is autobiography radically different from fiction due to its referentiality but first and foremost it should be read differently

Roland Barthes Writing the Political Andrew Stafford, 2022-11-08 With typical rhetorical flourish and beholden to paradox Roland Barthes defines his work on myth as an attempt to define things and yet he is known foremost for his work on language The aim of this book is to take things here as social relations objects and other human beings with which the self interacts It does so via language And language in Barthes's conception is double alienating alienated on the one side liberating inspiring on the other It is this double that we investigate in this book A spectre is haunting Barthes studies the spectre of dialectics and the spectral presence of dialectics is what we will define in this book as the Barthesian spirit in both senses of the word that is haunting his analyses and at once providing us with a double approach I have tried to define things not words Barthes 2009 131n1
