*A Thinking Person's Guide to Our Times* H.R.H. Prince Ghazi Bin Muhammad,2020 The present book aims to take on this challenge by looking at the major problems from these various aspects as just mentioned Obviously one short book can hardly address all these problems and suggest solutions without certain simplifications and potentially controversial assertions Nevertheless it can hope to present a systematic analysis and suggested prognosis based on a coherent philosophy As indicated above nothing is more needed in our times and second to spiritual weakening the greatest problem of all facing the Islamic World and indeed the whole world is lack of understanding of the true natures and essences of things This book examines our times from an Islamic philosophical worldview looking at the problems facing the Islamic World in the near past present and future respectively in three mutually complementary parts At the end of each part it suggests holistic and easily applied remedies to the problems it examines In other words and for those who enjoy sonorous German and Greek philosophical terms it examines the Zeitgeist from the Weltanschauung of Islam and suggests panaceas Prince Ghazi bin Muhammad has written a number of books and guides for thinking people and this small but potent work before you sums up many of his most keen and cogent insights and conclusions for that reason this may be his most impactful and motivational work to date

[China and the Islamic World](#) Robert R. Bianchi,2019-02-01 China is building a New Silk Road that runs through the heartland of the Muslim world promising it will create integrated economies and stronger ties across Eurasia and Africa Robert R Bianchi argues that while China has the financial and technical resources to accomplish its infrastructure goals it is woefully unprepared to deal with the social and political demands of its partner countries citizens

China and the Islamic World explores how China's leaders and citizens are learning through their relationships with Pakistan Turkey Indonesia Iran Nigeria and Egypt that they have to respect and adjust to the aspirations of ordinary people throughout the Islamic world not just cater to the narrow band of government and business elites Bianchi demonstrates that turbulent countries along the New Silk Road are likely to transform Chinese society at least as much as China changes them This realization will be deeply unsettling for China's authoritarian rulers who desperately want to monopolize power domestically The party and state bosses have responded to challenges with a contradictory blend of flexibility abroad and rigidity at home compromising with popular demands in one country after another while refusing to negotiate many of the same issues with their own citizens This book shows how China faces a growing struggle to maintain their double sided statecraft as it becomes apparent that the New Silk Road is not a one way street

**Cities and Metaphors** Somaiyeh Falahat, 2018-04-19 Introducing a new concept of urban space Cities and Metaphors encourages a theoretical realignment of how the city is experienced thought and discussed In the context of Islamic city studies relying on reasoning and rational thinking has reduced descriptive vivid features of the urban space into a generic scientific framework Phenomenological characteristics have consequently been ignored rather than integrated into theoretical components The book argues that this results from a lack of appropriate conceptual vocabulary in our global body of scholarly literature It challenges existing theories introduces and applies the concept of Hezar tu a thousand insides to rethink the spaces in historic cores of Fez Isfahan and Tunis This tool constructs a staging post towards a different articulation of urban space based on spatial physical virtual symbolic and social edges and thresholds nodes of sociospatial relationships zones of containment state of intermediacy and thus a logic of ambiguity rather than determinacy Presenting alternative narrations of paths through sequential discovery of spaces this book brings the sensual features of urban space into the focus The book finally shows that concepts derived from local contexts enable us to tailor our methods and theoretical structures to the idiosyncrasies of each city while retaining the global commonalities of all Hence in broader terms it contributes to a growing awareness that urban studies should be more inclusive by bringing the diverse global contexts of cities into the body of our urban knowledge

reactions to the changes that have accompanied Islamisation and how they feel it has impacted them It includes a brief overview of Islamisation globally and a brief history of Malaysia focusing especially on those aspects relevant to the book s subject The book gives a comprehensive explanation of how and why Islamisation occurred in Malaysia and illustrates the extent of change that has accompanied it The feedback from the research participants includes special analysis of reactions from Muslim women and non Muslims The reasons behind there being so little public debate about Islamisation and the concerns that this group of people have about what is happening is also explained Finally the author gives his opinion on the impact the change in government in May 2019 is likely to have
