Thorogood **Research in Education** ,1973-12 **Food Security Policy, Evaluation and Impact Assessment** Sheryl L. Hendriks,2019-12-06 This book offers an essential comprehensive yet accessible reference of contemporary food security discourse and guides readers through the steps required for food security analysis Food insecurity is a major obstacle to development and achievement of the Sustainable Development Goals It is a complex issue that cuts across traditional sectors in government and disciplines in academia Understanding how multiple elements cause and influence food security is essential for policymakers practitioners and scholars This book demonstrates how evaluation can integrate the four elements of food security availability access nutrition and resilience and offers practical tools for policy and programme impact assessment to support evidence based planning Aimed at researchers postgraduates and those undertaking professional development in food studies agricultural economics rural development nutrition and public health the book is key reading for those seeking to understand evidence based food security analysis **Journal of International Students, 2020 Vol. 10, No. 1** Krishna Bista,Chris Glass,2020-01-08 Our 10th Anniversary series features special essays from influential voices in the field who explore future directions for internationalization and student mobility as well as the experiences of new generations of international students in less researched contexts and the need for more critical perspectives Our 10th anniversary cover art celebrates the past ten years with an image of the Holi Festival of Colors celebrated around the world including Nepal the birthplace of our Founding Executive Editor Dr Krishna Bista The image is overlaid with the name of the journal in various languages to celebrate our authors and readers who span the globe as well as our plans to publish future special issues in the many languages of our readers similar to our recent Special Issue on International Students in China with full length articles in Simplified Chinese This issue features research and authors in Australia Austria Brazil China Lebanon Malaysia the Philippines Portugal and South Africa House of Commons - Welsh Affairs Committee: The Work Programme in Wales - HC 264 Great Britain: Parliament: House of Commons: Welsh Affairs Committee,2013-11-04 The Work Programme is the latest government contracted employment programme which aims to support long term jobseekers into work and off unemployment benefits Launched in June 2011 the Work Programme replaced a number of previous welfare to work programmes and consolidates employment support for a very wide range of jobseekers into a single mainstream programme Providers who are predominantly commercial companies provide support to participants and receive payments for finding participants sustained employment In Wales one in nine people who joined the Work Programme in its first two years found sustained employment defined as 13 or 26 weeks This is the lowest rate in Great Britain though not much lower than the average The Committee s conclusions include Working Links Wales and Rehab Jobfit the two providers operating in Wales must ensure that both they and their subcontractors have specific measures in place to support lone parents and that Work Programme participants in Wales unlike those in England cannot access European Social Fund training and skills courses which is hampering the performance of the Work Programme in Wales and ultimately the opportunities available to the long

term unemployed Similarly DWP must enable participants to exit the Work Programme if required in order to access Jobs Growth Wales The key issue here seems to be that there is a lack of flexibility in and between the various programmes set up to get people into work and that this lack of flexibility appears to be more marked in Wales *Child Health and Disease Nursing IV* Selmin ŞENOL,2025-01-15 [Educational Film/video Locator of the Consortium of University Film Centers and R.R. Care fills this gap with a detailed definition already adopted by professional organizations and praised at recent conferences. This volume makes recommendations for improving primary care: building its organization, financing, infrastructure, and knowledge base, as well as developing a way of thinking and acting for primary care clinicians. Are there enough primary care doctors? Are they merely gatekeepers? Is the traditional relationship between patient and doctor outmoded? The committee draws conclusions about these and other controversies in a comprehensive and up-to-date discussion that covers the scope of primary care, its philosophical underpinnings, its value to the patient and the community, its impact on cost, access, and quality. This volume discusses the needs of special populations, the role of the capitation method of payment, and more. Recommendations are offered for achieving a more multidisciplinary education for primary care clinicians. Research priorities are identified. Primary Care provides a forward-thinking view of primary care as it should be practiced in the new integrated health care delivery systems important to health care clinicians and those who train and employ them: policymakers at all levels, health care managers, payers, and interested individuals.
