Islam Rediscovered Vahīduddīn Khān, 2002 **American Journal of Islamic Social Sciences 24:2** Matthew Cleary and Rebecca Glazier, Abdelaziz Berghout, Muhammad Mumtaz Ali, D. Jason Berggren, Eren Tatari, Steven Salaita, Ronald Lukens-Bull, Bridget Blomfield, Mandy Terc, Timothy P. Daniels, Muhammad M. Haque, Isa Blumi, Alexandra Izabela Jérôme, Mohamad Khan, Asma Barlas, Kaleem Hussain, Lisa Helps, M. A. Muqtedar Khan, Qamar-ul Huda, 2009-03-02 The American Journal of Islamic Social Sciences AJISS is a double blind peer reviewed and interdisciplinary journal that publishes a wide variety of scholarly research on all facets of Islam and the Muslim world anthropology economics history philosophy and meta physics politics psychology religious law and traditional Islam Submissions are subject to a blind peer review process **Slavery, Abolition, and Islam** Haroon Bashir, 2024-12-02 Does the Qur'an promote the abolition of slavery If so why had the slave trade been allowed to operate across the Muslim world for over a millennium And why had Muslim scholars not attempted to eradicate slavery previously These were the questions that Islamic abolitionist scholars explored as they sought to challenge the slave trade throughout the nineteenth century The abolition of slavery remains a relatively new concept in human history and scholars from all religious traditions have attempted to navigate the religious and ethical questions raised by the historical acceptance of slavery In this book Haroon Bashir tells the story of how scholars promoting abolition in the name of Islam transformed the debate around Islam and slavery The book explores how abolitionism became the hegemonic position within contemporary Islamic thought and highlights the journey behind the current consensus Abolitionist arguments were not simply accepted with defenders of the slave trade using the weight of historical tradition to emphasise the legitimacy of slavery The strongly contested debates that ensued had huge ramifications for understandings of authority tradition and modernity within Islamic thought that are as present as they are past Through an exploration of these various discourses and contestations Slavery Abolition and Islam highlights how both slavery and abolition were historically challenged within the Islamic context and demonstrates how those debates continue to impact contemporary discussions In doing so the book also explores broader themes of religious traditions continuity and transformation **Encountering World Religions** Irving Hexham, 2019-05-21 The diversity of the world's religions has come to the West but believers are often ill equipped for any kind of serious engagement with non Christians In Encountering World Religions professor and author Irving Hexham introduces all the world's major religious traditions in a brief and understandable way Hexham outlines key beliefs and practices in each religion while also providing guidance on how to think critically about them from the standpoint of Christian theology African yogic and Abrahamic traditions are all covered Accessible and clear Encountering World Religions will provide formal and lay students alike with a useful Christian introduction to the major faiths of our world **Muslims in India Since 1947** Yoginder Sikand, 2004-07-31 This book explores the attempts being made by scholar activists and Muslim organisations to develop new understandings of Islam to relate to people of other faiths

and the modern nation state and deal with issues such as democracy and secularism Vicegerency in Islamic Thought and Scripture Chauki Lazhar, 2023-04-28 This book explores the reasons for the creation of humanity on Earth from the perspective of ancient and contemporary Muslim thinkers aiming to lay the outlines of a Qur'anic theory of human existential function. The author proceeds from the assumption that until now contemporary Islamic scholarship has suffered from the absence of theorisation about a Qur'anic conception of human existential function, vicegerency lacking a unified philosophical and epistemological frame of reference. Challenging common perceptions among contemporary Muslim reformists regarding the human existential function, the author examines both classical and contemporary thought as well as conducting a thorough and comprehensive analysis of Qur'anic passages that ground the theory of vicegerency within a cosmic scheme. Ultimately, a new approach for understanding the human existential function from within the Qur'anic worldview is proposed. For the first time, then, this book offers an integral induction and categorisation of Qur'anic teleological concepts, combining them within a coherent framework that reveals the outlines of a vicegerency theory and a Qur'anic worldview. Suitable for both scholars and laypersons, the book serves as a landmark textbook in the fields of Islamic Philosophy, Theological Anthropology, and Qur'anic Studies.

Understanding World Religions Irving Hexham, 2011-03-22 Globalization and high speed communication put twenty-first century people in contact with adherents to a wide variety of world religions, but usually valuable knowledge of these other traditions is limited at best. On the one hand, religious stereotypes abound, hampering a serious exploration of unfamiliar philosophies and practices. On the other hand, the popular idea that all religions lead to the same God or the same moral life fails to account for the distinctive origins and radically different teachings found across the world's many religions. *Understanding World Religions* presents religion as a complex and intriguing matrix of history, philosophy, culture, beliefs, and practices. Hexham believes that a certain degree of objectivity and critique is inherent in the study of religion, and he guides readers in responsible ways of carrying this out. Of particular importance is Hexham's decision to explore African religions, which have frequently been absent from major religion texts. He surveys these in addition to varieties of Hinduism, Buddhism, Judaism, Christianity, and Islam.

From Behind the Curtain Mareike Jule Winkelmann, 2005 Annotation: In the aftermath of 9/11, Islamic seminaries or madrasas received much media attention in India, mostly owing to the alleged link between madrasa education and forms of violence. Yet while ample information on madrasas for boys is available, similar institutions of Islamic learning for girls have for the greater part escaped public attention so far. This study investigates how madrasas for girls emerged in India, how they differ from madrasas for boys, and how female students come to interpret Islam through the teachings they receive in these schools. Observations suggest that, next to the official curriculum, the informal curriculum plays an equally important role. It serves the madrasa's broader aim of bringing about a complete reform of the students' morality and to determine their actions accordingly. presents Western norms as a template for progress against which Islamic societies can be measured This misses the historical development of Muslim reformist thought that actively engages with the world around it and seeks to reconfigure Islam within the diverse conditions of modernity Safdar Ahmed paints a complex and nuanced picture that goes beyond the idea that Muslim reformers have either reproduced or reacted against Western ideas Rather Ahmed argues they have reconstructed and appropriated these ideas and so the thread of Western influence runs through modern Islamic thought on nationalism and sovereignty femininity and gender Ahmed uncovers new historiographical perspectives by critically examining the work of prominent intellectuals such as Muhammad Abduh Qasim Amin and Abdul A la Maududi The American Journal of Islamic Social Sciences ,2007 *Islam, Friend Or Foe?* Emilio Platti,2008 In this study Emilio Platti dares to enquire directly into the compatibility between Islam and Christianity as well as between Islam and modernity He insists that the best way to answer such questions is to return to the origins of the Islamic tradition What precisely does the Qur an have to say about Christians How can we explain the resentment towards the West that seems to characterize some Muslims Does the so called clash of civilizations have its roots in Islamic theology How did the negative portrait of Muslims that was characteristic of the Latin Middle Ages come about Is it possible to speak in a monolithic fashion about Islam Is it really the case that Muslims must set about developing a new identity What is the relationship between Islamic law and modern theories of human rights What does it mean to be a believer and might this not be the real heart of the tensions and controversies that mark so much of the contemporary encounter between Islam and the West Platti s study engages both classical and contemporary readings of the Islamic tradition and offers a nuanced and challenging view not only of its past but of its present and of the directions it might take in the years ahead **Interfaith Dialogue** Dharam Singh,2002 A Handbook of Muslim Belief Ahmad A.
