From Glasgow To Saturn:

From Glasgow to Saturn Edwin Morgan, 1973 **Resisting Alterities**, 2021-11-01 This volume of essays poetry and prose fiction records various attempts to read the fracture zones created by the discursive strategy of a democratic imagination where space and ideas are opened to new linguistic and literary insights Pride of place is taken by essays on the Caribbean writer Wilson Harris which explore the implications of his awareness of a polyphony of coexistent voices that dislodges the hegemony of Cartesian dualism This group of studies is rounded off with an interview with and searching testimony by Harris himself The further contributions take up the implications of the encounter with alterity strangers natives barbarians in order to underline not only wonder in the face of an unknown presence or the shame through which the subject discovers itself but also the resentment involved in the creation of demonized Others As the poet Charles Tomlinson states what we take to be otherness alterity can be readmitted into our literary consciousness and seen as part of the whole causing us to readjust our awareness of the possibilities of English These essays confirm that resistance is an interface of ambivalence between discursive worlds encouraging us to read the living network of a text contrapuntally Specific topics include Billy Bragg and New Labour Schopenhauer in Britain Objectivist poetry gender and sexual identity in Nancy Cunard in Scottish fiction multivocal discourse in South Africa specific forms of alterity in Jamaica Kincaid in the poetry of Edwin Morgan in allo-Semitism and the deculturalizing perils of globalization *Scotland's Books* Robert Crawford, 2009-01-30 From *Treasure Island to Trainspotting* Scotland's rich literary tradition has influenced writing across centuries and cultures far beyond its borders Here for the first time is a single volume presenting the glories of fifteen centuries of Scottish literature In *Scotland's Books* the much loved poet Robert Crawford tells the story of Scottish imaginative writing and its relationship to the country's history Stretching from the medieval masterpieces of St Columba's Iona the earliest surviving Scottish work to the energetic world of twenty first century writing by authors such as Ali Smith and James Kelman this outstanding account traces the development of literature in Scotland and explores the cultural linguistic and literary heritage of the nation It includes extracts from the writing discussed to give a flavor of the original work and its new research ranges from specially made translations of ancient poems to previously unpublished material from the Scottish Enlightenment and interviews with living writers Informative and readable this is the definitive single volume guide to the marvelous legacy of Scottish literature *Space, Place and Poetry in English and German, 1960-1975* Nicola Thomas, 2018-07-13 *Space Place and Poetry in English and German 1960-1975* examines the work of Paul Celan J H Prynne Derek Mahon Sarah Kirsch Edwin Morgan and Ernst Jandl bringing together postwar English and German language poetry and criticism on the theme of space place and landscape Nicola Thomas highlights hitherto underexplored connections between a wide range of poets working across the two language areas demonstrating that space and place are vital critical categories for understanding poetry of this period Thomas's analysis reveals weaknesses in existing critical taxonomies arguing for the use of late modernist as a

category with cross cultural relevance and promotes methodological exchange between the Anglophone and German traditions of landscape space and place oriented poetic criticism to the benefit of both **Ecology and Modern Scottish Literature** Louisa Gairn,2008-05-01 This book presents a provocative and timely reconsideration of modern Scottish literature in the light of ecological thought Louisa Gairn demonstrates how successive generations of Scottish writers have both reflected on and contributed to the development of international ecological theory and philosophy Provocative readings of works by authors including Robert Louis Stevenson John Muir Nan Shepherd John Burnside Kathleen Jamie and George Mackay Brown demonstrate the significance of ecological thought across the spectrum of Scottish literary culture This book traces the influence of ecology as a scientific philosophical and political concept in the work of these and other writers and in doing so presents an original outlook on Scottish literature from the mid nineteenth century to the present

Contemporary Poetry and Postmodernism I. Gregson, 1996-11-01 Contemporary Poetry and Postmodernism explores the fraught relationship between the poetry of the mainstream and kinds of modernist poetry that have had to make their way outside it Mainstream poets like Paul Muldoon James Fenton and Carol Ann Duffy multiply voices and so draw on resources from the novel Bakhtin's concept of the dialogic is therefore used to explain their techniques By contrast Shklovsky's concept of estrangement is shown to be more useful in accounting for the radical experimentation of poets like Edwin Morgan Christopher Middleton and Denise Riley However the book concludes by suggesting that partly because of the influence of surrealism in women poets like Selima Hill and Jo Shapcott the mainstream has recently been infiltrated by modernist and postmodernist estrangement effects

Aspects of Form and Genre in the Poetry of Edwin Morgan Rodney Edgecombe, 2009-03-26 Edwin Morgan was born in 1920 in Glasgow and studied at Glasgow University where he later taught literature He is much admired for his experimental writings his social poems as well as for the diversity of his output The present book comprises a chapter on Morgan's early vision poems which have received scant critical attention hitherto two on his hodoiporika *The Cape of Good Hope* and *The New Divan* a chapter on his deployment of the grotesque mode centred chiefly on the *Instamatic Poems* and *The Whittrick* another on his adaptations of the elegy in which Edgecombe propose a new genre called the thanasimon and finally an examination of his various monologic poems read in terms of his avowed enterprise of voicing the universe The study is topped by a prologue that sets out the consistency of Morgan's vision over time and tailed by an epilogue that connects his various critical pronouncements to his remarkably diverse output
