Juvenile Justice The Progressive Legacy Current Reforms:

Juvenile Justice, the Progressive Legacy and Current Reforms LaMar Taylor Empey, 1979 The Juvenile Court and the Progressives Victoria Getis, 2000 Today's troubled juvenile court system has its roots in Progressive era Chicago a city one observer described as first in violence and deepest in dirt Examining the vision and methods of the original proponents of the Cook County Juvenile Court Victoria Getis uncovers the court's intrinsic flaws as well as the sources of its debilitation in our own time Spearheaded by a group of Chicago women including Jane Addams Lucy Flower and Julia Lathrop the juvenile court bill was pushed through the legislature by an eclectic coalition of progressive reformers both women and men Like many progressive institutions the court reflected an unswerving faith in the wisdom of the state and in the ability of science to resolve the problems brought on by industrial capitalism A hybrid institution combining legal and social welfare functions the court was not intended to punish youthful lawbreakers but rather to provide guardianship for the vulnerable In this role the state was permitted great latitude to intervene in families where it detected a lack of adequate care for children The court also became a living laboratory as children in the court became the subjects of research by criminologists statisticians educators state officials economists and above all practitioners of the new disciplines of sociology and psychology The Chicago reformers had worked for large scale social change but the means they adopted eventually gave rise to the social sciences where objectivity was prized above concrete solutions to social problems and to professional groups that abandoned goals of structural reform The Juvenile Court and the Progressives argues persuasively that the current impotence of the juvenile court system stems from contradictions that lie at the very heart of progressivism

Recommended Libraries Public academic school law legal special and private corporate **Beyond Altruism** Willard C. Richan, 1987 When one is dealing with matters like the welfare poor and control of threatening behavior and abuse of young children and teenage pregnancy there are few neutrals So begins Willard Richan's challenging new book on social welfare policy Beyond Altruism proceeds from the assumption that social welfare policy is not formulated in an environment free from politics and special interests The allocation and redistribution of resources the setting of policy priorities and even the licensing of social workers are issues that are highly charged and are of enormous significance to both the parts and the whole of society *Punishing Juveniles* Ido Weijers, R A Duff, 2002-09-06 The first special juvenile court was created in 1899 Since then juvenile justice has had a chequered history and is now more controversial than ever Should our treatment of young offenders differ in its aims or principles from that of adult offenders What role should ideas of punishment or retribution play Should our aims be rehabilitative and educative rather than punitive Should we divert young offenders from the criminal justice system altogether opting for restorative rather than retributive justice These questions are addressed in this inter disciplinary volume which brings together criminologists educationalists psychologists and philosophers Part I traces the history of juvenile justice identifying patterns and signs of what the future might hold Part II tackles fundamental normative issues of punishment moral education and restoration with particular emphasis on the role of communication Part III attends to the role that such emotions as shame and guilt should play in juvenile justice paying particular and critical attention to Braithwaite's conception of reintegrative shaming *From Children to Citizens* Francis X. Hartmann, 2012-12-06 From the preface The issues around which the juvenile justice system is centered frequently evoke anger and impatience These emotions arise because the issues are so important and movement concerning the same issues seems nonexistent The persons who are involved with those same issues however elicit respect and often affection The Executive Sessions of the Kennedy School of Government combine the two elements issues and persons with the stated goal of advancing fruitful and effective public policy The Executive Session on the Future of the Juvenile Justice System regularly brought to the same table over a period of almost two years persons who understand the issues well who are professionally

and personally invested in certain positions on the issues and who were willing to engage themselves fully in the exchange of ideas both theoretical and practical which an Executive Session demands This book is one of the products of that process The editor who chaired the meetings of the Session takes certain positions regarding the future of the juvenile justice system and what the system should look like ten years from now 1 Becoming Delinquent: British and European Youth, 1650-1950 Pamela Cox, Heather Shore, 2017-11-30 This title was first published in 2002 Becoming Delinquent British and European Youth 1650 1950 provides a critical synthesis of the growing body of work on the history of British and European juvenile delinquency It is unique in that it analyzes definitions of and responses to disorderly youth across time from the mid seventeenth to the mid twentieth centuries and across space covering developments across Western Europe This comparative approach allows it to show how certain themes dominated European discourses of delinquency across this period not least panics about urban culture poor parenting dangerous pleasures family breakdown national fitness and future social stability It also shows how these various threats were countered by recurring strategies most notably by repeated attempts to deter delinquency to divide responsibility between the state civil society and the family and to find a proper balance between moral reform and physical punishment between care and control Juvenile Delinquency Joseph G. Weis, Robert D. Crutchfield, George Bridges, 2001-02-22 Designed for undergraduate juvenile delinquency courses this book actively involves students in the literature of the discipline presents the field in a format that is accessible understandable and enjoyable and is edited by well known scholars who are experienced researchers and teachers The readings in this anthology have been very carefully edited and pruned by the Editors so that undergraduate students can easily read them without getting bogged down or confused and lost in the technical methodological details At no additional cost we have included 5 substantial data analysis exercises spread throughout the book These exercises not only teach students the basic of SPSS the standard data analysis software in social science but also show them how they can test the delinquency theories and propositions covered in the reader using current delinquency data packaged with the book This absolutely unique feature is structured into fill in the blank exercise sets that are easy to grade for large numbers of students by a single instructor Over 150 very good questions have been put together for the readings so that instructors can easily test even in large courses whether or not their students are keeping up with the reading **From Children to Citizens** Mark H. Moore, 2012-12-06 From the preface History has dealt the juvenile court and more broadly the juvenile justice system a cruel blow What began as a promising social experiment has disappointed nearly everyone Inevitably disillusionment has weakened the mandate of the juvenile justice system Conflicts in philosophy once held at bay by general enthusiasm for the enterprise have now surfaced with great urgency What in fact is the purpose of the juvenile justice system Is it to protect the community from youth crime or to help children grow up Is it primarily a court dominated by concerns for justice Or is it more fundamentally a social service agency concerned with structuring the environments of children Is the court an

independent institution that stands apart from the community and administers justice in a fair and impartial way Or is the court an agent of the community in the sense that it establishes norms of conduct and draws both public and private agencies to the tasks of socializing children Federal Probation ,1979 **A Century of Juvenile Justice** Margaret K. Rosenheim,2002-03-15 Systems for Youth in Trouble Cutting the Edge Jeffrey Ian Ross,2018-02-06 Understanding crime criminals and criminal justice from a radical critical perspective is indispensable in today s academic applied research and policy sectors Neglect of this approach leads to narrow mindedness and the probability of repeating past mistakes or reinventing the wheel Cutting the Edge by Jeffrey Ian Ross will encourage individuals and organizations especially students and instructors to innovatively identify ways of experimenting with new policy initiatives designed to improve not only criminal justice but social and human justice as well Ross has significantly changed this volume to include six new chapters and three revised ones as well The studies chosen demonstrate the difference between critical criminology and other approaches used to study and explain criminological phenomena The authors do not approach the inequalities of the criminal justice system as phenomena that should be studied but as wrongs that must be righted Cutting edge critical criminology combines concerns about fairness in punishment tools of class analysis and the insights of feminism postmodernism and ethnography The authors included here wield these newer tools with elegance and enthusiasm Written with passion by experts in the field the book engages the mind as fully as it engages the emotions *Restorative Justice in Educational Settings & Policies* Dennis S.W. Lui,Rick Sarre,2019-04-01 Edited by two leading restorative justice scholars from the West and East this unique e book bridges a gap in the literature by bringing together new evidence on the application of restorative practices in educational settings The book has two aims First it builds a bridge between the restorative justice world in the East with that of the West The volume demonstrates how similar the theoretical and practical experiences are in the two sides of the world It presents us with evidence of what works in policy research and practice and allows us to make comparisons for the future Secondly the book challenges restorative justice which is often seen through the narrow lenses of the criminal justice system BOOK REVIEW It is arrogant indeed to think that schools in the west have all the answers and we are somehow more advanced in our thinking and practice The scope of the chapters in this book travails many of the issues that face schools and systems everywhere This book is highly recommended for anyone practicing studying or legislating restorative justice in educational settings Restorative practice is who we are not what we do Margaret Thorsborne Restorative practitioner trainer facilitator and author Table of Contents Foreword Margaret Thorsborne Note on Contributors Restorative Justice Series by RJ4All Publications Introduction Acknowledgements Restorative Justice in Educational Settings and Policies Bridging the East and West Dennis Wong and Theo Gavrielides PART I Lessons and
