Isolated Houses:

Anarchist's Guide to Historic House Museums Franklin D Vagnone, Deborah E Ryan, 2016-07-01 In these days of an aging traditional audience shrinking attendance tightened budgets increased competition and exponential growth in new types of communication methods America's house museums need to take bold steps and expand their overall purpose beyond those of the traditional museum They need not only to engage the communities surrounding them but also to collaborate with visitors on the type and quality of experience they provide This book is a groundbreaking manifesto that calls for the establishment of a more inclusive visitor centered paradigm based on the shared experience of human habitation It draws inspiration from film theater public art and urban design to transform historic house museums while providing a how to guide for making historic house museums sustainable through five primary themes communicating with the surrounding community engaging the community re imagining the visitor experience celebrating the detritus of human habitation and acknowledging the illusion of the shelter's authenticity *Anarchist's Guide to Historic House Museums* offers a wry but informed rule breaking perspective from authors with years of experience and gives numerous vivid examples of both good and not so good practices from house museums in the U S

Journal of the Royal Sanitary Institute Royal Society of Health (Great Britain), 1914 **The Jewish-Arab City** Haim Yacobi, 2009-03-17 Mixed city is a term widely used in Israel to describe areas occupied by both Jewish and Arab communities In a critical examination of such cities the author shows how a clear spatial and mental division exists between Arabs and Jews in Israel and how the occurrence of such communities is both exceptional and involuntary Looking at Jewish Arab relations in Israel in the context of the built environment it is argued that there are complex links between socio political relations and the production of contested urban space The case study of one particular Jewish Arab mixed city the city of Lod is used as the platform for wider theoretical discussion and political analysis This city has great significance in the present global context as more and more cities are becoming polarized ghettoized and fragmented in surprisingly similar ways This book examines the visible planning apparatuses and the hidden mechanisms of social political and cultural control involved in these processes Focusing on the spatialities of power this book brings to the fore a critical discussion of the urban processes that shape Jewish Arab mixed cities in Israel and will be of interest to students and scholars of Urban Studies Middle East Studies and Politics in general
