Schneider, 2008 An examination of kings courts and lords courts in Normandy that opens a new chapter in the debate over absolutism sovereignty and the nature of the state in early modern France Hidden deep in the countryside of France lay early modern Europe's largest bureaucracy twenty to thirty thousand royal bailiwick and seigneurial courts that served more than

eighty five percent of the king s subjects The crown courts and lords courts were far more than arenas of litigation in the modern sense They had become the nexus of local governance by the middle of the seventeenth century a rich breeding ground for men who controlled the villages towns and bailiwicks of France Yet even as the centralizing state was reaching its zenith under Louis XIV the king s largest permanent bureaucracy became increasingly alienated and cut adrift from the crown many decades before the French Revolution In *The King s Bench* Zo Schneider vividly brings to life the teeming world of the local courts with their magistrates and jailers townspeople and peasants Together they contested that vital border where the private world of families and property collided with the public commonwealth Schneider chronicles the transformation of local governance after the mid seventeenth century as judges and their courts became the face of public order in the countryside With this richly detailed local study of Normandy in the seventeenth and early eighteenth centuries Zo Schneider opens a new chapter in the debate over absolutism sovereignty and the nature of the state in early modern France Zo A Schneider has taught at Georgetown University and with the Smithsonian Institution in Washington D C Law and Government in England during the Long Eighteenth Century D. Lemmings, 2011-10-28 Over the long eighteenth century English governance was transformed by large adjustments to the legal instruments and processes of power This book documents and analyzes these shifts and focuses upon the changing relations between legal authority and the English people

The British and Their Laws in the Eighteenth Century David Lemmings, 2005 New analysis and interpretation of law and legal institutions in the long eighteenth century Law and legal institutions were of huge importance in the governance of Georgian society legislation expanded the province of administrative authority out of all proportion while the reach of the common law and its communal traditions of governance diminished at least outside British North America But what did the rule of law mean to eighteenth century people and how did it connect with changing experiences of law in all their bewildering complexity This question has received much recent critical attention but despite widespread agreement about Law s significance as a key to unlock so much which was central to contemporary life as a whole previous scholarship has only offered a fragmented picture of the Laws in their social meanings and actions Through a broader brush approach *The British and their Laws in the Eighteenth Century* contributes fresh analyses of law in England and British settler colonies c 1680 1830 its expert contributors consider among other matters the issues of participation central local relations and the maintenance of common law traditions in the context of increasing legislative interventions and grants of statutory administrative powers Contributors SIMON DEVEREAUX MICHAEL LOBBAN DOUGLAS HAY JOANNA INNES WILFRED PREST C W BROOKS RANDALL MCGOWEN DAVID THOMAS KONIG BRUCE KERCHER *Female Transgression in Early Modern Britain* Richard Hillman, Pauline Ruberry-Blanc, 2016-04-15 Presenting a broad spectrum of reflections on the subject of female transgression in early modern Britain this volume proposes a richly productive dialogue between literary and historical approaches to the topic The essays presented here cover a range of transgressive women daughters witches

prostitutes thieves mothers wives murderers violence in NW England violence in Scotland single mothers women as sexual partners in crime Contributions illustrate the dynamic relation between fiction and fact that informs literary and socio historical analysis alike exploring female transgression as a process not of crossing fixed boundaries but of negotiating the epistemological space between representation and documentation
