Kaliningrad Question:

The Kaliningrad Question Richard J. Krickus, 2002 The only comprehensive English language study of Kaliningrad this invaluable book explores the history and uncertain fate of the former East Prussia Once touted as a future Hong Kong Russia's westernmost oblast has become a black hole of social and economic decay Often overlooked in the West this exclave is a potential flashpoint in an already unstable region Richard Krickus a leading expert on Kaliningrad fills a crucial gap by tracing its long history of unstable possession critiquing Russian and Western policy and mapping out possible futures for the oblast Visit our website for sample chapters

The Kaliningrad Challenge Hanne-Margret Birckenbach, 2003 The Kaliningradskaya Oblast Russia's Baltic enclave which soon will turn into an island amid the enlarged EU and NATO constitutes a twofold challenge to European politics Due to its economic social historical geographical strategic and cultural peculiarities the detached region may become a source of instability However due to the same peculiarities the region also bears the potential to serve as a pilot region for an EU Russian partnership To meet the latter perspective all actors concerned need to engage in a dialogue based coordinated and problem solving approach This study provides recommendations to a wide range of actors on how to approach the Kaliningrad challenge in a proactive manner It presents a policy paper drafted by a group of Kaliningrad experts from eight countries and is complemented by fourteen issue oriented chapters which provide in depth reasoning on the suggestions made by the group Hanne Margret Birckenbach is professor of political sciences at the University of Giessen Germany Christian Wellmann is deputy director of SHIP The Schleswig Holstein Institute for Peace Research Germany

From German Königsberg to Soviet Kaliningrad Jamie Freeman, 2020-11-10 This book explores how the Soviet Union after capturing and annexing the German East Prussian city of Königsberg in 1945 and renaming it Kaliningrad worked to transform the city into a model of Soviet modernity It examines how the Soviets expelled all the remaining German people repopulated the city and region with settlers from elsewhere in the Soviet Union destroyed the key remaining German buildings and began building a model Soviet city a physical manifestation of the societal transformation brought about by communism However the book goes on to show that over time many of the model Soviet buildings were uncompleted and that the citizens aware of their Polish and Lithuanian neighbours to both the east and the west and appreciating their place in the wider Baltic region came to view themselves as something different from other Soviet and Russian citizens The book concludes by assessing present developments as the people of Kaliningrad are increasingly rediscovering the city's pre Soviet past and forging a new identity for themselves on their own terms

Remaking Europe in the Margins Christopher S. Browning, 2019-06-04 Originally published in 2005 This comprehensive volume examines the issue of Europe making related to the post EU NATO enlargement and the post 9 11 situation Dual enlargement and the War on Terrorism are raising important questions for various actors in Europe in particular what these developments will mean for the future of regional cooperation and the development of a regional subjectivity Such concerns have been further compounded by America s distinction between New Europe and Old Europe The volume analyzes at both policy and conceptual levels how the dual enlargement and the War on Terrorism will impact on regional cooperation in northern Europe It examines how events in northern Europe have helped shape the nature of European space borders and governance including how the EU the US and Russia have each highlighted northern Europe as a special case to be utilized and learnt from in dealing with problems elsewhere in Europe and globally Presenting original articles the volume will appeal to scholars of regional politics as well as security international relations theory and geopolitics

EU-Russia Relations, 1999-2015 Anna-Sophie Maass, 2016-07-15 This book traces the development of EU Russia relations in recent years It argues that a major factor influencing the relationship is the changing internal dynamics of both parties in Russia s case an increasingly authoritarian state in the case of the EU an increasing coherence in its foreign policy as applied to former Soviet countries which Russia regarded as interference in its own sphere The book considers the impact of conflicts in Kosovo Chechnya Georgia and Ukraine discusses the changing internal situation in both Russia and the EU including the difficulties in overcoming fragmentation in EU policy making and concludes by assessing how the situation is likely to develop

Security Versus Freedom? Thierry Balzacq, 2016-04-01 From the viewpoint of migration and asylum policy and the fight against terrorism justice and home affairs is a key policy area It is also an area that raises important challenges and questions with regard to the preservation of fundamental freedoms This engaging volume examines the emerging European Union area of freedom security and justice at a time when key policy priorities are taking shape within the EU Bringing together contributors from different backgrounds the volume is ideal for students and scholars of European studies law political science political theory and sociology

German Blood, Slavic Soil Nicole Eaton, 2023-04-15 Winner of the Reginald Zelnik Book Prize in History *German Blood Slavic Soil* reveals how Nazi Germany and the Soviet Union twentieth century Europe s two most violent revolutionary regimes transformed a single city and the people who lived there During World War II this single city became an epicenter in the apocalyptic battle between their two regimes Drawing on sources and perspectives from both sides Nicole Eaton explores not only what Germans and Soviets thought about each other but also how the war brought them together She details an intricate timeline first describing how Königsberg a seven hundred year old German port city on the Baltic Sea and lifelong home of Immanuel Kant became infamous in the 1930s as the easternmost bastion of Hitler s Third Reich and the launching point for the Nazis

genocidal war in the East She then describes how after being destroyed by bombing and siege warfare in 1945 Kaliningrad became the westernmost city of Stalin's Soviet Union Kaliningrad is the only city to have been ruled by both Hitler and Stalin as their own in both wartime occupation and as integral territory of the two regimes German Blood Slavic Soil presents an intimate look into the Nazi Soviet encounter during World War II Eaton impressively shows how this outpost city far from the centers of power in Moscow and Berlin became a closed off space where Nazis and Stalinists each staged radical experiments in societal transformation and were forced to reimagine their utopias in dialogue with the encounter between the victims and proponents of the two regimes *Russian Foreign Policy Since 1990* Peter Shearman, 2018-02-12 A book which brings together leading experts on Russia's foreign relations providing the most comprehensive coverage of contemporary Russian foreign policy currently available in a single volume Detailed case studies of relations with specific countries and regions are complemented by chapters that examine the process of decision making conflict between domestic institutional actors the role of groups such as the military and Russia's search for a new identity

Afterlife of Events Marek Tamm, 2015-02-03 Recently we have witnessed a rearticulation of the traditional relationship between the past present and future broadening historiography's range from studying past events to their later impact and meaning The volume proposes to look at the perspectives of this approach called mnemohistory and argues for a redefinition of the term event **The SAGE Handbook of European Foreign Policy** Knud Erik Jorgensen, Aasne Kalland Aarstad, Edith Drieskens, Katie Laatikainen, Ben Tonra, 2015-04-30 During the last two decades the study of European foreign policy has experienced remarkable growth presumably reflecting a more significant international role of the European Union The Union has significantly expanded its policy portfolio and though empty symbolic politics still exists the Union's international relations have become more substantial and its foreign policy more focused European foreign policy has become a dynamic policy area being adapted to changing challenges and environments such as the Arab Spring new emerging economies powers the crisis of multilateralism and much more The SAGE Handbook of European Foreign Policy Two Volume set is a major reference work for Foreign Policy Programmes around the world The Handbook is designed to be accessible to graduate and postgraduate students in a wide variety of disciplines across the humanities and social sciences Both volumes are structured to address areas of critical concern to scholars at the cutting edge of all major dimensions of foreign policy The volumes are composed of original chapters written specifically to the following themes Research traditions and historical experience Theoretical perspectives EU actors State actors Societal actors The politics of European foreign policy Bilateral relations Relations with multilateral institutions Individual policies Transnational challenges The Handbook will be an essential reference for both advanced students and scholars **European Union and the Making of a Wider Northern Europe** Pami Aalto, 2006-09-27 This book is the first comprehensive study of how and why the European Union has enlarged to become northern Europe's leading power Pami Aalto presents a new approach to the under theorized field of EU foreign

policy studies showing how since 1990 the EU has enlarged to include Finland Sweden Estonia Latvia Lithuania and Poland and also incorporated the former East Germany He also examines how this northern expansion has led the EU to reflect on relations with Russia and its north western regions This unique study includes a fresh approach to the under theorized field of EU foreign policy key empirical material including hundreds of documents interviews and field experiments in depth case studies of relations between the EU Nordic states Baltic states and Russia with its north western regions This is essential reading for all students of European politics Russian studies and international relations *Parliamentary assembly Official report of debates, 2002 ordinary session Fourth part), September 2002, Volume IV* Council of Europe, **Perspectives on the Enlargement of the European Union** Cameron Ross, 2021-09-06 In a historic decision at its Copenhagen Conference in June 1993 the European Union gave the green light to an eastward expansion Initially invitations to join the EU went out to just six countries of the former Soviet bloc Poland Hungary the Czech and Slovak republics Romania and Bulgaria However it was not long before there was a queue of other applicants from Eastern Europe pressing at the EU's gates There were real fears in some quarters that the economic reforms demanded for entry into the EU would bring about more shock than therapy in Eastern Europe and that a rapid move to the market would undermine support for democracy This volume of essays by a group of internationally recognised experts focuses on the eastward expansion of the European Union and the EU's relations with the applicant states The primary aim of the volume is to provide a historical and analytical account of the enlargement process and to provide readers with a scholarly road map to guide them through the intricacies of the rapidly changing enlargement terrain After region wide studies of the enlargement process there are case studies of eight countries Bulgaria Romania the Czech Republic Slovakia Croatia Serbia Poland and Estonia Cooperation and Conflict between Europe and Russia Magdalena Dembińska, Frederic Mérand, 2021-08-26 When thinking about relations between Europe and Russia International Relations scholars focus on why conflict has replaced cooperation The geostrategic debate excludes the possible coexistence of cooperation and conflict Tracking the evolution of conflict and cooperation patterns in three zones of contact Estonia Kaliningrad and Moldova between 1991 and 2016 this edited volume argues that although the standard narrative remains compelling local patterns of cooperation and conflict are partly autonomous from the geostrategic level To account for the coexistence of cooperation and conflict the first chapter elaborates a theoretical proposition distinguishing fluid rigid and disputed symbolic boundaries which have different impacts on the ground The subsequent chapters address distinct dimensions of Euro Russian relations paying attention to local reality in Estonia Moldova Ukraine or Kaliningrad different sectors from energy to peoples movement and across institutional contexts such as the EU and NATO They confirm that the standard narrative holds in most cases but also that Euro Russian relations vary in crucial ways according to the interests and representations of actors immersed in specific geopolitical fields Despite a deterioration of geostrategic relations between Europe and Russia since the end of the Soviet Union Cooperation and Conflict between Europe and Russia

explores the intriguing coexistence of conflict and cooperation at the local level and across sectors and institutions The chapters in this book were originally published as a special issue of the journal *East European Politics* Iron Troikas: The New Threat from the East, 2006 In the aftermath of September 11 2001 American security analysts preoccupied with global terrorism have ignored Russia as a security threat but this is a mistake for two reasons First violence in the Caucasus a demographic and health crisis economic uncertainty income inequality and a return to autocracy suggest a problematic future for Russia Though deemed implausible an imploded Russia would have massive security implications for the international community But second there is an existential threat posed by Russia which Janusz Bugajski has described in his book *Cold Peace Russia's New Imperialism* It involves Moscow's campaign to reassert its influence over the security policies of the countries in Central and Eastern Europe The purpose of this monograph is to identify the actors and circumstances characterized as Iron Troikas which the Kremlin is employing to achieve these goals The focus is on four U S allies in the East Baltic Sea Region EBSR the Baltic countries and Poland Toward this end the monograph will analyze three groups The siloviki the men of power who represent the first component of Iron Troikas Like President Vladimir Putin they hope to create a strong state that will project Moscow's security interests in areas formerly dominated by the Soviet Union by exploiting Russia's massive energy wealth The economic warlords Mafia and rogue military personnel who have exploited the collapse of the USSR and the drive toward privatization Even if they are not working under the direction of the siloviki they have advanced the Kremlin's goals in the EBSR And the Old Nomenklatura and New Oligarchs in the EBSR countries who provide a network of local actors who aid and abet primarily in pursuit of economic and political advantage and not subversive goals Russian interests seeking to penetrate their societies *Russia's European Agenda and the Baltic States* Janina Šleivyte, 2009-12-16 Russian foreign policy has become an increasing concern in 21st century together with Russia's relations with its former Soviet neighbours but its relations with the Baltic States are particularly sensitive given the Baltic membership of NATO and the EU and Russia's increasingly fractious relations with those institutions This book discusses the development of Russia's approach to the new security architecture in Europe and assesses the prospects for a more active engagement of Russia in the Baltic Sea region and Europe as a whole The book considers the full range of issues affecting security including energy economic relations the special position of Russia's Kaliningrad enclave and Russia's special interest in the Russian minorities in the former Soviet Baltic states The evolution of Russian Baltic relations from 1990 2008 is set in the more general context of Russia's European agenda looking into the role and place of the Baltic States in this agenda It provides a comparative analysis of the European agenda in of Russia's foreign policy under Boris Yeltsin Vladimir Putin and Dmitry Medvedev and concludes that despite the replacement of the former Cold War stand off with a more positive climate and a complicated array of bilateral and multilateral contacts much more still needs to be done to engage Russia fully with the new Europe **Shifting Priorities in Russia's Foreign and Security Policy** Rémi Piet, Roger E. Kanet, 2016-03-09

Given the resurgence of Russian economic capabilities and of Russia's role as a regional even global political actor much of the literature written more than 45 years ago is already dated. The editor and contributors to this timely volume draw upon a broad range of analysts who deal with various aspects of Russian relations with its neighbours to the West and to the East. Implications for Russian foreign and security policy are key to understanding Russia's position in the 21st Century. Readers in Russian foreign and security policy, European, Eurasian and Asian security and contemporary international politics security will find this volume invaluable.

Enjoying the Beat of Appearance: An Psychological Symphony within **Kaliningrad Question**

In a world taken by displays and the ceaseless chatter of instantaneous interaction, the melodic elegance and psychological symphony produced by the prepared term often fade into the back ground, eclipsed by the constant noise and disturbances that permeate our lives.
