The dog: its origin, natural history and varieties H D. Richardson,1851 *The Dog; Its Origin, Natural History and Varieties. With Directions for Its General Management ... A New Edition* H. D. Richardson,1851 Man & Beast Andrew Rule,2016-10-31 Man Beast features some of the greats of Australian literature writing about the particular kinships they have with animals the loves the losses and the surprising turns those relationships can take Les Carlyon writes about those strange beings horse people Robert Drewe s curious eye falls on everything from bull sharks to bull ants Don Watson is a secret racehorse fancier Shaun Micallef remembers the dog that might never have been and Paul Toohey laments the passing of the roo dog Plus Andrew Rule Phillip Adams Greg Baum Tony Birch John Birmingham Anson Cameron John Clarke Greg Combet Trent Dalton John Elder Jonathan Green John Harms Malcolm Knox Garry Linnell William McInnes Bruce Pascoe Liam Pieper Frank Robson Andrew Rule John Silvester Jeff Sparrow Tony Wilson Tony Wright share their memorable stories of the animals in their lives Kangaroos Terence J Dawson,2012-04-16 This book provides a clear and accessible account of kangaroos showing how their reproductive patterns social structure and other aspects of their biology make them well adapted to Australia s harsh climate and demanding environment Since the last edition of this book nearly 20 years ago much more is now known about the biology and ecology of these iconic animals This completely revised edition describes these new perspectives and attempts to counter the many urban and rural myths that still exist **Our Debt to the Dog** Bryan D. Cummins,2013-11-07 When Homo sapiens sapiens met Canis lupus lupus millennia ago the result was Canis lupus familiaris the domestic dog Since that fateful encounter the dog has become arguably humankind s greatest creation The domestic dog is the most widely distributed species other than ourselves in the world being found virtually wherever people live and is also the most diversified of species with literally hundreds of recognized breeds While we have shaped the dog it too has helped shape human history in innumerable ways Our Debt to the Dog is a critical historical and cross cultural examination through the use of case studies of this most improbable 15 000 year relationship and an exploration of how this relationship shaped the history of the world It is also very much an apology to the dog because over the course of the partnership horrific acts were perpetrated against it intentionally and otherwise Our Debt to the Dog enriches our understanding of the dog and extends our appreciation for the profound complexity of past and present human canine relationships and the dog s contributions to our lives and our world Austral English Edward Ellis Morris,2011-06-09 The first scholarly dictionary of Australian and New Zealand English including loan words from indigenous languages originally published in 1898 *Austral English* Edward Ellis Morris,1898 **Dogs; their origin and varieties, directions as to their general management, and simple instructions as to their treatment under disease** H.
