White
 Richard Dyer, 2017-09-19 Now twenty years since its initial release Richard Dyer's classic text *White* remains a groundbreaking and insightful study of the representation of whiteness in Western visual culture *White* explores how while racial representation is central to the organisation of the contemporary world white people have remained a largely unexamined category in sharp contrast to the many studies of images of black and Asian peoples Looking beyond the apparent unremarkability of whiteness Dyer demonstrates the importance of analysing images of white people Dyer places this representation within the contexts of Christianity race and colonialism In a series of absorbing case studies he shows the construction of whiteness in the technology of photography and film as part of a wider culture of light discusses heroic white masculinity in muscle man action cinema from Tarzan and Hercules to Conan and Rambo analyses the stifling role of white women in end of empire fictions like *Jewel in the Crown* and traces the associations of whiteness with death in *Falling Down* horror movies and cult dystopian films such as *Blade Runner* and the *Aliens* trilogy This twentieth anniversary edition includes a new introductory chapter by Maxime Cervulle entitled *Looking into the light Whiteness racism and regimes of representation* This new introduction illuminates how Dyer has made a major contribution to the study of contemporary regimes of representation by unveiling the cultural mechanisms that have formed and reinforced white hegemony mechanisms under which white people have come to represent what is ordinary neutral even universal

Portrait Painting Atelier Suzanne Brooker,2011-11-15 The art of portraiture approached its apex during the sixteenth century in Europe with the discovery of oil painting when the old masters developed and refined techniques that remain unsurpassed to this day The ascendance of nonrepresentational art in the middle of the twentieth century displaced these venerable skills especially in academic art circles Fortunately for aspiring artists today who wish to learn the methods that allowed the Old Masters to achieve the luminous color and subtle tonalities so characteristic of their work this knowledge has been preserved in hundreds of small traditional painting ateliers that persevered in the old ways in this country and throughout the world Coming out of this dedicated movement Portrait Painting Atelier is an essential resource for an art community still recovering from a time when solid instruction in art technique was unavailable in our schools Of particular value here is a demonstration of the Old Masters technique of layering paint over a toned ground surface a process that builds from the transparent dark areas to the more densely painted lights This method unifies the entire painting creating a beautiful glow that illuminates skin tones and softly blends all the color tones Readers will also find valuable instruction in paint mediums from classic oil based to alkyd based the interactive principles of composition and photograph based composition and the anatomy of the human face and the key relationships among its features Richly illustrated with the work of preeminent masters such as Millet G ricault and van Gogh as well as some of today s leading portrait artists and featuring seven detailed step by step portrait demonstrations Portrait Painting Atelier is the first book in many years to so comprehensively cover the concepts and techniques of traditional portraiture
