Abdul-Jabbar,Raymond Obstfeld,2016-08-23 A New York Times and Washington Post Bestseller Bestselling author basketball legend and cultural commentator Kareem Abdul Jabbar explores the heart of issues that affect Americans today Since retiring from professional basketball as the NBA s all time leading scorer six time MVP and Hall of Fame inductee Kareem Abdul Jabbar has become a lauded observer of culture and society a New York Times bestselling author and a regular contributor to The Washington Post TIME magazine and TIME com He now brings that keen insight to the fore in Writings on the Wall Searching for a New Equality Beyond Black and White his most incisive and important work of non fiction in years He uses his unique blend of erudition street smarts and authentic experience in essays on the country s seemingly irreconcilable partisan divide both racial and political parenthood and his own experiences as an athlete African American and a Muslim The book is not just a collection of expositions he also offers keen assessments of and solutions to problems

such as racism in sports while speaking candidly about his experiences on the court and off. Timed for publication as the nation debates whom to send to the White House, the combination of plain talk on issues, life lessons and personal stories places *Writings on the Wall* squarely in the middle of the conversation as many of Abdul Jabbar's topics are at the top of the national agenda. Whether it is sparring with Donald Trump within the pages of TIME magazine or full length features in the The New York Times Magazine, writers, critics and readers have come to agree on what The Washington Post observed: Abdul Jabbar has become a vital, dynamic and unorthodox cultural voice. *The Nature of Necessity* Alvin Plantinga, 1978-02-01

This is a reissue of a book which is an exploration and defence of the notion of modality, de re the idea that objects have both essential and accidental properties. It is one of the first full length studies of the modalities to emerge from the debate to which Saul Kripke, David Lewis, Ruth Marcus and others have contributed. The argument is developed by means of the notion of possible worlds and ranges over key problems including the nature of essence, trans world identity, negative existential propositions and the existence of unactual objects in other possible worlds. In the final chapters Professor Plantinga applies his logical theories to the clarification of two problems in the philosophy of religion: the Problem of Evil and the Ontological Argument. **Kareem Abdul Jabbar** Paul J.
