Introduction to How to Create Kenpo Karate There is a school of thought in the martial arts that to be good one must do as  
they are told must memorize long and laborious forms must memorize endless strings of random techniques Kenpo is one of  
these schools and I hate to say it perhaps the worst There are hundreds of random strings of moves to memorize the forms  
are more for dance than creating power and freestyle is a thing apart And sad to say nobody objects they treat the art as if  
sacred never to be questioned Yet if you examine those who brought it to us they questioned the heck out of it Mitose was  
interested in self defense techniques Chow was interested in street fighting techniques and Parker Parker was interested in  
creating a lasting ode to himself So we are left with something that worked for them but which has become a mish mash to

us The purpose of these three books How to Create Kenpo is to cause you the student to question To question the masters to question the system to question yourselves To do this to raise these questions we will examine Kenpo using something called Matrixing Matrixing is a form of logic What matrixing does is enable the student to see a martial art with such clarity that he or she can tailor that art to his or her own specific lights in this case to create kenpo so that it is not a series of memorized techniques but rather a creation of the self To reach this point where you create the art is the essence of all arts it is the mark of the true artist How to Create Kenpo Karate consists of three volumes The first volume has the history including the mistakes of the pioneers and the analysis of 54 kenpo techniques The second volume continues with the analysis of techniques and includes a short section on how to revise and recreate the forms of Kenpo The third volume concludes the analysis of techniques then presents a complete revision of Kenpo including all belts and the matrixing theory behind this You will learn how to write a matrix of your own at this point though for complete information on how to make and use matrixes you are recommended to view the series called Matrixing Karate Now enjoy and have a great work out Al Case

Advanced Kenpo Karate Jay T. Will,1982      **American Kenpo Karate** Irvin B. Gill,2019-09-16 Almost 50 years ago a new television show swept our nation and captured my attention It was called Kung Fu It starred David Carradine as a Shaolin monk wandering the American Wild West The philosophy was appealing the fight scenes were riveting but what really captured my interest was the relationship between the young Kwai Chang Caine and his mentors Master Po and Master Kan So I set in search for my own Master Po Over the years I visited various styles and schools in my area None worked for me Until 1990 when I met an older white haired gentleman who taught something called American Kenpo His manner drew me in his love for what he taught was infectious But as time passed I discovered that I wanted the art to contain more than basic moves katas and self defense techniques Was that all there was just to collect movements as if they were trinkets for a curio cabinet Where was the philosophy Where were the fundamental principles I felt as if I was lost in the woods I needed a map to chart my course through the unknown Because when you have a map a compass and a point of reference you know where you are where you are going and how you are going to get there American Kenpo Karate the Key Principles is that map for the Kenpo practitioner This book explores the five key principles that are the reasons behind the physical movements encompassed by this martial arts system Just because a movement involves a kick or a punch it isn't necessarily karate let alone American Kenpo With that map it is difficult to get off the track There are over 200 photographs that help to demonstrate concepts within this book which was written so that anyone martial artists and non martial artists alike can understand and appreciate it      **Kenpo Karate for Self-Defense** Jay T.
