Music and Modernism, c. 1849-1950

Charlotte de Mille, 2011-01-18 *Music and Modernism* is a collection of essays which re-evaluates the significant connections between the disciplines of music, fine art and architecture in the period covering the emergence and flowering of modernism c 1849-1950. Combining established scholars in the field with those at the start of their careers, this book presents an exceptional cross-section of European and American modernism through a series of detailed case studies. Avoiding a simplistic engagement with cross or inter-disciplinarity, the focus of attention centres on themes that became key to modernist artists and critics: association, perception, representation, subjectivity, writing and language. Accordingly, this book re-thinks modernism itself in the light of both the fine arts and music to advocate a multiplicity of modernisms from which it is necessary for scholars to construct their own narratives.

*The Culture of Yellow* Sabine Doran, 2013-09-26 This is the first book to explore the cultural significance of the color yellow, showing how its psychological and aesthetic value marked and shaped many of the intellectual, political and artistic currents of late modernity. It contends that yellow functions during this period primarily as a color of stigma and scandal. Yellow stigmatization has had a long history; it goes back to the Middle Ages when Jews and prostitutes were forced to wear yellow signs to emphasize their marginal status. Although scholars have commented on these associations in particular contexts, Sabine Doran offers the first overarching account of how yellow connects disparate cultural phenomena such as the turn of the century, decadence, the yellow nineties, the rise of mass media, yellow journalism, mass immigration from Asia, the yellow peril and mass stigmatization, the yellow star that Jews were forced to wear in Nazi Germany. *The Culture of Yellow* combines cultural history with innovative readings of literary texts and visual artworks, providing a multilayered account of the unique role played by the color yellow in late nineteenth and twentieth century American and European culture.

*The Invisible Masterpiece* Hans Belting, 2001-09 The invisible masterpiece then is an unattainable ideal, an ideal that has both bewitched and bewildered artists. *The Invisible Masterpiece* is an unusual reconstruction of the history of the work of art since 1800 in which Hans Belting explores and explains the dreams and fears, the triumphs and failures of modernity's painters and sculptors.

**The Triumph of Modernism** Hilton Kramer, 2013-12-09 Widely acknowledged as the most authoritative art critic of his generation Hilton Kramer advanced his comments and judgments largely in the form of essays and short pieces Thus this first collection of his work to appear in twenty years is a signal event for the art world and for criticism generally The Triumph of Modernism not only traces the vicissitudes of the art scene but diagnoses the state of modernism and its vital legacy in the postmodern world Mr Kramer bracingly updates his incisive critique of the artists critics institutions and movements that have formed the basis for modern art Appearing for the first time in greatly expanded form is his consideration of the foundations of modern abstract painting and the future of abstraction The aesthetic intelligence that Mr Kramer brings to bear on certain tired assumptions about modernism many of them derived from methodologies and politics that have little to do with art helps rescue the artwork itself and its appreciation from the very institutions such as the art museum and the academy that purport to foster it Always clear eyed and vastly illuminating Hilton Kramer's art criticism remains among the very finest written in the past hundred years Readers of The Triumph of Modernism will be treated to an exhilarating experience

**Simulated Selves** Andrew Spira, 2020-06-25 The notion of a personal self took centuries to evolve reaching the pinnacle of autonomy with Descartes I think therefore I am in the 17th century This personalisation of identity thrived for another hundred years before it began to be questioned subject to the emergence of broader more inclusive forms of agency Simulated Selves The Undoing Personal

Identity in the Modern World addresses the constructed notion of personal identity in the West and how it has been eclipsed by the development of new technological social art historical and psychological infrastructures over the last two centuries While the provisional nature of the self sense has been increasingly accepted in recent years Simulated Selves addresses it in a new way not by challenging it directly but by observing changes to the environments and cultural conventions that have traditionally supported it By narrating both its dismantling and its incapacitation in this way it records its undoing Like The Invention of the Self Personal Identity in the Age of Art to which it forms a companion volume Simulated Selves straddles cultural history and philosophy Firstly it identifies hitherto neglected forces that inform the course of cultural history Secondly it highlights how the self is not the self authenticating abstraction only accessible to introspection that it seems to be it is also a cultural and historical phenomenon Arguing that it is by engaging in cultural conventions that we subscribe to the process of identity formation the book also suggests that it is in these conventions that we see our self sense and its transience best reflected By examining the traces that the trajectory of the self sense has left in its environment Simulated Selves offers a radically new approach to the question of personal identity asking not only how and why is it under threat but also given that we understand the self sense to be a constructed phenomenon why do we cling to it Catastrophe and

Philosophy David J. Rosner,2018-12-04 This book takes a different approach to the history of philosophy exploring a neglected theme the relationship between catastrophe and philosophy The book analyzes this theme within texts from ancient times to the present from a global perspective The book s focus is timely and relevant today as the planet is certainly facing a number of impending catastrophes right now e g environmental degradation overpopulation the threat of nuclear war etc **German Expressionism** Dorothy Price,2020-06-24 This book presents new research on the histories and

legacies of the German Expressionist group Blaue Reiter the founding force behind modernist abstraction For the first time Blaue Reiter is subjected to a variety of novel inter disciplinary perspectives ranging from a philosophical enquiry into its language and visual perception to analyses of its gender dynamics its reception at different historical junctures throughout the twentieth century and its legacies for post colonial aesthetic practices The volume offers a new perspective on familiar aspects of Expressionism and abstraction taking seriously the inheritance of modernism for the twenty first century in ways that will help to recalibrate the field of Expressionist studies for future scholarship Blaue Reiter still matters the contributors argue because the legacies of abstraction are still being debated by artists writers philosophers and cultural theorists today

*Spiritual Philosophers: From Schopenhauer to Irigaray* Richard White,2020-02-20 How does thinking illuminate the spiritual view of life How does a close examination of key spiritual thinkers help us to live in the modern world And in what way does philosophy enhance spirituality In this book Richard White answers these questions by analysing a range of important philosophers from Schopenhauer in the first half of the 19th century to Irigaray in the present day Each chapter examines the work of a single writer and one closely associated theme such as Nietzsche on generosity Benjamin on wisdom

and Derrida on mourning The author looks at philosophy and spirituality in the tradition of continental philosophy and he views spirituality as something that can be separated from religion With the rise of reductive scientific materialism becoming ever more prevalent in modern society White seeks to recover the idea of a spiritual tradition which is not otherworldly but philosophical in nature The thinkers discussed in this book articulate some of the deepest possibilities of human existence Spiritual Philosophers offers an approach to philosophy as a spiritual practice which the author sees as an integral part of our life As a pioneering work in an emerging field the philosophy of spirituality this book contributes to several key debates surrounding spirituality theology and the role of philosophy in the contemporary world     The Palgrave Handbook of Intermediality Jørgen Bruhn,Asun López-Varela Azcárate,Miriam de Paiva Vieira,2023-12-01 This handbook provides an extensive overview of traditional and emerging research areas within the field of intermediality studies understood broadly as the study of interrelations among all forms of communicative media types including transmedial phenomena Section I offers accounts of the development of the field of intermediality its histories theories and methods Section II and III then explore intermedial facets of communication from ancient times until the 21st century with discussion on a wide range of cultural and geographical settings media types and topics by contributors from a diverse set of disciplines It concludes in Section IV with an emphasis on urgent societal issues that an intermedial perspective might help understand     **Invisible Colors** John C. Welchman,1997-01-01 In one of his sparkling aphorisms on the end of optical art Marcel Duchamp suggested that the title of an artwork was an invisible color John Welchman now offers the first critical history of how and why modern artworks receive their titles He shows that titles were seldom produced and can rarely be understood outside of the institutional parameters that made them visible exhibitions criticism catalogues and even national politics     **Boston Modern** Judith Arlene Bookbinder,2005 A fresh incisive study of the expressionist approach to modern art in Boston
