***Leisure Education: A Cross-National View*** Atara Sivan, Robert A. Stebbins, 2016-04-08 Leisure education plays a central role in both the field of leisure studies and the pursuit of leisure itself. Everywhere in the modern world, the most effective use of free time for individuals comes with knowing about the many leisure activities available to them and the rewards and costs that accompany their interest in each. It is through leisure education in one form or another that they gain such knowledge. Yet as important as this educational process is, its study is only beginning to take off in non-Western societies where, however, it cannot be assumed to be the same as in the West. This book contains several comparisons of Western and non-Western practices in leisure education. Knowing these practices contributes ultimately to a deep understanding of the nature of the huge variety of leisure activities enjoyed across the planet and of the reasons why people go in for the ones they do. This book was based on a special issue published in the *World Leisure Journal*.
