Impact Anna Hawkes Cabral, 2023-07-11 God's Good News is so beautiful profound and far reaching we won't fully grasp the enormity of it until we see Jesus face to face Yet as we walk with Him God reveals to us more than we could ever imagine Though at first we see only a small part as God opens our eyes we discern further details of intricate beauty Much like us walking into a dim room and at first seeing only a plush sofa and then upon the curtains being opened one by one further exquisite items being revealed to us Yet this revelation of the far reaching impact of the Gospel is not a special revelation reserved for just a few This is simply the walk of the Christian in Truth Impact brings to light the Good News which has the impact of setting us free from common issues we face as women conformity idolatry other perfectionism pride envy control guilt condemnation and self perfectionism This book will help you discern your areas of struggle and reflect on the Good News of God's Character God's Design and God's Redemption so you can walk in the hope of freedom It's my prayer that you will join me in this journey of discovering the beautiful impact of the Gospel and that together as God's children we grow in uniqueness true worship grace humility love surrender repentance discernment and rest May we glorify our Heavenly Father as we grow in the truth that sets us free

Infrahumanisms Megan H. Glick, 2018-10-18 In *Infrahumanisms* Megan H. Glick considers how conversations surrounding nonhuman life have impacted a broad range of attitudes toward forms of human difference such as race sexuality and health She examines the history of human and nonhuman subjectivity as told through twentieth century scientific and cultural discourses that include pediatrics primatology eugenics exobiology and obesity research Outlining how the category of the human is continuously redefined in relation to the infrahuman a liminal position of speciation existing between the human and the nonhuman Glick reads a number of phenomena from early twentieth century efforts to define children and higher order primates as liminally human and the postwar cultural fascination with extraterrestrial life to anxieties over AIDS SARS and other cross species diseases In these cases the efforts to define a universal humanity create the means with which to reinforce notions of human difference and maintain human nonhuman hierarchies In foregrounding how evolving definitions of the human reflect shifting attitudes about social inequality Glick shows how the consideration of nonhuman subjectivities demands a rethinking of long held truths about biological meaning and difference

Preaching the Headlines Lisa L. Thompson, 2021-08-31 Preachers often feel stuck when met with quickly shifting and dense media topics that flood the headlines If and when they determine it is appropriate to address issues that arise in the news cycle they are often at a loss for how to speak about them from the pulpit When preachers understand that a responsibility to sustain life is embedded in the purposes of preaching they discover greater fluidity between the everyday world the biblical text and preaching itself *Preaching the Headlines* reframes preaching as an ongoing conversation between the modern world and the world of the Bible exploring where the divides between the two may be less rigid than we often acknowledge The preacher uses what they know about life as a bridge to the text while life in the

text provides the bridge back to faith in the contemporary world The goal of the book is to help preachers do theological reflection on the everyday world as an integral part of sermon development The process offered in this book is not a substitute for basic methods of sermon development nor a model of exegesis for preaching Preachers will use this process as a supplement alongside their current method of sermon preparation Before the preacher can ever translate the meaning embedded in the headlines they have to learn more about the topics they seek to preach about They do this by digging behind the headlines and expanding their own resources beyond theological traditions alone This work is done in order to think earnestly about how faith might spur transformative action in our world for more just ways of living together **OUT**
