Stern,2021-03-26 For a world mired in catastrophe nothing could be more urgent than the question of survival In this theoretically and methodologically groundbreaking book Adam Y Stern calls for a critical reevaluation of survival as a contemporary regime of representation In *Survival* Stern asks what texts what institutions and what traditions have made survival a recognizable element of our current political vocabulary The book begins by suggesting that the interpretive key lies in the discursive prominence of Jewish survival Yet the Jewish example he argues is less a marker of Jewish history than an index of Christianity s impact on the modern secular political imagination With this inversion the book repositions Jewish survival as the supplemental effect and mask of a more capacious political theology of Christian survival The argument proceeds by taking major moments in twentieth century philosophy theology and political theory as occasions for collecting the scattered elements of survival s theological political archive Through readings of canonical texts by secular and Jewish thinkers Hannah Arendt Walter Benjamin Franz Rosenzweig and Sigmund Freud Stern shows that survival belongs to a history of debates about the sovereignty and subjection of Christ s body Interrogating survival as a rhetorical formation the book intervenes in discussions about biopolitics secularism political theology and the philosophy of religion      *Insight Turkey / Fall 2023: Turktime Has Begun* Abzal Dosbolov,Ahmet Gökbek,Ali Ayata,Aniruddha Babar,Berdal Aral,Buğra Sarı,Christian Lekon,Deepika Dahiya,Esra Sarioğlu,Farid Shafiyev,Ferrukh Khakimov,Gökhan Umut,Göktuğ Sönmez,Günseli Ayça

faces unconventional threats such as food crisis health issues climate change global warming and illegal refugee problems The United States U S lost much of its constructive power and political will to act as an effective hegemon Neither the U S nor the challenging powers such as Russia respect the main principles of international law and decisions of global international organization such as the United Nations UN Enforcement and respect for international law are critical challenges in current International Relations International law acts as a framework for global governance but its effectiveness largely depends on the willingness and power of states The U S and Russia as permanent members of the UN Security Council profoundly influence the interpretation and enforcement of international norms and laws However their actions often reveal a selective adherence to international legal obligations influenced by national interests and political objectives This selective adherence of states above brings to light the complexity of applying international law where balancing national interests and political agendas with international legal commitments becomes a delicate task A significant instance of this selective adherence is the U S exercise of its veto power at the UN Security Council obstructing a widely supported resolution for an immediate humanitarian ceasefire in Gaza This act is indicative of the U S s distinct role in international decision making which should ideally contribute to global welfare rather than represent a form of exceptionalism Against this backdrop the World is Bigger than Five discourse by President Recep Tayyip Erdoğan becomes increasingly relevant calling for a more inclusive just and representative global decision making process for the UN Echoing UN Secretary General António Guterres comments on the U S veto in the Security Council where he noted The delay comes at a cost the Security Council s authority and credibility were severely undermined and the resolution is not being implemented there is an urgent need for reform in the UN system Such reforms are vital to confront challenges like the U S veto power ensuring the UN s capacity to effectively prevent wars and maintain international peace and security At the end the world system has totally collapsed especially after the most recent violations of the system such as the invasion of Ukraine by the Russian Federation and the Israeli genocidal acts in the Gaza Strip against the innocent Palestinians While the Western states which are considered as the pro status quo powers fiercely opposed the Russian invasion of Ukraine they did not oppose the Israeli atrocities On the contrary Western countries particularly the U S have provided unconditional and limitless military political and economic support to Israel As mentioned earlier such selective adherence exacerbates the crisis on this matter Furthermore global international organizations such as the UN as Secretary General Guterres underlined fail to prevent regional and global conflict and to punish the states who violates basic human rights and commit war crimes In this chaotic and unstable world many middle power states have been trying to form regional coalitions to increase their deterrent powers and to establish balance of power against real or potential threats Türkiye as a regional power and a global actor has also been trying to form bilateral and multilateral regional coalitions with certain countries to maximize its national interests and also to increase its regional effectiveness Within this context the AK Party government

under the leadership of President Erdoğan has declared the establishment of a Turkish Axis at the beginning of the second century of the Turkish Republic. When examined closely, it can be easily inferred that there are two main groups of states that Türkiye can improve its relations to form the Turkish Axis: namely Turkic and Muslim states. Türkiye has accordingly tried to improve its relations with the Turkic states in the context of ongoing geopolitical turbulence and shifts at the global and regional levels. In alignment with its broader geopolitical strategy, Türkiye has played a crucial role in shaping the OTS, particularly since the 8th Turkic Summit which took place in Istanbul on November 12, 2021. This influential role was further highlighted in the wake of Türkiye's significant support to Azerbaijan during the Second Karabakh War. This involvement not only solidified Türkiye's relations with fellow Turkic states but also expanded its strategic and economic engagement in the Turkestan region. Such developments are indicative of Türkiye's escalating influence within the Eurasian geopolitical sphere, characterized by a harmonious blend of diplomatic, economic, and cultural cooperation under the auspices of the OTS framework. Türkiye recognizes the strategic significance of its engagement with the Turkic states located in Central Asia and the Caucasus, the regions that have long attracted the attention of global powers due to their abundant natural resources, strategic location, potential for economic development, transportation, logistics, and connectivity. Türkiye has consistently nurtured and progressively strengthened its relationships with fellow Turkic states since their independence. As previously mentioned, this bond was further reinforced by Türkiye's pivotal role in the Second Karabakh War, highlighting its significant strategic influence in shaping the region's geopolitical landscape. During this conflict, Ankara played an instrumental role in facilitating the liberation of Azerbaijani territories and at the same time underscored Türkiye's strategic importance and bolstered its standing among these nations. Türkiye's successful interventions in regional crises such as Libya and Syria also had a positive impact on its image. In this context, the Turkic states' decision to align with Türkiye can be seen as a strategic move to leverage Türkiye's increasing influence in regional geopolitics and global affairs. This collaboration allows them to amplify their voice on the international stage, enhancing their bargaining power and positioning in global geopolitics. The alignment with Türkiye is not just about leveraging Türkiye's capabilities; it's also about cultivating a unified front to address the complex dynamics of global challenges, thereby fostering regional stability, economic growth, and cultural exchange among the Turkic states. The establishment of OTS has increased expectations for the Turkic states to initiate a multidimensional and multi-level relations within the Turkic world. Considering that many states want to become part of OTS as observer members, it is clear that the organization will serve as the main locomotive of a possible regional integration of the Turkic world and make a great contribution to the institutionalization of cooperation among the Turkic states. OTS has a great potential in political, economic, strategic, and social dimensions within international and regional systems. The Turkic nations, who have a common language, culture, and religion, are likely to collaborate in economic and technical sectors such as trade, transport, energy, agriculture, education, and high-tech ventures, and tackle common challenges such as water resource

management Furthermore the security and military dimension has become increasingly prominent within the multidimensional areas of cooperation among the Turkic states in recent years In conclusion the ascendance of the OTS in the Eurasian geopolitical landscape signals a transformative phase in the region s dynamics with the OTS poised to enhance economic and strategic connectivity between Europe and Asia This evolving role of the OTS indicative of a new geopolitical order is significantly influenced by T rkiye s active participation and leadership T rkiye s role in the OTS has been instrumental in transitioning the organization from a platform for dialogue to a powerful union of states committed to trade enhancement economic cooperation and bolstering regional stability This pivotal role played by T rkiye leveraging its unique geographical and cultural position as a linchpin between Europe and Asia has been crucial in steering the OTS towards greater regional integration and a heightened global presence As mentioned above the 10th Summit of the OTS themed Turk Time encapsulates the essence of this transformation The acronym TURKTIME symbolizes the core principles guiding the Summit These principles reflect not only the Summit s focal areas but also the overarching goals and aspirations of the OTS with T rkiye s stewardship They highlight a commitment to preserving cultural heritage fostering unity driving meaningful reforms expanding knowledge building trust promoting strategic investments facilitating mediation in conflicts and prioritizing energy cooperation This thematic framework of TURKTIME not only shapes the discourse of the Summit but also mirrors the broader strategy of the OTS in its quest for a more interconnected and influential role on the global stage Thus the OTS with T rkiye s significant influence stands as a testament to the evolving nature of regional alliances and their capacity to shape international relations in the 21st century In its special issue highlighting the importance of the Turkic World Insight Turkey presents 4 commentaries and 4 research articles related to the subject Additionally it includes 4 off topic publications which touch upon the Palestinian issue focusing on the aftermath of October 7 operation and the role of energy in T rkiye Russia relations Our first commentary with the contributions of Farid Shafiyev begins by discussing the evolution of the OTS emphasizing its transformation from a consultative mechanism to a powerful international organization of geostrategic importance In his analysis Shafiyev highlights Azerbaijan s goal of promoting Turkic unity by examining significant events such as the Shusha Declaration the aftermath of the Second Karabakh War and the strategic alliance between Turkic states By focusing on current trends in regional and global politics that have given rise to the development of the OTS the author argues that it is imperative to strengthen and enhance cooperation among Turkic states and that the importance of Turkic unity in today s complex geopolitical landscape is only growing In the second commentary Yerkin Tukomov focuses on the relations between the Turkic World and Kazakhstan Tukomov argues that Kazakhstan is fully cognizant of the strategic importance of its relations with the OTS member states and is actively engaged in managing the complex balance between geopolitical challenges and opportunities In his commentary Tukomov endeavors to provide a comprehensive summary of Kazakhstan s short and medium term strategic priorities On the other hand Ferrukh Khakimov

examines the current bilateral and multilateral relations between Uzbekistan and Türkiye in the context of ongoing geopolitical turmoil and changes at global and regional levels Khakimov argues that strengthening a comprehensive strategic partnership between Uzbekistan and Türkiye is vital to maintaining the geopolitical balance of power in the region and effectively addressing the common challenges of sustainable development Later the analysis provided by Mer Kocaman presents a comprehensive and nuanced account of the OTS The evaluation traces the evolution of the OTS from the dissolution of the Soviet Union to its recent summits examining aspects such as its establishment institutionalization and regional and international involvement Additionally the analysis delves into the organization's development project implementation and increasing global influence while emphasizing the OTS dedication to fostering cooperation and solidarity among Turkic states This special issue of *Insight Turkey* centers on the importance of the Turkic World and within it Abzal Dosbolov and Gökten Sönmez present a research article that examines how the OTS supported Central Asian republics in addressing their historical legacies specifically after Russian influence in the 18th century Examining the post-independence phase of the Central Asian republics from a postcolonial perspective the authors highlight the role of OTS in promoting regional cooperation cultural revival and social unity The article provides a comprehensive overview of the role of OTS in promoting growth and development in Central Asia while underlining the importance of strategic autonomy for Central Asia in the context of evolving regional dynamics Similarly in the second research article with a focus on the intricate geopolitical landscape of Central Asia and the Caucasus Muhammet Kök thoroughly examines and analyzes the OTS and its potential in economic strategic and social dimensions within international and regional systems In his analysis Kök delves into the various factors that impact the potential of OTS to foster cooperation and solidarity among the Turkic states He also examines the mechanism at play in the interconnected strategic economic and social structures to provide a comprehensive understanding of the situation In our next research articles the security aspect in Central Asia is discussed both under the umbrella of OTS and in the context of the Azerbaijan-Armenia war Based on the Turkic states' attempts to come together and become a comprehensive international organization Burcu Sarı touches upon the issue of member states pursuing coordinated policies on security issues of mutual interest According to Sarı the security dimension has been added to the multidimensional cooperation areas within OTS in recent years In this regard the author aims to investigate the positive results of the security cooperation developed and strengthened between the Turkic states under the umbrella of OTS focusing especially on basic security issues such as systemic security regional security counter-terrorism and military capacity On the other hand Sarwat Rauf examines the Azerbaijan-Armenia conflict and explores the main factors that led Russia the European Union and Türkiye to offer mediation to resolve the conflict In her research Rauf shows that a new geopolitical shift is taking place in the South Caucasus region leading to complexities among some of the options identified by mediators Furthermore to broaden the scope of our coverage our Fall issue confidently presents two commentaries and one research article focusing on the

Palestinian issue In this respect our two valuable authors evaluated the current situation in the commentaries section by emphasizing the latest events in Gaza and considering the historical perspective Firstly Salman Abu Sitta offers a rigorous and critical examination of the Palestinian Nakba and the ongoing Israeli Palestinian conflict delving into its historical roots to gain a comprehensive understanding of the current situation in Gaza Emphasizing that the ongoing conflicts in Gaza since October 7 2023 have deeply affected the world and countless innocent lives have been tragically lost Sitta defends the fundamental right of Palestinian refugees to return to their homeland claiming that this is an important element on the path to conflict resolution and permanent peace Similarly Muhammad H seyin Mercan s commentary discusses the Operation al Aqsa Flood Mercan also examines the possible impact of the operation on global and regional politics taking into account that the ongoing process will change the political balances in the Middle East Next Berdal Aral in his research article discusses the legal debates regarding the crisis caused by the military operation launched by the Palestinian forces of the Gaza based resistance against Southern Israel on October 7 2023 In his article Aral answers questions such as which side of the conflict can rightfully claim the right to self defense did Israel commit genocide in Gaza do Israel s statehood and territorial claims rest on firm legal grounds is it legally sensible to argue that Israel is a threat to international peace and security to elucidate the legal issues surrounding the current crisis and the broader context of Israel s legal status as a state and its territorial claims Finally our last off topic research article by Suinbay Suyundikov and Ahmet G kbel examines the significance of energy in the relations between T rkiye and Russia Suyundikov and G kbel first introduce the theory of interdependence and then analyze the energy policies and energy situation of Russia and T rkiye in detail The authors argue that Russia plays an important role in T rkiye s energy supply with its rich energy resources and that T rkiye is an important market for Russia s energy exports and examine the energy relations between T rkiye and Russia within the framework of the theory of interdependence As we bid farewell to another eventful year we are thrilled to present this latest issue of Insight Turkey enriched with six thought provoking commentaries and six in depth research articles Each piece has been carefully selected to enhance and diversify our coverage providing our readers with a multifaceted and profound understanding of the various topics discussed It is our earnest hope that this issue not only enlightens but also engages our readers in meaningful reflection and dialogue furthering the pursuit of knowledge and understanding in these dynamic times

*Genocide in Gaza*

Ahmet Davutoglu, Richard Falk, 2025-05-01 The December 2023 issuance of a Declaration of Conscience and Concern of Global Intellectuals to Stop Gaza Genocide to leading civil society activists and former governmental and UN officials throughout the world recorded 127 invited signatories and over 1500 endorsers On this basis the Declaration s originators Ahmet Davutoglu and Richard Falk invited a select number of signatories to an emergency conference in London to lend their authority to a further expression of the international community s deepest concerns in light of the continuation of the genocidal assault on the peoples of Gaza This book brings together the most valuable of the presentations delivered by

conference participants It provides a coherent perspective on the extreme human catastrophe that was exposed as it unfolded in real time arousing intense responses of outrage from the peoples of the world which failed to alter the shameless and shocking levels of active complicity on the part of several leading Western liberal democracies The latter constituted a cynical embrace of moral hypocrisy and double standards paralyzing the UN and ignoring the most flagrant violations of international law on Israel's part The book assesses the Israeli response to the Hamas attack of October 7 from the perspective of international law and morality as well as providing informed accounts of the inability of the UN to implement the demands of a permanent and unconditional ceasefire in Gaza It also provides accounts of the implementation of forced evacuation induced starvation and disease efforts calculated to destroy the civilian population in whole or in part Israel's defiance of the UN the ICJ Interim Order and international humanitarian law in the course of transparent violations of the Genocide Convention At a time when neither governments nor international institutions are demonstrating either the will or the capability to act in accord with the rule of law or the popular will of the majority of the peoples of the world who have demonstrated against the genocide in their millions these substantial essays give an overview of the extraordinary damage wrought and what can and should be done to protect Palestinian rights and construct a future that empowers Palestinians to give content to their right of self-determination rather than victimized by yet another effort to impose a solution from without or enable Israel to control the day after developments when the violence stops

**The Uzi Submachine Gun** Chris McNab, 2011-11-20 The Uzi submachine gun is one of the most recognizable weapons in history Its familiarity stems in part from the sheer diversity of its users Uzis have been seen being wielded and fired by US Secret Service agents and SWAT teams Israeli soldiers European special forces as well as criminals and terrorists the world over The reasons they use the Uzi are simple it provides devastating close range firepower in a reliable highly compact weapon Weapon The Uzi Submachine Gun tells the story of this unique weapon It not only explores the gun's technical development and specifications but also describes the and analyzes Uzi's combat use in a wide range of contexts from Israeli soldiers battling on the Golan Heights in 1967 through to modern pirates operating off the coast of Somalia This book presents the facts and challenges the myths surrounding this remarkable weapon *Studies in Intelligence*, 2018

**FBI, CIA, the Mob, and Treachery** Rodney Stich, 2006 Details the life of a decorated Vietnam War pilot Richard Taus his undercover work for the CIA and then as an FBI agent in the New York City area Here he discovered secret funding of Iraq by CIA assets during the 1980s and crimes perpetrated by his boss FBI supervisor Lindley DeVecchio And the false charges against him when he source to reports of these crimes *Israel's Security and Its Arab Citizens* Hillel Frisch, 2011-10-24 Although a rich literature combining international relations and domestic political developments has recently emerged most works specializing in state minority relations nationalism citizenship and human rights have not integrated insights from the field of international relations and security affairs into their analysis This absence is nowhere more visible than in the study of relations between the Israeli

state and its Arab Palestinian minority This book aims to bring back international relations and international security perspectives into the analysis of relations between the Israeli state and its Arab minority Drawing on international relations theory it argues that the relationship between the Israeli state and the predominant community as in many other cases characterized by ethno national cleavage was heavily influenced by the state's broader regional geo strategic security situation State policies toward Israel's Arab citizens moderated in the rare times of relative geo strategic security and hardened when Israel's regional position became more precarious

**The Power of Israel in the United States** James Petras, 2011-02-07 This book is a chapter by chapter analysis and documentation of the power of Israel via the Israeli Jewish or Pro Zionist Lobby on US Middle East policy It raises serious questions as to the primary beneficiary of US policy and its destructive results for the United States The extraordinary extent of US political economic military and diplomatic support for the state of Israel is explored along with the means whereby such support is generated and consolidated Contending that Zionist power in America ensured unconditional US backing for Israeli colonization of Palestine and its massive uprooting of Palestinians it views the interests of Israel rather than those of Big Oil as the primary cause of the disastrous US wars against Iraq and threats of war against Iran and Syria It demonstrates and condemns US imitation of Israeli practice as it relates to conduct of the war on terrorism and torture It sheds light on the AIPAC spying scandal and other Israeli espionage against America the fraudulent and complicit role of America's academic terrorist experts in furthering criminal government policies and the orchestration of the Danish cartoons to foment antipathy between Muslims and the West It questions the inability in America to sustain or even formulate a discourse related to the subject of Israeli influence on the United States It calls for a review of American Mid East policy with a view to reclaiming US independence of action based upon enlightened self interest and progressive principles
