

The background is an abstract, textured composition. On the left, there is a vertical band of deep red and orange, resembling a sunset or a textured wall. This transitions into a darker, more complex area of blue and teal on the right, which has a grainy, almost crystalline texture. The overall effect is one of depth and organic complexity.

There is only experiencing from  
moment to moment, and this  
experiencing is one ever-  
present, seamless whole.

## **From Moment To Moment:**

*The Essential Works of U. G. Krishnamurti* U. G. Krishnamurti, 2023-12-14 In *The Essential Works of U G Krishnamurti* the reader is presented with a compelling compilation of the philosopher's provocative and daring insights into consciousness, reality, and the self. Written in a candid and unorthodox literary style, the text resonates with his distinctive voice, characterized by a conversational tone that draws the reader into deep contemplation. Krishnamurti's exploration challenges the traditional narratives of spirituality, inviting readers to break free from societal conditioning and embrace an experiential understanding of existence. The book articulates a departure from conventional philosophical discourse, situating itself in the existential and postmodern literary context, reflecting Krishnamurti's engagement with Eastern philosophical traditions and Western existential thought. U G Krishnamurti's life experiences, which included a notorious rejection of dogma and established doctrines, inform much of the compelling content found in this volume. Born in 1918 in India, his transformation from a conventional upbringing to a radical spiritual dissenter occurred after a profound personal experience at the age of 49. This journey propelled him into a relentless questioning of authority and truth, making his works a rich source of unfiltered introspection and radical insights into human existence. For those seeking to delve into the complexities of conscious awareness and the illusions of the self, *The Essential Works of U G Krishnamurti* offers an invaluable perspective. Readers drawn to philosophical inquiry or existential dilemmas will find this compilation both illuminating and challenging, making it a must-read for anyone on a quest for authentic understanding of their own existence.

Moment to Monument Ladina Bezzola Lambert, Andrea Ochsner, 2015-07-15 Why do certain works of art make it into the canon while others just enjoy a brief moment of recognition, if at all? How do moments produce monuments, and why are monuments erased from our cultural memory in only a moment? Taking into account these cultural processes of creating, storing, remembering, and forgetting that are omnipresent and have an immense influence on how we perceive artefacts and cultural events, the articles in this collection analyze the phenomenon of cultural production, transmission, and reception from various angles, drawing on approaches from both literary and cultural studies. With its transdisciplinary approach, this book uniquely responds to an everyday cultural phenomenon that so far has not received such wide-ranging attention.

*The Gelug/Kagyu Tradition of Mahamudra* H.H. the Fourteenth Dalai Lama, Alexander Berzin, 1997-01-01 Mahamudra, the great sealing nature, refers to systems of meditation on both the conventional and ultimate natures of the mind. These have been transmitted through the Kagyu, Sakya, and Gelug traditions of Tibetan Buddhism. Within the Gelug Mahamudra teachings, occur in a combined Gelug-Kagyu tradition exemplified in the First Panchen Lama's Root Text for the Precious Gelug-Kagyu Tradition of Mahamudra. The work presented here contains two brilliant commentaries by the Dalai Lama. The first is a teaching based directly on the First Panchen Lama's root text. In the second, His Holiness bases his discussion on the First Panchen Lama's own commentary to this text. The book opens with an overview of Mahamudra by Alexander Berzin that discusses the relation of mind

appearances and reality and offers practical techniques for overcoming problems of excessive worry anxiety and disturbing thoughts This treasury of practical instruction contains extensive teachings on the nature of mind the development of shamata sutra and tantra levels of Mahamudra and the compatibility of Dzogchen and Anuttarayoga Tantra

*Fundamentals of Gnostic Education* Samael Aun Weor, 2025-02-01 The fundamental education is the science of the consciousness that allows us to discover our relationship with human beings nature and all things The Greek word gnosis means knowledge The higher meaning of gnosis is knowledge of facts acquired from personal experience Gnosis is genuine knowledge of the truth To understand truth one must experience it The greatest human beings in every field philosophy science art and religion did not imitate memorize or remain limited by popular ideas instead they sought gnosis to know the facts for themselves and in finding the facts they changed the world for the better Unfortunately such people are rare The problems afflicting individuals and society today have a simple root cause we have not yet learned how to think Instead people today are taught to memorize and imitate Schools teachers and parents today emphasize what we should think rather than teaching how to think question and analyze so we can recognize the facts deal with them intelligently and experience the truth for ourselves What is the value of accumulating much knowledge within our minds if we continue to be confused What is the value of technical and industrial skills if we use them for the destruction of our fellows It is worthless to receive instruction to attend classes to study if in the process of our daily living we are miserably destroying one another Indeed the true objective of a fundamental education must be to create true men and women who because of their psychological integration are cognizant and intelligent When our consciousness is liberated from the conditioning and restrictions imposed upon it by imitation bad habits defects vices and mistaken beliefs then we can see and experience the truth for ourselves In this way we no longer need to believe anything or follow anyone but are free to express our fundamental nature and realize our full potential This book guides us towards that experience that gnosis We need the union of superior logic and tremendous love heart and mind balanced by conscious awareness of facts This psychological equilibrium empowers us to alter the painful conditions that we suffer within Therefore we need a gnostic education an education based on personal experience of the truth
