Sexual Life in Ancient China R.H. van Gulik, 2021-10-01 In 1961 Robert van Gulik published his pioneering overview of Sexual Life in Ancient China This edition of the work is preceded by an elaborate introduction by Paul Rakita Goldin assessing the value of Van Gulik's volume the subject itself and its author The introduction is followed by an extensive and up to date bibliography on the subject which guides the modern reader in the literature on the field which appeared after the publication of Van Gulik's volume One of the criticisms in 1961 regarded the Latin translations of passages deemed too explicit by Van Gulik In this 2002 edition all Latin has for the first time been translated into unambiguous English thus making the full text widely available to an academic audience

**The Floating Brothel** Sian Rees, 2001 **The Floating Brothel** Sian Rees, 2003-03-12 Now in paperback the incredible true story of a shipload of disorderly girls and the men who transported them fell for them and sold them This riveting work of rediscovered history tells for the first time the plight of the female convicts aboard the Lady Julian which set sail from England in 1789 and arrived in Australia's Sydney Cove a year later The women most of them petty criminals were destined for New South Wales to provide its hordes of lonely men with both sexual favors and progeny But the story of their voyage is even more incredible and here it is expertly told by a historian with roots in the boatbuilding business and a true love of the sea Sian Rees delved into court documents and firsthand accounts to extract the stories of these women's experiences on board a ship that both held them prisoner and offered them refuge from their oppressive existence in London At the heart of the story is the passionate relationship between Sarah Whitlam a convict and the ship's steward John Nicol whose personal journals provided much of the material for this book Along the way Rees brings the vibrant bawdy world of London and the sights smells and sounds of an eighteenth century ship vividly to life In the tradition of Nathaniel Philbrick's *In the Heart of the Sea* this is a winning combination of dramatic high seas adventure and untold history

Boudoirs to Brothels Michael Rutter, 2015-10-05 From boudoirs to brothels historian Michael Rutter takes you into the intimate world of the Wild West's women of the night Eighteen richly researched biographies reveal the tricks and torments of the trade with fascinating sidebars on venereal diseases and dire cures children of prostitutes a floating brothel and hog ranches

*Bangkok Utopia* Lawrence Chua, 2021-02-28 Utopia is a word not often associated with the city of Bangkok which is better known for its disorderly sprawl overburdened roads and stifling levels of pollution Yet as early as 1782 when the city was officially founded on the banks of the Chao Phraya river as the home of the Chakri dynasty its orientation was based on material and rhetorical considerations that alluded to ideal times and spaces The construction of palaces monastic complexes walls forts and canals created a defensive network while symbolically locating the terrestrial realm of the king within the Theravada Buddhist cosmos Into the twentieth century pictorial narrative and built representations of utopia were critical to Bangkok's transformation into a national capital and commercial entrepôt But as older representations of the universe encountered modern architecture building technologies and urban planning new

images of an ideal society attempted to reconcile urban based understandings of Buddhist liberation and felicitous states like nirvana with worldly models of political community like the nation state Bangkok Utopia outlines an alternative genealogy of both utopia and modernism in a part of the world that has often been overlooked by researchers of both It examines representations of utopia that developed in the city as expressed in built forms as well as architectural drawings building manuals novels poetry and ecclesiastical murals from its first general strike of migrant laborers in 1910 to the overthrow of the military dictatorship in 1973 Using Thai and Chinese language archival sources the book demonstrates how the new spaces of the city became arenas for modern subject formation utopian desires political hegemony and social unrest arguing that the modern city was a space of antinomy one able not only to sustain heterogeneous temporalities but also to support conflicting world views within the urban landscape By underscoring the paradoxical character of utopias and their formal narrative expressions of both hope and hegemony Bangkok Utopia provides an innovative way to conceptualize the uneven economic development and fractured political conditions of contemporary global cities **Dirklus Ahsumma**

Y. Ho,2005 By studying six different aspects of culture in Canton in the period between the two World Wars

this book helps broaden our limited knowledge of the social and cultural lives of the common people in this largest city of South China The author examines how the Cantonese in this period indulged in their imagined cultural superiority as modern citizens ushering in a cult of the modern city During this period Cantonese opera was also emerging and evolving into a widely accepted form of commercialised mass entertainment The process of social and cultural change and its impact on the development of this city and its people are revealed throughout the book This book also aims to redress some major misconceptions of the socio cultural realities as seen in official rhetoric or academic discourse on the matters of patriotism and anti foreignism gambling prostitution and opium consumption Contemporary non official and folk materials reveal that the common people were much more pro Western than xenophobic in attitude and the alleged social and political calamities of gambling opium consumption and prostitution were more rhetorical than real Understanding Canton provides us with not only a fuller and more comprehensive picture of city life and popular mentalities but also an important clue to understand how and why the social history of this city was distorted and constructed in ways that suited the political ideology and nation building agenda of the ruling regimes
