Concise History of Ancient Israel Bernd U. Schipper, 2020-04-28 The history of biblical Israel as it is told in the Hebrew Bible differs substantially from the history of ancient Israel as it can be reconstructed using ancient Near Eastern texts and archaeological evidence In *A Concise History of Ancient Israel* Bernd U Schipper uses this evidence to present a critical revision of the history of Israel and Judah from the late second millennium BCE to the beginning of the Roman period Considering archaeological material as well as biblical and extrabiblical texts Schipper argues that the history of Israel in the preexilic period took place mostly in the hinterland of the Levant and should be understood in the context of the Neo Assyrian expansion He demonstrates that events in the exilic and postexilic periods also played out differently than they are recounted in the biblical books of Ezra and Nehemiah In contrast to previous scholarship which focused heavily on Israel s origins and the monarchic period Schipper s history gives equal attention to the Persian and early Hellenistic periods providing confirmation that a wide variety of forms of YHWH religion existed in the Persian period and persisted into the Hellenistic age Original and innovative this brief history provides a new outline of the historical development of ancient Israel that will appeal to students scholars and lay readers who desire a concise overview **Israel** Daniel Gordis, 2016-10-18 Winner of the Jewish Book of the Year Award The first comprehensive yet accessible history of the state of Israel from its inception to present day from Daniel Gordis one of the most respected Israel analysts The Forward living and writing in Jerusalem Israel is a tiny state and yet it has captured the world s attention aroused its imagination and lately been the object of its opprobrium Why does such a small country speak to so many global concerns More pressingly Why does Israel make

the decisions it does And what lies in its future We cannot answer these questions until we understand Israel s people and the questions and conflicts the hopes and desires that have animated their conversations and actions Though Israel s history is rife with conflict these conflicts do not fully communicate the spirit of Israel and its people they give short shrift to the dream that gave birth to the state and to the vision for the Jewish people that was at its core Guiding us through the milestones of Israeli history Gordis relays the drama of the Jewish people s story and the creation of the state Clear eyed and erudite he illustrates how Israel became a cultural economic and military powerhouse but also explains where Israel made grave mistakes and traces the long history of Israel s deepening isolation With Israel public intellectual Daniel Gordis offers us a brief but thorough account of the cultural economic and political history of this complex nation from its beginnings to the present Accessible levelheaded and rigorous Israel sheds light on the Israel s past so we can understand its future The result is a vivid portrait of a people and a nation reborn
