Flight To Objectivity:

The Flight to Objectivity Susan Bordo, 1987-01-01 The Flight to Objectivity offers a new reading of Descartes Meditations informed by cultural history psychoanalytic and cognitive psychology and feminist thought It focuses not on Descartes arguments as timeless culturally disembodied events but on the psychological drama and imagery of the Meditations explored in the context of the historical instability of the seventeenth century and deep historical changes in the structure of human experience The study includes textual and cultural material that together comprise a gradually unfolding psychocultural reading of the Meditations Descartes famous doubt and the ideal of objectivity which conquered that doubt are considered as philosophical expressions of a cultural drama of parturition from the medieval universe a process that generated new forms of experience new cultural anxieties and ultimately new strategies for control and mastery of an utterly changed and alien world Themes that figure prominently in recent literature on seventeenth century philosophy and science the birth of the mind as mirror of nature and the masculine nature of modern science the death of nature are explored with reference to Descartes as a pivotal figure in the birth of modernity Borderline Stan Goff, 2015-02-11 What if the sanctification of war and contempt for women are both grounded in a fear that breeds hostility and a hostility that rationalizes conquest The anti Gospel Christian history of war loving and women hating are not merely similar but two aspects of the same dynamic argues Stan Goff in an autobiography that spans millennia Borderline is the historical and conceptual autobiography of a former career army veteran transformed by Jesus into a passionate advocate for nonviolence written by a man who narrates his conversion to Christianity through feminism Feminist Reflections on the History of Philosophy Lilli Alanen, Charlotte Witt, 2006-01-17 Feminist work in the history of philosophy has come of age as an innovative field in the history of philosophy This volume marks that accomplishment with original essays by leading feminist scholars who ask basic questions What is distinctive of feminist work in the history of philosophy Is there a method that is distinctive of feminist historical work How can women philosophers be meaningfully included in the history of the discipline Who counts as a philosopher This collection is a unique collaboration among philosophers from North America and the Nordic Countries including papers written from both analytic and continental philosophical perspectives and discussing both ancient and modern philosophers Feminist Reflections on the History of Philosophy will be of interest to historians of philosophy feminist theorists women s studies faculty and students and humanists interested in canon formation and transformation

What Can She Know? Lorraine Code, 2018-09-05 In this lively and accessible book Lorraine Code addresses one of the most controversial questions in contemporary theory of knowledge a question of fundamental concern for feminist theory as well Is the sex of the knower epistemologically significant Responding in the affirmative Code offers a radical alternative to mainstream philosophy's terms for what counts as knowledge and how it is to be evaluated Code first reviews the literature of established epistemologies and unmask the prevailing assumption in Anglo American philosophy that the knower is a value free and ideologically neutral abstraction Approaching knowledge as a social construct produced and validated through critical dialogue she defines the knower in light of a conception of subjectivity based on a personal relational model Code maps out the relevance of the particular people involved in knowing their historical specificity the kinds of relationships they have the effects of social position and power on those relationships and the ways in which knowledge can change both knower and known In an exploration of the politics of knowledge that mainstream epistemologies sustain she examines such issues as the function of knowledge in shaping institutions and the unequal distribution of cognitive resources *What Can She Know* will raise the level of debate concerning epistemological issues among philosophers political and social scientists and anyone interested in feminist theory

An Unnatural Attitude Benjamin Steege, 2021-04-08 *An Unnatural Attitude* traces a style of musical thought that coalesced in the intellectual milieu of the Weimar Republic a phenomenological style that sought to renew contact with music as a worldly circumstance Deeply critical of the influence of naturalism in aesthetics and ethics proponents of this new style argued for the description of music as something accessible neither through introspection nor through experimental research but rather in an attitude of outward open orientation toward the world With this approach music acquires meaning in particular when the act of listening is understood to be shared with others Benjamin Steege interprets this discourse as the response of a young post World War I generation amid a virtually uninterrupted experience of war actual or imminent a cohort for whom disenchantment with scientific achievement was to be answered by reasserting the value of imaginative thought Steege draws on a wide range of published and unpublished texts from music theory pedagogy criticism and philosophy of music some of which appear for the first time in English translation in the book's appendixes *An Unnatural Attitude* considers the question What are we thinking about when we think about music in non naturalistic terms

Routledge Handbook of Critical Indigenous Studies

Brendan Hokowhitu, Aileen Moreton-Robinson, Linda Tuhiwai-Smith, Chris Andersen, Steve Larkin, 2020-12-30 The Routledge Handbook of Critical Indigenous Studies is the first comprehensive overview of the rapidly expanding field of Indigenous scholarship. The book is ambitious in scope, ranging across disciplines and national boundaries with particular reference to the lived conditions of Indigenous peoples in the first world. The contributors are all themselves Indigenous scholars who provide critical understandings of indigeneity in relation to ontology, ways of being, epistemology, ways of knowing, and axiology, ways of doing, with a view to providing insights into how Indigenous peoples and communities engage and examine the worlds in which they are immersed. Sections include Indigenous Sovereignty, Indigeneity in the 21st Century, Indigenous Epistemologies, The Field of Indigenous Studies, Global Indigeneity. This handbook contributes to the re-centring of Indigenous knowledges, providing material and ideational analyses of social, political, and cultural institutions, and critiquing and considering how Indigenous peoples situate themselves within, outside, and in relation to dominant discourses, dominant postcolonial cultures, and prevailing Western thought. This book will be of interest to scholars with an interest in Indigenous peoples across Literature, History, Sociology, Critical Geographies, Philosophy, Cultural Studies, Postcolonial Studies, Native Studies, Māori Studies, Hawaiian Studies, Native American Studies, Indigenous Studies, Race Studies, Queer Studies, Politics, Law, and Feminism.

Interiors Katarzyna Nowak, Sonia Front, 2010-06-09 The essays gathered in the present collection provide textual explorations of the theoretical borderland between interiors and exteriors undertaken from a variety of perspectives and representing varying approaches and understandings of these terms. In the realm of theory, the distinction between what we choose to include and what we exclude remains a political choice, often fraught with dilemmas that cannot be resolved. How to discern between interiors and exteriors? Where do we draw dividing lines? Do we want to draw them anymore? Or alternately, can we afford not to divide and discern between the inside and outside, between here and there, between us and them? If the binary divisions so much discredited no longer hold, if we must include multiplicity and plurality of readings, is any distinction between these dimensions possible? Essays collected in the present volume attempt to present a wide plethora of answers to these questions.

Church Dogmatics Karl Barth, Geoffrey William Bromiley, Thomas Forsyth Torrance, 2004-01-30 Annotation: A challenging book examining issues such as biotechnology, AIDS, and nuclear weapons, and demonstrating that Christian ethics has something important and distinctive to contribute to secular worlds.

Church Dogmatics: The Doctrine of God, Volume 2, Part 1 Karl Barth, 2003-11-01 Described by Pope Pius XII as the most important theologian since Thomas Aquinas, the Swiss pastor and theologian Karl Barth continues to be a major influence on students, scholars, and preachers today. Barth's theology found its expression mainly through his closely reasoned fourteen-part magnum opus, *Die Kirchliche Dogmatik*. Having taken over 30 years to write, the *Church Dogmatics* is regarded as one of the most important theological works of all time and represents the pinnacle of Barth's achievement as a theologian. T. T. Clark International is now proud to be publishing the only complete English translation of the *Church Dogmatics* in

Feminist Interpretations of Ludwig Wittgenstein Naomi Scheman, Peg O'Connor, 2010-11-01 The original essays in this volume while written from diverse perspectives share the common aim of building a constructive dialogue between two currents in philosophy that seem not readily allied Wittgenstein who urges us to bring our words back home to their ordinary uses recognizing that it is our agreements in judgments and forms of life that ground intelligibility and feminist theory whose task is to articulate a radical critique of what we say to disrupt precisely those taken for granted agreements in judgments and forms of life Wittgenstein and feminist theorists are alike however in being unwilling or unable to make sense in the terms of the traditions from which they come needing to rely on other means including telling stories about everyday life to change our ideas of what sense is and of what it is to make it For both appeal to grounding is problematic but the presumed groundedness of particular judgments remains an unavoidable feature of discourse and as such in need of understanding For feminist theory Wittgenstein suggests responses to the immobilizing tugs between modernist modes of theorizing and postmodern challenges to them For Wittgenstein feminist theory suggests responses to those who would turn him into the normal philosopher he dreaded becoming one who offers perhaps unorthodox solutions to recognizable philosophical problems In addition to an introductory essay by Naomi Scheman the volume's twenty chapters are grouped in sections titled The Subject of Philosophy and the Philosophical Subject Wittgensteinian Feminist Philosophy Contrasting Visions Drawing Boundaries Categories and Kinds Being Human Agents and Subjects and Feminism's Allies New Players New Games These essays give us ways of understanding Wittgenstein and feminist theory that make the alliance a mutually fruitful one even as they bring to their readings of Wittgenstein an explicitly historical and political perspective that is at best implicit in his work The recent salutary turn in analytic philosophy toward taking history seriously has shown how the apparently timeless problems of supposedly generic subjects arose out of historically specific circumstances These essays shed light on the task of feminist theorists along with postcolonial queer and critical race theorists to in Wittgenstein's words rotate the axis of our examination around whatever real needs might emerge through the struggles of modernity's Others Contributors besides the editors are Nancy E Baker Nalini Bhushan Jane Braaten Judith Bradford Sandra W Churchill Daniel Cohen Tim Craker Alice Crary Susan Hekman Cressida J Heyes Sarah Lucia Hoagland Christine M Koggel Bruce Krajewski Wendy Lynne Lee Hilda Lindemann Nelson Deborah Orr Rupert Read Phyllis Rooney and Janet Farrell Smith

Murphy,2007-01-01 *Teaching That Transforms* challenges the assumption that worship and education should be separated Instead argues Debra Dean Murphy worship the center of the church s life is distinctly tied in Christian education and formation It is in corporate worship that the lives of Christians are most acutely formed and shaped writes Murphy All efforts at forming and discipling Christians should presume the centrality of worship Murphy critiques the predominant modern liberal models of education and lays out a theological account of education that is centered on praise She then explains how this alternative approach would change and renew Christian education
