## **Keeping The Promise Achieving Maintaining Quality In Undergraduate Education:**

**Keeping the promise** Patt VanDyke, **Total Quality Management (TQM)** ,1993 Keeping the Promise Patt VanDyke,1991-12-12 Nearly all the pundits of higher education point out the need to improve the quality of undergraduate education but how is excellence to be achieved This book suggests many possible answers In Keeping the Promise a spectrum of academicians from chancellors to faculty members discuss specific ways to increase standards revise curricula enhance campus life and improve assessment Such notables as Alexander Astin and Lewis Mayhew as well as several deans program directors and professors offer probing insight and practical advice on how to strengthen undergraduate education The book presents not only the big picture of achieving excellence but also concrete examples of actual innovative programs operating on campuses today including SUNY CUNY San Diego State Bowling Green Western Michigan and many others Topics include the campus environment shared governance faculty governance teacher education core curricula outcomes assessment computer literacy honors programs arts programs science and math instruction ethics instruction interdisciplinary studies and program evaluation **American Book Publishing Record** ,1991 **Paperbound Books in Print** ,1992 *The Pursuit of Knowledge* Richard C. Atkinson,2007-04-26 Richard C Atkinson s eight year tenure as president of the University of California 1995 2003 reflected the major issues facing California itself the state s emergence as the world s leading knowledge based economy and the rapidly expanding size and diversity of its population As this selection of President Atkinson s speeches and papers reveals his administration was marked by innovative approaches that deliberately shaped U C s role in this changing California These writings tell the story of the national controversy over the SAT and Atkinson s successful challenge to the dominance of the seventy five year old college entrance examination They also highlight other issues with national significance U C s experiments with race neutral admissions programs the challenges facing academic libraries and the University s pioneering activities with the California Digital Library and the University s involvement in new paradigms of industry university research Together these speeches and papers open a window on an eventful period in the history of the nation s leading public research university and the history of American higher education **Boletin Internacional de Bibliografia Sobre Educacion** ,1992 **Transforming Undergraduate Education** Donald W. Harward,2011-11-16 For those ready to participate in making transformative changes Transforming Undergraduate Education provides evidence and case studies that suggest how steps can be taken and progress made For those who are currently leading their campuses through a change in culture this book offers support and encouragement And for those who are pausing looking positively but cautiously at what needs to change at the prospects and challenges that may be encountered Harward and the collection of authors offer an invaluable and innovative resource Given the intensity of interest regarding the problems in higher education Harward notes how the systemic sources of those problems are infrequently addressed and even rarer is the offering of solutions or suggestions for positive actions Harward and his

colleagues see the achievement of this book as doing both understanding the problems and offering solutions The book assembles the voices of leaders scholars practitioners critics and others committed to higher education collectively they combine theoretical considerations with analyses of fundamental issues related to learning and liberal education The resulting arguments theories and evidence are sufficient to encourage significant transformative changes in higher education Contributors offer examples of campus initiatives that document such changes from directional nudges to major shifts of emphases and resources from theoretical arguments to case studies and practices that suggest and guide constructive steps in efforts at change
