Social Justice and Islamic Economics Toseef Azid, Lutfi Sunar, 2019-02-25 Under the rule of the current economic order social injustice is ever increasing Issues such as poverty inhumane working conditions inadequate wages social insecurity and an unhealthy labor market continue to persist Many states are also unable to produce policies capable of resolving these problems The characteristics of the capitalist system currently render it unable to provide social justice In fact on the contrary the system

reinforces these injustices and prevents economic and social welfare from reaching the masses Many Muslim scholars have analyzed and indeed criticized this system for years This book argues that an alternative and more equitable theoretical and practical economical order can be developed within the framework of Islamic principles On the other hand the experiences of societies under the rule of Muslim governments do not always seem to hold great promise for an alternative understanding of social justice In addition the behaviors of Muslim individuals within their economic lives are mostly shaped by the necessities of daily economic conditions rather than by the tenets of Islam that stand with social justice Until 1990s studies of Islamic economics made connections between finance and the notion of social justice but work conducted more recently has neglected this issue It is therefore evident that the topic of social justice needs to be revisited in a more in depth manner Filling an important gap in existing literature the book uniquely connects social justice and Islamic finance and economics on this topic Theory practice and key issues are presented simultaneously throughout this book which is based on the writings of a number of eminent scholars Islam, Economics, and Society (RLE Politics of Islam) Syed Nawab Haider

Naqvi,2013-07-24 The Islamic perception of the socio economic process is dynamic and its insistence on social justice is uncompromising To produce the best social structure according to this view man s economic endeavours should be motivated by a meaningful moral philosophy In the face of the challenges presented by the modern world the practice of Islamic economics raises many complex and profound issues These are addressed in this highly important work which must be considered essential reading for all those who live in the vision of the right First published in 1994 Resource Mobilization

and Investment in an Islamic Economic Framework Zaidi Sattar,1990-01-01 The contemporary understanding of economic resources has almost entirely to do with those elements that are capable of meeting either directly or indirectly the needs of mankind These elements or resources both human and natural are the things that every state attempts as a fundamental principle of progress and prosperity to preserve mobilize and invest In the Islamic world in particular this is an issue that occupies a very basic position in all development strategy and planning particularly as in most cases the Islamic world continues to suffer from backwardness and from the adverse effects of the colonialization that was itself one of the major reasons for underdevelopment in the spheres of politics economics and culture **Awqaf-led Islamic Social Finance**

Authority in Islam Hamid Dabashi, 2017-09-08 From the origins of Muhammad's prophetic movement through the development of Islam's principal branches to the establishment of the Umayyad dynasty the concept of authority has been central to Islamic civilization By examining the nature organization and transformation of authority over time Dabashi conveys both continuities and disruptions inherent in the development of a new political culture It is this process he argues that accounts for the fundamental patterns of authority in Islam that ultimately shaped in dialectical interaction with external historical factors the course of Islamic civilization The book begins by examining the principal characteristics of authority in pre Islamic Arab society Dabashi describes the imposition of the Muhammadan charismatic movement on pre Islamic Arab culture tracing the changes it introduced in the fabric of pre Islamic Arabia He examines the continuities and changes that followed focusing on the concept of authority and the formation of the Sunnite Shiite and Karajite branches of Islam as political expressions of deep cultural cleavages For Dabashi the formation of these branches was the inevitable outcome of the clash between pre Islamic patterns of authority and those of the Muhammadan charismatic movement In turn they molded both the unity and the diversity of the emerging Islamic culture Authority in Islam explains how this came to be Dabashi employs Weber's concept of charismatic authority in describing Muhammad and his mode of authority as both a model and a point of departure His purpose is not to offer critical verification or opposition to interpretation of historical events but to suggest a new approach to the existing literature The book is an important contribution to political sociology as well as the study of Islamic culture and civilization Sociologists political scientists and Middle Eastern specialists will find this analysis of particular value **American Journal of Islamic Social Sciences 4:1** Hasan Turiibi, Mona Abul-Fadl, Fadl Abdallah, Muhammad Arif, Hasan Lunggulung, The American Journal of Islamic Social Sciences AJISS established in 1984 is a quarterly double blind peer reviewed and interdisciplinary journal published by the International Institute of Islamic Thought IIIT and distributed worldwide The journal showcases a wide variety of scholarly research on all facets of Islam and the
