to ancient precedents and principles in support of their political and cultural agendas. Wang thus enables us to see how many aspects of premodern thought contributed to a distinctly Chinese vision of modernity.

Subjects, Citizens, and Others Benno Gammerl, 2017-11-01
Bosnian Muslims, East African Masai, Czech-speaking Austrians, North American indigenous peoples, and Jewish immigrants from across Europe: the nineteenth-century British and Habsburg Empires were characterized by incredible cultural and racial/ethnic diversity. Notwithstanding their many differences, both empires faced similar administrative questions as a result: Who was excluded or admitted? What advantages were granted to which groups? And how could diversity be reconciled with demands for national autonomy and democratic participation? In this pioneering study, Benno Gammerl compares Habsburg and British approaches to governing their diverse populations, analyzing imperial formations to reveal the legal and political conditions that fostered heterogeneity.

Power and Policy in Quest of Law Myres S. McDougal, W.M. Reisman, 2024-09-02

Nationalism, National Identity and Democratization in China Baogang He, 2018-05-08
This title was first published in 2000. This text aims to provide a clear understanding of the complex relationship that exists between nationalism, national identity, the state, the direction and trend of China's transition, and the subsequent prospects for democratization. While describing the rise of Chinese nationalism and the accompanying discourse on Chinese national identity, it focuses on the national identity question and its impact on democratization. The text argues that Chinese nationalism is not monolithic and that popular Chinese nationalism attempts to exclude the role of the party-state in defining national identity. Most importantly, it has the potential to demand democratic reform and push for democratization in China. Nevertheless, the alliance between nationalism and democracy will expedite Chinese nationalism whether official or popular comes into conflict with democracy when it confronts the national identity boundary problem. They clash with each other where territoriality is involved. The Chinese nationalist solution to the problem is logically and inherently opposed to the contemporary trend towards democracy.

lost ireland 1860 1960 a book by william derham bookshop - Mar 09 2023

web mar 3 2016 lost ireland 1860 1960 written by william derham transports the reader back in time with more than 500 evocative photographs of ireland from cork to

magnetic resonance imaging in nonlinear fields with nonlinear - Aug 20 2023

web abstract imaging in the presence of nonlinear static and gradient magnetic fields is outlined analytic expressions are provided for the signal obtained using specific magnetic resonance imaging mri sequences with the addition of field nonlinearities

magnetic resonance imaging with nonlinear gradient fields signal - Sep 21 2023

web jan 1 2012 nonlinear spatial encoding fields for magnetic resonance imaging mri hold great promise to improve on the linear gradient approaches by for example enabling reduced imaging times

gradient nonlinearity calibration and correction for a compact - Jan 13 2023

web jan 21 2017 abstract due to engineering limitations the spatial encoding gradient fields in conventional magnetic resonance imaging cannot be perfectly linear and always contain higher order nonlinear components if ignored during image reconstruction gradient nonlinearity gnl manifests as image geometric distortion

magnetic resonance imaging with nonlinear gradient fields - Oct 22 2023

web the theoretical basis of this new imaging modality patloc imaging are comprehensively presented suitable image reconstruction algorithms are developed for a variety of imaging sequences and imaging results including in vivo data are explored based on novel hardware designs

monoplanar gradient system for imaging with nonlinear gradients - May 17 2023

web keywords magnetic resonance imaging mri gradients planar gradient nonlinear encoding fields spatial encoding image reconstruction patloc introduction spatial encoding in mri is usually realized by using three orthogonal fields with linear spatial variation along the three spatial directions x y and z using linearly

mapping the impact of non linear gradient fields on diffusion - Jul 19 2023

web diffusion weighted magnetic resonance imaging dwMRI allows measurement of tissue diffusivity and is a well established non invasive technique for identification of ischemic stroke differentiation of acute from chronic stroke multiple sclerosis schizophrenia or alzheimer s disease 1 4

spin dephasing under nonlinear gradients implications for imaging - Mar 15 2023

web Jul 14 2011 dephasing under nonlinear gradients is increasingly relevant given the growing interest in nonlinear imaging and here we report several notable differences from the linear case most notably in addition to signal loss intravoxel dephasing under gradients creating a wide and asymmetric frequency distribution across the voxel can

real time magnetic resonance imaging radial gradient echo s lww - Jul 07 2022

web the aim of this study is to evaluate a real time magnetic resonance imaging MRI method that not only promises high spatiotemporal resolution but also practical robustness in a wide range of scientific and clinical applications

gradient nonlinearity calibration and correction for a compact - Feb 14 2023

web Dec 29 2016 1 introduction conventional magnetic resonance imaging MRI reconstruction methods based on direct fast Fourier transform implicitly assume that the spatial encoding gradient fields employed for MR signal formation and data acquisition are perfectly linear throughout the entire imaging volume Glover and Pelc 1986

mapping the impact of nonlinear gradient fields with noise on - Jun 06 2022

web May 1 2023 here we investigate the impact of gradient nonlinearity correction in the presence of noise we introduced empirically derived gradient nonlinear fields at different signal to noise ratio SNR levels in two experiments tensor

gradient nonlinearity calibration and correction for a compact - Oct 10 2022

web Dec 29 2016 due to engineering limitations the spatial encoding gradient fields in conventional magnetic resonance imaging cannot be perfectly linear and always contain higher order nonlinear components if ignored during image reconstruction gradient nonlinearity GNL manifests as image geometric distortion

integrated image reconstruction and gradient nonlinearity correction - Apr 16 2023

web Oct 8 2014 to describe a model based reconstruction strategy for routine magnetic resonance imaging that accounts for gradient nonlinearity GNL during rather than after transformation to the image domain and demonstrate that this approach reduces the spatial resolution loss that occurs during strictly image domain GNL correction

relationship between imaging parameters and distortion in magnetic - Mar 03 2022

web Nov 17 2023 1 introduction the gamma knife a stereotactic irradiation STI device is used to treat metastatic brain tumors auditory nerve tumors and cerebral artery malformations 1 3 computed tomography CT and magnetic resonance imaging MRI are performed to determine the irradiated area for STI treatment generally the range of

magnetic resonance imaging with nonlinear gradient fields signal - Jun 18 2023

web this text deals with a radically new approach of image encoding the fundamental principle of gradient linearity is challenged by investigating the possibilities of acquiring anatomical images with the help of nonlinear gradient fields

the role of nonlinear gradients in parallel imaging a k space - Aug 08 2022

web sep 26 2012 more recently researchers have begun to show the utility of hybrid phase encoded projection imaging methods such as four dimensional 4d rio where the initial phase on each projection changes with each readout and cognac in which nonlinear spatial encoding magnetic fields seems are played as phase encodes while linear

real time magnetic resonance imaging radial gradient echo - Sep 09 2022

web real time magnetic resonance imaging radial gradient echo sequences with nonlinear inverse reconstruction real time gradient echo mri with extreme radial undersampling and nonlinear inverse reconstruction allows for direct monitoring of arbitrary physiological processes and body functions

real time magnetic resonance imaging radial gradient echo - Apr 04 2022

web dec 1 2019 real time gradient echo mri with extreme radial undersampling and nonlinear inverse reconstruction allows for direct monitoring of arbitrary physiological processes and body functions in a variety of clinical scenarios

real time magnetic resonance imaging in pediatric radiology - May 05 2022

web feb 10 2021 the recent development of highly undersampled radial gradient echo sequences in combination with nonlinear inverse image reconstruction now allows for mri examinations in real time image acquisition times as short as 20 ms yield mri videos with rates of up to 50 frames per second with spin density t1 and t2 type contrast

magnetic resonance imaging with nonlinear gradient fields - Dec 12 2022

web monoplanar gradient system for imaging with nonlinear rotating frame gradient fields for magnetic resonance tomographic imaging using the nonlinear response of gradient nonlinearity calibration and correction for a magnetic resonance imaging chemistry libretexts magnetic particle imaging mit opencourseware magnetic resonance

mapping the impact of nonlinear gradient fields with noise on - Nov 11 2022

web may 1 2023 diffusion weighted magnetic resonance mr imaging dw mri provides image contrast determined by brownian motion of water protons and has been increasingly used as biomarkers 1 to study acute ischemic stroke 2 brain trauma 3 multiple sclerosis 4 schizophrenia 5 or alzheimer s disease 6
