Kannani And Document Of Flames:

Kannani and Document of Flames Katsuei Yuasa, 2005-06-16 This volume makes available for the first time in English two of the most important novels of Japanese colonialism Yuasa Katsuei s Kannani and Document of Flames Born in Japan in 1910 and raised in Korea Yuasa was an eyewitness to the ravages of the Japanese occupation In both of the novels presented here he is clearly critical of Japanese imperialism Kannani 1934 stands alone within Japanese literature in its graphic depictions of the racism and poverty endured by the colonized Koreans Document of Flames 1935 brings issues of class and gender into sharp focus It tells the story of Tokiko a divorced woman displaced from her Japanese home who finds herself forced to work as a prostitute in Korea to support herself and her child Tokiko eventually becomes a landowner and oppressor of the Koreans she lives amongst a transformation suggesting that the struggle against oppression often ends up replicating the structure of domination In his introduction Mark Driscoll provides a nuanced and engaging discussion of Yuasa s life and work and of the cultural politics of Japanese colonialism He describes Yuasa s sharp turn in the years following the publication of Kannani and Document of Flames toward support for Japanese nationalism and the assimilation of Koreans into Japanese culture This abrupt ideological reversal has made Yuasa s early writing initially censored for its anticolonialism all the more controversial In a masterful concluding essay Driscoll connects these novels to larger theoretical issues demonstrating how a deep understanding of Japanese imperialism challenges prevailing accounts of postcolonialism

Mechademia 4 Frenchy Lunning,2013-11-30 The themes of war and time are intertwined in unique ways in Japanese culture freighted as that nation is with the multiple legacies of World War II the country's militarization its victories and defeats Hiroshima and Nagasaki and the uneasy pacifism imposed by the victors Delving into topics ranging from the production of wartime propaganda to the multimedia adaptations of romance narrative contributors to the fourth volume in the Mechademia series address the political cultural and technological continuum between war and the everyday time of orderly social productivity that is reflected confronted and changed in manga anime and other forms of Japanese popular culture Grouped thematically the essays in this volume explore the relationship between national sovereignty and war from the militarization of children as critically exposed in Grave of the Fireflies to reworkings of Japanese patriotism in The Place Promised in Our Early Days the intersection of war and the technologies of social control as observed in the films of Oshii Mamoru and the apocalyptic vision of Neon Genesis Evangelion history and memory as in manga artists working through the trauma of Japan's defeat in World War II and the new modalities of storytelling represented by Final Fantasy X and the renewal and hybridization of militaristic genres as a means of subverting conventions in Yamada Futaro's ninja fiction and Miuchi Suzue's girl knight manga Contributors Brent Allison Mark Anderson Christopher Bolton Williams College Martha Cornog Marc Driscoll U of North Carolina Chapel Hill Angela Drummond Mathews Paul Quinn College Michael Fisch Michael Dylan Foster Indiana U Wendy Goldberg Marc Hairston U of Texas Dallas Charles Shiro Inouye Tufts University Rei Okamoto

Kono, 2010-03-01 Romance Family and Nation in Japanese Colonial Literature explores how Japanese writers in Korea Manchuria and Taiwan used narratives of romantic and familial love in order to traverse the dangerous currents of empire Focusing on the period between 1937 and 1945 this study discusses how literary renderings of interethnic relations reflect the numerous ways that Japan's imperial expansion was imagined as an unrequited romance a reunion of long separated families an oppressive endeavor and a utopian collaboration The manifestations of romance marriage and family in colonial literature foreground how writers positioned themselves vis vis empire and reveal the different conditions consequences and constraints that they faced in rendering Japanese colonialism Modern Korea and Its Others Vladimir Tikhonov, 2015-11-19 The period spanning the 1880s to 1945 was a crucially important formative time for Korea during which understandings of modernity were largely shaped by the images of Korea's neighbours to the east west and north China Japan and Russia represented at some moments modern threats but also denoted a range of alternative modernity possibilities and ultimately provided a model for Korea s pre colonial and colonial modernity This book explores the way in which modern Korea perceived its geographic neighbours from the 1890s until 1945 It shows that Korea s modern nationalism was at the same time internationalist in its orientation as the vision of Korea s ideal place in the world and brighter national future was often linked to the examples positive and negative threats perceived and real and allies abroad Exploring the importance of the international knowledge and experience for the formation of the Korean nationalist paradigms it offers nuance to the existing picture of the international connections and environment of the Korean national movements It shows that the picture of Japan inside the anti Japanese independence movement of the colonial period was more complicated than simple hatred of the invaders modern achievements of Japan were admired even by anti colonial nationalists as a possible model for Korea The book also demonstrates the extent to which Chinese and Soviet revolutions influenced the thinking of modern Korean intellectuals across the whole ideological spectrum Introducing new sources presented in English for the first time and including themes such as race and ethnicity global revolution and gender this book will be of great interest to students and scholars of Korean East Asian and Russian history as well as historians of the colonial modern era more generally The Affect of Difference Christopher P. Hanscom, Dennis Washburn, 2016-05-31 The Affect of Difference is a collection of essays offering a new perspective on the history of race and racial ideologies in modern East Asia Contributors approach this subject through the exploration of everyday culture from a range of academic disciplines each working to show how race was made visible and

present as a potential means of identification By analyzing artifacts from diverse media including travelogues records of speech photographs radio broadcasts surgical techniques tattoos anthropometric postcards fiction the popular press film and soundtracks an archive that chronicles the quotidian experiences of the colonized their essays shed light on the politics of inclusion and exclusion that underpinned Japanese empire One way this volume sets itself apart is in its use of affect as a key analytical category Colonial politics depended heavily on the sentiments and moods aroused by media representations of race and authorities promoted strategies that included the colonized as imperial subjects while simultaneously excluding them on the basis of natural differences Chapters demonstrate how this dynamic operated by showing the close attention of empire to intimate matters including language dress sexuality family and hygiene The focus on affect elucidates the representational logic of both imperialist and racist discourses by providing a way to talk about inequalities that are not clear cut to show gradations of power or shifts in definitions of normality that are otherwise difficult to discern and to present a finely grained perspective on everyday life under racist empire It also alerts us to the subtle often unseen ways in which imperial or racist affects may operate beyond the reach of our methodologies Taken together the essays in this volume bring the case of Japanese empire into comparative proximity with other imperial situations and contribute to a deeper more sophisticated understanding of the role that race has played in East Asian empire Seeds of Control David Fedman, 2020-07-23 Conservation as a tool of colonialism in early twentieth century Korea Japanese colonial rule in Korea 1905 1945 ushered in natural resource management programs that profoundly altered access to and ownership of the peninsula s extensive mountains and forests Under the banner of forest love the colonial government set out to restructure the rhythms and routines of agrarian life targeting everything from home heating to food preparation Timber industrialists meanwhile channeled Korea's forest resources into supply chains that grew in tandem with Japan's imperial sphere These mechanisms of resource control were only fortified after 1937 when the peninsula and its forests were mobilized for total war In this wide ranging study David Fedman explores Japanese imperialism through the lens of forest conservation in colonial Korea a project of environmental rule that outlived the empire itself Holding up for scrutiny the notion of conservation Seeds of Control examines the roots of Japanese ideas about the Korean landscape as well as the consequences and aftermath of Japanese approaches to Korea s greenification Drawing from sources in Japanese and Korean Fedman writes colonized lands into Japanese environmental history revealing a largely untold story of green imperialism in Asia David Mitchell Sarah Dillon, 2011 The outcome of the first international conference on David Mitchell's writing this collection of critical essays focuses on his first three novels Ghostwritten number9dream and Cloud Atlas to provide an analysis of Mitchell's complex narrative techniques and the literary political and cultural implications of his work Imperial Romance Su Yun Kim, 2020-11-15 In Imperial Romance Su Yun Kim argues that the idea of colonial intimacy within the Japanese empire of the early twentieth century had a far broader and more popular influence on discourse makers social leaders and intellectuals

than previously understood Kim investigates representations of Korean Japanese intimate and familial relationships including romance marriage and kinship in literature media and cinema alongside documents that discuss colonial policies during the Japanese protectorate period and colonial rule in Korea 1905 45 Focusing on Korean perspectives Kim uncovers political meaning in the representation of intimacy and emotion between Koreans and Japanese portrayed in print media and films Imperial Romance disrupts the conventional reading of colonial period texts as the result of either coercion or the disavowal of colonialism thereby expanding our understanding of colonial writing practices. The theme of intermarriage gave elite Korean writers and cultural producers opportunities to question their complicity with imperialism Their fictions challenged expected colonial boundaries creating tensions in identity and hierarchy and also in narratives of the linear developmental trajectory of modernity Examining a broad range of writings and films from this period Imperial Romance maps the colonized subjects fascination with their colonizers and with moments that allowed them to become active participants in and agents of Japanese and global imperialism The Sea and the Sacred in Japan Fabio Rambelli, 2018-07-12 The Sea and the Sacred in Japan is the first book to focus on the role of the sea in Japanese religions While many leading Shinto deities tend to be understood today as unrelated to the sea and mountains are considered the privileged sites of sacredness this book provides new ways to understand Japanese religious culture and history Scholars from North America Japan and Europe explore the sea and the sacred in relation to history culture politics geography worldviews and cosmology space and borders and ritual practices and doctrines Examples include Japanese indigenous conceptualizations of the sea from the Middle Ages to the 20th century ancient sea myths and rituals sea deities and sea cults the role of the sea in Buddhist cosmology and the international dimension of Japanese Buddhism and its maritime imaginary Thought Crime Max M. Ward, 2019-03-15 Max Ward explores the Japanese state s efforts to suppress political radicalism in the 1920s and 1930s through the enforcement of what it called thought crime providing a window into understanding how modern states develop ideological apparatuses to subject their respective populations Shape Shifters Lily Anne Y. Welty Tamai, Ingrid Dineen-Wimberly, Paul Spickard, 2020-01-01 Shape Shifters presents a wide ranging array of essays that examine peoples of mixed racial identity Moving beyond the static either or categories of racial identification found within typical insular conversations about mixed race peoples Shape Shifters explores these mixed race identities as fluid ambiguous contingent multiple and malleable This volume expands our understandings of how individuals and ethnic groups identify themselves within their own sociohistorical contexts The essays in Shape Shifters explore different historical eras and reach across the globe from the Roman and Chinese borderlands of classical antiquity to medieval Eurasian shape shifters the Native peoples of the missions of Spanish California and racial shape shifting among African Americans in the post civil rights era At different times in their lives or over generations in their families racial shape shifters have moved from one social context to another And as new social contexts were imposed on them identities have even changed from one group to another This is not racial ethnic or religious

imposture It is simply the way that people s lives unfold in fluid sociohistorical circumstances With contributions by Ryan Abrecht George J S nchez Laura Moore and Margaret Hunter among others Shape Shifters explores the forces of migration borderlands trade warfare occupation colonial imposition and the creation and dissolution of states and empires to highlight the historically contingent basis of identification among mixed race peoples across time and space Handbook of the History of Terrorism Carola Dietze, Claudia Verhoeven, 2022 The Oxford Handbook of the History of Terrorism presents a re evaluation of the major narratives in the history of terrorism exploring the emergence and the use of terrorism in world history from antiquity up to the twenty first century. The volume presents terrorism as a historically specific form of political violence that was generated by modern Western culture and then transported around the globe where it interacted with and was transformed in accordance with local conditions It offers cogent arguments and well documented case studies that support a reading of terrorism as a modern phenomenon as well as sustained analyses of the challenges involved in the application of the theories and practices of modernity and terrorism to non Western parts of the world both for historical actors and academic commentators Divine Work, Japanese Colonial Cinema and Its Legacy Kate Taylor-Jones, 2017-08-24 By analyzing cinema in terms of Imperialism and Colonialism Divine Work directly contributes to the understanding of cinema produced during Japan's colonial period and its lingering legacies Routledge Handbook of Modern Korean History Michael J Seth, 2016-01-29 Beginning in the mid nineteenth century when Korea became entangled in the world of modern imperialism and the old social economic and political order began to change this handbook brings together cutting edge scholarship on major themes in Korean History Contributions by experts in the field cover the Late Choson and Colonial periods Korea's partition and the diverging paths of North and South Korea Topics covered include The division of Korea Religion Competing imperialisms Economic change War and rebellions Nationalism Gender North Korea Under Kim Jong Il Global Korea The Handbook provides a stimulating introduction to the most important themes within the subject area and is an invaluable reference work for any student and researcher of Korean History Women Adrift Noriko J. Horiguchi, How women figured in the expansion of the national body of the Japanese empire **Manufacturing Modern** Japanese Literature Edward Mack, 2010-08-20 A history of book production and consumption in Japan showing how the Tokyo based publishing industry manufactured the very concept of modern Japanese literature Japanese Assimilation Policies in Colonial Korea, 1910-1945 Mark E. Caprio, 2011-07-01 From the late nineteenth century Japan sought to incorporate the Korean Peninsula into its expanding empire Japan took control of Korea in 1910 and ruled it until the end of World War II During this colonial period Japan advertised as a national goal the assimilation of Koreans into the Japanese state It never achieved that goal Mark Caprio here examines why Japan's assimilation efforts failed Utilizing government documents personal travel accounts diaries newspapers and works of fiction he uncovers plenty of evidence for the potential for assimilation but very few practical initiatives to implement the policy Japan's early history of colonial rule included tactics

used with peoples such as the Ainu and Ryukyuan that tended more toward obliterating those cultures than to incorporating the people as equal Japanese citizens Following the annexation of Taiwan in 1895 Japanese policymakers turned to European imperialist models especially those of France and England in developing strengthening its plan for assimilation policies But although Japanese used rhetoric that embraced assimilation Japanese people themselves from the top levels of government down considered Koreans inferior and gave them few political rights Segregation was built into everyday life Japanese maintained separate communities in Korea children were schooled in two separate and unequal systems there was relatively limited intermarriage and prejudice was ingrained Under these circumstances many Koreans resisted assimilation By not actively promoting Korean Japanese integration on the ground Japan s rhetoric of assimilation remained just that
