What Was the Islamic Conquest of Iberia? Hussein Fancy, Alejandro García-Sanjuán, 2021-05-07 What Was the Islamic Conquest of Iberia Understanding the New Debate brings together leading scholars to offer an introduction to a recent debate with far reaching implications for the study of history as well as our understanding of the present In the year 711 CE Islamic armies conquered the Iberian Peninsula This seemingly uncontroversial claim has in fact been questioned becoming an object of intense scholarly debate debate that has reached a fevered pitch in recent decades within Spain This volume introduces an anglophone audience to the terms and contours of this controversy from its emergence in the late nineteenth century to its contemporary recrudescence It suggests that far from an abstract discussion this dispute reveals methodological and moral questions that remain vital to the study of the distant past questions that cannot be easily resolved and have far reaching consequences for the present This volume offers novel perspectives on not only the controversy but also the latest research on the events of 711 These exemplary studies of historical literary and material cultural evidence demonstrate the promise and challenges for a new generation of scholarship The chapters in this book

were originally published as a special issue of the Journal of Medieval Iberian Studies      *Arabs and Iranians in the Islamic Conquest Narrative* Scott Savran, 2017-09-08 *Arabs and Iranians in the Islamic Conquest Narrative* analyzes how early Muslim historians merged the pre Islamic histories of the Arab and Iranian peoples into a didactic narrative culminating with the Arab conquest of Iran This book provides an in depth examination of Islamic historical accounts of the encounters between representatives of these two peoples that took place in the centuries prior to the coming of Islam By doing this it uncovers anachronistic projections of dynamic identity and political discourses within the contemporaneous Islamic world It shows how the formulaic placement of such embellishment within the context of the narrative served to justify the Arabs rise to power whilst also explaining the fall of the Iranian Sasanian empire The objective of this book is not simply to mine Islamic historical chronicles for the factual data they contain about the pre Islamic period but rather to understand how the authors of these works thought about this era By investigating the intersection between early Islamic memory identity construction and power discourses this book will benefit researchers and students of Islamic history and literature and Middle Eastern Studies      The Islamic Invasion Robert A. **Islam and the Governing of Muslims in France** Frank Peter, 2021-01-28 Will Islam be able to adapt to France s secularity and its strict separation of public and private spheres Can France accommodate Muslims In this book Frank Peter argues that the debate about Islam and Muslims is not simply caused by ignorance or Islamophobia Rather it is an integral part of how secularism is reasoned Islam and the Governing of Muslims in France shows that understanding religion as separate from other aspects of life such as politics economy and culture disregards the ways religion has operated and been managed in secular societies such as France This book uncovers the varying rationalities of the secular that have developed over the past few decades in France to govern Islam in order to examine how Muslims engage with the secular regime and contribute to its transformation This book offers a close analysis of French secularism as it has been debated by Islamic intellectuals and activists from the 1990s until the present It will influence the study of secularism as well as the study of Islam in the French Republic and reveal new connections between Islamic traditions and secular rationalities

*Islam and the Infidels* David Bukay, 2017-07-12 This book discusses Islam its relationship with the world and how Muslims perceive the world and their role within it Using Islamic scriptures and the works of important Muslim clerics the author explores the Islamic notion that Muslims represent the best of humanity and as such have the duty and the right to propagate their faith throughout the world by any means including violence Islam and the Infidels warns of the dangers Muslim immigration poses to free societies Using a diplomacy of deceit Islamists immigrate to Western societies Having done so they establish closed ethnic communities that are estranged from their host countries and are breeding grounds for native born malcontents who may attack and destroy Western nations from within The author is especially critical of Western apologists who not only pretend that Islam is not inherently aggressive and dangerous but also denigrate those who point out the threat to liberal values posed by fundamentalist Islamic ideology Bukay argues that to meet the Islamic threat the West must understand Islam s true nature and the best way of doing so is by analysing its scriptures and history Bukay argues that Western societies should embrace the Judeo Christian tradition which is the root of their cultural heritage In light of the mounting Muslim threat to liberalism in Western societies citizens should resist oppressive Islamic practices and doctrines rather than accept them
