Justice Without Frontiers furthering Human Rights

Scott Sheeran, Sir Nigel Rodley

Justice Without Frontiers **furthering Human Rights:**

Justice Without Frontiers C.G. Weeramantry, 2023-12-11 This work an important bridge between the worlds of science and law is one of a series but may be purchased separately It is one of the most detailed studies thus far on the interrelationship of science and technology with the growing discipline of human rights Apart from general perspectives it also deals specifically with the obligations of doctors engineers nuclear scientists computer technologists genetic engineers genetic counsellors mining technologists and others No library of science medicine engineering or technology of any description should be without it for it provides an irreducible minimum of human rights knowledge without which these disciplines cannot function in the next century with due regard to their social and human rights implications Not all scientists will agree with all the author s views but he poses them challengingly and brings into the open a number of major issues which can no longer be ignored The volume is a plea for an interdisciplinary and broad based approach to scientific problems scientific education and continuing education of scientists It places the scientific endeavour in its overall social and human rights context in a manner which neither students of science nor established scientists can ignore With an approach which is both imaginative and practical it explores the future of scientific endeavour in a humanistic perspective *Justice Without*

Frontiers C. G. Weeramantry, 1997-01-01 Part A General perspectives **Furthering Human Rights** C.G.

Weeramantry, 2023-07-24 This volume is based on the theme that justice cannot be confined within limitations of space time or academic discipline a theme which Judge Christopher Weeramantry has consistently applied in the valuable writings which are collected here Justice breaks out beyond the bounds of particular cultural traditions and territorial boundaries It transcends generational barriers and imposes on every generation duties towards those who are to follow It reaches beyond the bounds of the discipline of law and fertilizes the interface area between law and any discipline one may care to name This representative selection of lectures and writings delivered and published over the past three decades in many parts of the world reveals the depth and significance of Judge Weeramantry s contribution to the ongoing debate on the nature and scope of Human Rights in the international community Some of his essays foreshadowed future dangers which have since materialized and they all represent a resistance to attitudes of legal formalism which often seem to override considerations of justice in the handling of the problems under examination All of these discussions portray the all pervasive nature of justice its universality and its timelessness This volume is the first of several which will cover Judge Weeramantry s contribution to legal literature The remaining volumes will contain essays on Justice in a Global Context Justice in the Age of Technology and The Votaries of Justice *The Effectiveness of the UN Human Rights System* OBE Subedi (QC (Hon), Surya P.), Surya P. Subedi, 2017 9 4 Addressing the challenges brought about by a multi polar world *From the Margins of Globalization* Neve Gordon, 2004-01-01 In *From the Margins of Globalization* Neve Gordon assembles work from leading intellectuals and activists in the field of human rights Each essay in this volume discusses a community or issue left adrift in the wake of global

capitalism Whether it s Mohammad Khatami writing on the United Nations and its role after 9 11 or Ytienne Balibar thinking through universalism racism and sexism this book comprises a core challenge to human rights by focusing on what lies beyond the margins of a world in constant flux **Human Rights Mechanism in South Asia** Shveta Dhaliwal,2016-10-04 Shveta Dhaliwal teaches at the Rajiv Gandhi National University of Law Punjab Patiala India Her areas of specialisation are geopolitics regional human rights systems comparative political thought and international relations She has published more than 40 research papers and presented over 150 papers in international and national conferences She has an authored and three edited books to her credit She is member of the Indian Political Science Association and the Indian Society of International Law and South Asian Foundation *Senghore: Democracy, Human Rights and Governance i* ,2023-06-02 This book provides an interesting overview of the African political environment and a specific focus on human rights in the Gambia The author discusses the democratic system of governance across the African continent respect for human rights and fundamental freedoms press freedom respect for the rule of law and authority of the law good governance and responsible management of public resources *International Human Rights and Islamic Law* Mashood A. Baderin,2003-09-11 This volume examines the important question of whether or not international human rights and Islamic law are compatible It asks whether Muslim States can comply with international human rights law whilst adhering to Islamic law The traditional arguments on this subject are examined and responded to from both international human rights and Islamic legal perspectives The volume engages international human rights law in theoretical dialogue with Islamic law facilitating an evaluation of the human rights policy of modern Muslim States International Human Rights and Islamic Law formulates a synthesis between these two extremes and argues that although there are differences of scope and application there is no fundamental incompatibility between these two bodies of law Baderin argues that their differences could be better addressed if the concept of human rights were positively established from within the themes of Islamic law rather than by imposing it upon Islamic law as an alien concept Each article of the International Covenant on Civil and Political Rights and the International Covenant on Economic Social and Cultural Rights as well as relevant articles of the Convention on the Elimination of All Forms of Discrimination against Women are analysed in the light of Islamic law The volume concludes that it is possible to harmonise the differences between international human rights law and Islamic law through the adoption of the margin of appreciation doctrine by international human rights treaty bodies and the utilization of the Islamic law doctrines of maq sid al shar ah the overall objective of Shar ah and maslahah welfare by Muslim States in their interpretation and application of Islamic law respectively Baderin asserts that Islamic law can serve as an important vehicle for the guarantee and enforcement of international human rights law in the Muslim world and the volume concludes with recommendations to that effect *Human Rights, Southern Voices* , *Human Rights, Southern Voices* William Twining,2009-09-24 This anthology contains a variety of Southern perspectives on human rights and contemporary issues

relating to Islam African custom constitution making and abuses of the language of human rights Human Rights Michael Freeman, 2017-07-24 Human Rights is an introductory text that is both innovative and challenging Its unique interdisciplinary approach invites students to think imaginatively and rigorously about one of the most important and influential political concepts of our time Tracing the history of the concept the book shows that there are fundamental tensions between legal philosophical and social scientific approaches to human rights This analysis throws light on some of the most controversial issues in the field Is the idea of the universality of human rights consistent with respect for cultural difference Are there collective human rights What are the underlying causes of human rights violations And why do some countries have much worse human rights records than others The third edition has been substantially revised and updated to take account of recent developments including the Arab Spring the civil war in Syria the refugee crisis ISIS and international terrorism and climate change politics Widely admired and assigned for its clarity and comprehensiveness this book remains a go to text for students in the social sciences as well as students of human rights law who want an introduction to the non legal aspects of their subject Universalising International Law C.G. Weeramantry, 2004-04-01 Universalising international law is one of the most urgent tasks awaiting those who wish to advance the discipline Though all the world acknowledges its universal nature it has long been confined in a largely monocultural mould Indeed a tendency is sometimes discernible for international law to be compartmentalised and to function within a close cabinet of technical rules little known to those outside the ranks of specialists This volume looks initially at some general aspects of universalisation It thereafter adopts a universalist approach to some of the sources of international law and it deals with peace the bedrock of international law which likewise requires a universalist approach It is hoped that these studies will highlight the imperative need that now exists for extending the conceptual framework of international law thereby buttressing its moral authority and widening its appeal at a time when universal acceptance of international law is one of the most pressing demands of the international system **Routledge Handbook of International Human Rights Law** Scott Sheeran, Sir Nigel Rodley, 2014-08-07 The Routledge Handbook of International Human Rights Law provides the definitive global survey of the discipline of international human rights law Each chapter is written by a leading expert and provides a contemporary overview of a significant area within the field As well as covering topics integral to the theory and practice of international human rights law the volume offers a broader perspective through examinations of the ways in which human rights law interacts with other legal regimes and other international institutions and by addressing the current and future challenges facing human rights Providing up to date and authoritative articles covering key aspects of international human rights law this book work is an essential work of reference for scholars practitioners and students alike Chapter 35 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 3.0 license https://www.routledgehandbooks.com/doi/10.4324/9780203481417_ch35 **The SAGE Handbook of Human Rights** Anja

Mihr, Mark Gibney, 2014-07-21 The SAGE Handbook of Human Rights will comprise a two volume set consisting of more than 50 original chapters that clarify and analyze human rights issues of both contemporary and future importance The Handbook will take an inter disciplinary approach combining work in such traditional fields as law political science and philosophy with such non traditional subjects as climate change demography economics geography urban studies mass communication and business and marketing In addition one of the aspects of mainstreaming is the manner in which human rights has come to play a prominent role in popular culture and there will be a section on human rights in art film music and literature Not only will the Handbook provide a state of the art analysis of the discipline that addresses the history and development of human rights standards and its movements mechanisms and institutions but it will seek to go beyond this and produce a book that will help lead to prospective thinking Human Rights Dilemmas in the Developing World E. Ike Udogu, Sambuddha Ghatak, 2017-12-13 This book brings the quandaries that many minority groups confront in Latin America Asia and Africa into the limelight The chapters in this volume written by experts on this subject matter examine and provide invaluable solutions to the human rights infractions in Argentina Brazil Colombia Guatemala Mexico India Indonesia Malaysia Burundi Central African Republic Congo Brazzaville Angola Cameroon Gabon Nigeria and South Africa **Legal Cultures and Human Rights** Kirsten Hastrup, 2021-08-04 Cultural diversity as expressed for instance in different normative orders or legal cultures poses both a practical and a theoretical challenge to the idea of universal human rights In the present volume the authors seek to address and contain this challenge with a view to the changing nature of the global society While culture is sometimes signposted as an obstacle to human rights on the ground this volume suggests that in so far as the global culture of human rights is primarily seen as a formal and institutional order based on a particular view of equal human worth local cultures cannot trump it The main point is that the culture of human rights is inclusive of all and must maintain a standard by which all peoples and cultures can measure their own performances Further and as demonstrated in the present volume from a range of disciplines such as law literature history and anthropology culture is not a mental prison but a particular outlook upon the world for ever changing in response to new experiences and insights *The Right to Development and International Economic Law* Isabella D Bunn, 2012-03-01 The United Nations is commemorating the 25th anniversary of the 1986 Declaration on the Right to Development which proclaimed the right to be an inalienable human right by virtue of which every human person and all peoples are entitled to participate in contribute to and enjoy economic social cultural and political development in which all human rights and fundamental freedoms can be realized The UN now aims to mainstream the right into its policies and operational activities and is reviewing prospects for an internationally binding legal instrument The evolution of the right to development however has been dominated by debates about its conceptual validity and practical ramifications It has been hailed as the cornerstone of the entire human rights system and criticized as a distracting ideological initiative Questions also persist about the role of the right in reforming the international economic order This

book examines the legal and moral foundations of the right to development addressing the major issues It then considers the right to development in the global economy noting the challenges of globalization and identifying key principles such as differential treatment of developing countries participation and accountability It relates the right to broad objectives such as the Millennium Development Goals the human rights based approach to development and environmental sustainability Implications for international economic law and policy in the areas of trade development finance and corporate responsibility are assessed The conclusion looks to the legal and ethical contributions and limitations of the right to development in this new context With an academic and professional background in international law human rights and moral theology the author brings a unique interdisciplinary focus to this timely project

The Right to Food and the Trips Agreement

Hans Morten Haugen,2007 This volume analyses relationships between patent rights and human rights focusing on the right to food Whether the TRIPS Agreement and the International Covenant on Economic Social and Cultural Rights actually conflict is analyzed through different techniques of assessing treaty conflict

Home-work

Cynthia Conchita Sugars,2004-06-22 Canadian literature and specifically the teaching of Canadian literature has emerged from a colonial duty to a nationalist enterprise and into the current territory of postcolonialism From practical discussions related to specific texts to more theoretical discussions about pedagogical practice regarding issues of nationalism and identity Home Work constitutes a major investigation and reassessment of the influence of postcolonial theory on Canadian literary pedagogy from some of the top scholars in the field
