## **Flowering Jezebel:**

**Plants of Central Queensland** Eric Anderson, 2016-04 Conservation and sustainable productivity are vital issues for Australia. In order to manage vegetation well from an agricultural, recreational or conservation point of view, an understanding of individual plant species is important. *Plants of Central Queensland* provides a guide for identifying and understanding the plants of the region so that pastoralists and others can be better equipped to manage the vegetation resource of our grazing lands. Central Queensland straddles the Tropic of Capricorn, although many of the plants in the book will also be found outside this area as shown by their distribution maps. The book provides information on the habit, distribution, foliage and fruits of 525 plant species. Informative notes highlighting declared poisonous weed and medicinal plants are included, and plants useful for bees and bush tucker are also noted. These are the most important plants you might see if you live in or travel through central Queensland. This book has an easy-to-read, non-botanical format with helpful photographs and distribution maps that greatly aid anyone interested in the vegetation of central Queensland. It is based on a previous work of the same title but is greatly expanded, incorporating information on an additional 285 plant species.

**Eve's Rib~Jezebel's Hips** Victoria Selene Skye Deme, 2007-12 Between these covers lies a world of mythical women embedded in modern day worlds. Herein swim Eves to their own rhythms and doing just fine thanks without that irksome rib to hinder and bind their grace and self-actualization. In this little gem, you'll find metaphorical Little Red Hoodies who get fed up with the same old lines and same old tale and skip out with the Big Bad Wolf to the Razzle Dazzle to shake that thang to yummylicious groovies. And you'll discover Cinderellas who stomp the glass slipper to pieces in favor of 7-hole Doc Martens. In here laughs a Snow White who gets really sick and tired of being kissed by whatever glittery princey that flounces along and decides to tear it out of the woods with girl pals in a Hummer to kick it at the Razzle Dazzle with Hoodie and Cinders. And there's even a Rapunzel who hops right out of that tower and lands nice and solid on her own two feet. This is a spinette with bite poetry that screams with rage, soars with beauty and weaves a Jezebel's Hipsa through a Eve's Rib. [The Complete Field Guide to Butterflies of Australia](#) Michael Braby, 2016-04 As fascinating as they are, beautiful butterflies are a pleasure to watch and an important group of invertebrates to study. This second edition of the award-winning book *The Complete Field Guide to Butterflies of Australia* is a fully updated guide to all butterfly species on Australia's mainland and remote islands. Written by one of Australia's leading lepidopterists, the book is stunningly illustrated with colour photographs, many of which are new to each of the 435 currently recognised species. There is also a distribution map and flight chart for each species on the Australian mainland, together with information on similar species, variation, behaviour, habitat, status and larval food plants. The introduction to the book covers adult structure, higher classification, distribution and habitats, as well as life cycle and behaviour. A new chapter on collecting and preserving butterflies is included. There is also an updated checklist of all species, a glossary, a bibliography and indexes of common and scientific names. **Jezebel's Daughter** Wilkie
