After Collapse Glenn M. Schwartz, John J. Nichols, 2010-08-15 From the Euphrates Valley to the southern Peruvian Andes early complex societies have risen and fallen but in some cases they have also been reborn Prior archaeological investigation of these societies has focused primarily on emergence and collapse This is the first book length work to examine the question of how and why early complex urban societies have reappeared after periods of decentralization and collapse Ranging widely across the Near East the Aegean

East Asia Mesoamerica and the Andes these cross cultural studies expand our understanding of social evolution by examining how societies were transformed during the period of radical change now termed collapse They seek to discover how societal complexity reemerged how second generation states formed and how these re emergent states resembled or differed from the complex societies that preceded them The contributors draw on material culture as well as textual and ethnohistoric data to consider such factors as preexistent institutions structures and ideologies that are influential in regeneration economic and political resilience the role of social mobility marginal groups and peripheries and ethnic change In addition to presenting a number of theoretical viewpoints the contributors also propose reasons why regeneration sometimes does not occur after collapse A concluding contribution by Norman Yoffee provides a critical exegesis of collapse and highlights important patterns found in the case histories related to peripheral regions and secondary elites and to the ideology of statecraft After Collapse blazes new research trails in both archaeology and the study of social change demonstrating that the archaeological record often offers more clues to the dark ages that precede regeneration than do text based studies It opens up a new window on the past by shifting the focus away from the rise and fall of ancient civilizations to their often more telling fall and rise

From Conquest to Colony Kirsten Schultz, 2023-01-01 A new history of Brazil s eighteenth century that foregrounds debates about wealth difference and governance Transformations in Portugal and Brazil followed the discovery of gold in Brazil s hinterland and the hinterland s subsequent settlement Although earlier conquests and evangelizations had incorporated new lands and peoples into the monarchy royal officials now argued that the extraction of gold and the imperatives of rivalry and commerce demanded new approaches to governance to ensure that Brazil s wealth flowed to Portugal and into imperial networks of exchange Using archival records of royal and local administrations as well as contemporary print culture Kirsten Schultz shows how the eighteenth century Portuguese crown came to define and defend Brazil as a colony that would reinvigorate Portuguese power Making Brazil a colony entailed reckoning with dynamic societies that encompassed Indigenous peoples Africans and Europeans the free and the enslaved the wealthy and the poor It also involved regulating social relations defined by legal status ancestry labor and wealth to ensure that Portuguese America complemented and supported rather than reproduced metropolitan ways of producing and consuming wealth

The Animal Other in Narratives of Conquest Stacy Hoult, 2023-04-11 The Animal Other in Narratives of Conquest Uncanny Encounters investigates the functions of nonhuman animal imagery in diverse narratives of the Conquest of the Americas The author s explications of film poetry literary and popular fiction and theme park spaces draw on postcolonial and animal theory deconstructive and Freudian literary criticism and radical social theory She argues that animals in these texts function on two levels while they play a key role in the development of both Indigenous and European characters depictions of their treatment and symbolic charge consistently work to disrupt narratives that seek to present the Conquest as a mutually beneficial encounter between two cultures The close readings of animal imagery in texts ranging from Pablo Neruda s poetry to the animated film The Road to El Dorado represent a fresh approach to questions surrounding the depictions of Indigenous Americans and the motivations tactics and lasting contributions of the invading culture From Conquest to Deportation Jeronim Perovic, 2018-06-01 This book is about a region on the fringes of empire which neither Tsarist Russia nor the Soviet Union nor in fact the Russian Federation ever really managed to control Starting with the nineteenth century it analyses the state s various strategies to establish its rule over populations highly resilient to change imposed from outside who frequently resorted to arms to resist interference in their religious practices and beliefs traditional customs and ways of life Jeronim Perovic offers a major contribution to our knowledge of the early Soviet era a crucial yet

overlooked period in this region's troubled history. During the 1920s and 1930s the various peoples of this predominantly Muslim region came into contact for the first time with a modernising state demanding not only unconditional loyalty but active participation in the project of socialist transformation. Drawing on unpublished documents from Russian archives, Perovi investigates the changes wrought by Russian policy and explains why, from Moscow's perspective, these modernization attempts failed, ultimately prompting the Stalinist leadership to forcefully exile the Chechens and other North Caucasians to Central Asia in 1943. 4

From Conquest to Coexistence Koert van Bekkum, 2011-01-11 Current research on ancient historiography concentrates on the relation between history and ideology, while the archaeology of the Southern Levant is more and more viewed as a discipline of its own. What happens when these new directions are applied to the historiography of Israel's settlement in Canaan? This study offers a fresh analysis of scholarly debate, a synchronic and diachronic reading of Joshua 9:1-13:7, and a critical evaluation of all the relevant archaeological evidence. This leads to a new historical picture of the Late Bronze/Iron Age transition in the Cisjordanian Southern Levant and to the fascinating conclusion that it was the ideology of the Israelite scribes reworking this episode that instigated them to explore their antiquarian intent.

Picenum and the Ager Gallicus at the Dawn of the Roman Conquest Federica Boschi, Enrico Giorgi, Frank Vermeulen, 2020-11-05 This volume presents a coherent collection of papers presented at an International Workshop held in Ravenna, 13-14 May 2019, which focussed on the transition between Italic culture and Romanised society in the central Adriatic area: the regions Ager Gallicus and Picenum under Roman dominance from the fourth to the second centuries BCE.

Seemingly written by a churchman who was in Jerusalem itself when the city was besieged and captured the Libellus fuses historical narrative and biblical exegesis in an attempt to recount and interpret the loss of the Holy Land an event that provoked an outpouring of grief throughout western Christendom and sparked the Third Crusade This book provides an English translation of the Libellus accompanied by a new comprehensive critical edition of the Latin text and a detailed study in the introduction The Roman conquest beyond Aquileia (II-I centuries BC) Mateja Belak, Federico Bernardini, Jana Horvat, 2023 V knjigi devetnajst avtorjev iz tirih držav Italije Slovenije Hrvaške in Avstrije predstavlja zgodovinske epigrafske in arheološke dokaze o prisotnosti rimske vojske in o sledovih spopadov na območju Caput Adriae ter na vzhodni obali Jadrana Veina prispevkov je posvečena severnemu Jadranu in njegovemu zaledju v 2 in 1 stoletju pr Kr Topografija prvega leta histske vojne 178 177 pr Kr je analizirana s pomočjo zgodovinskih virov Arheološki dokazi o zgodnji rimski vojaški prisotnosti so obravnavani v poglavjih o vojaških taborih Koromani in Mala Gronica o etnični Tergesta na hribu Sv. Why the Bank of Japan Has Failed to Conquer Deflation in Japan Shigeyuki Hattori, 2024-12-19 This book is published in English that fully reveals why the Bank of Japan BOJ under Governor Haruhiko Kuroda has failed to end

deflation The BOJ's monetary policy was based on the theories of reflationist economists such as Kikuo Iwata They argued that if the BOJ adopted an inflation target that had a deadline for meeting that goal clarified the Bank's responsibility and supplied a large monetary base through a quantitative easing policy inflation expectations would rise and deflation would be overcome This book shows that there is no theoretical basis or evidence for this claim Furthermore the supply of a large monetary base itself became impossible and was abandoned in 2016 However since publicly stating that overcoming deflation is impossible would incur embarrassment and a loss of confidence the BOJ made it appear as if a former policy was still in place The book also reveals that consumer prices in Japan changed in tandem with import prices consequently in 2022 consumer prices rose by 4% due to the surge in import prices Since the 1990s the BOJ has been the focus of intense attention from economists around the world interested in monetary policy The explanation presented here showing the BOJ's historic fiasco under Gov Kuroda in controlling deflation provides valuable lessons for monetary policymakers and economists
