Ecology Jason A. Hoelscher,2021-08-09 In Art as Information Ecology Jason A Hoelscher offers not only an information theory of art but an aesthetic theory of information Applying close readings of the information theories of Claude Shannon and Gilbert Simondon to 1960s American art Hoelscher proposes that art is information in its aesthetic or indeterminate mode information oriented less toward answers and resolvability than toward questions irresolvability and sustained difference These irresolvable differences Hoelscher demonstrates fuel the richness of aesthetic experience by which viewers glean new information and insight from each encounter with an artwork In this way art constitutes information that remains in formation a difference that makes a difference that keeps on differencing Considering the works of Frank Stella Robert Morris Adrian Piper the Drop City commune Eva Hesse and others Hoelscher finds that art exists within an information ecology of complex feedback between artwork and artworld that is driven by the unfolding of difference By charting how information in its aesthetic mode can exist beyond today s strictly quantifiable and monetizable forms Hoelscher reconceives our understanding of how artworks work and how information operates **Lighthousekeeping** Jeanette

Shadow Flicker Gregory Bastianelli, 2022-03-29 An old man nearly chokes to death after stuffing dandelion heads into his mouth A pregnant cow repeatedly runs headlong into a fence post Oscar Basaran investigates a series of strange events on the Kidney Island From its highly original premise to its deliciously isolated setting Gregory Bastianelli's *SHADOW FLICKER* hooked me and kept me squirming until the very last page An entertaining and emotional read I had a blast Jonathan Janz Author of *THE SIREN AND THE SPECTER* and *THE RAVEN* Investigator Oscar Basaran travels to Kidney Island off the coast of Maine to document the negative effects of shadow flicker from wind turbines on residents living near the windmills but is unprepared for what he encounters from the islanders Oscar's research shows that sleep deprivation light deficiency and ringing headaches brought on by the noise and constant strobe like effect of the sun filtered through the spinning blades of the turbines brings on hallucinatory episodes for the closest neighbors to the machines Melody Larson's elderly father nearly chokes to death after stuffing dandelion heads into his mouth The Granberrys pregnant cow repeatedly runs headlong into a fence post Tatum Gallagher mourns her young son who vanished more than a year ago presumed swept out to sea by a wave while fishing on the rocky shore but several people claim to see him appear only in the glimmer of the shadow flicker Aerosource the energy corporation that owns the turbines hired Oscar to investigate the neighbors claims but the insurance agent shows no allegiance to the conglomerate especially after learning a previous employee sent to the island a year before has disappeared without a trace When Oscar meets former island school science teacher Norris Squires fired for teaching his students about the harmful effects of shadow flicker he learns a theory regarding Aerosource that sounds too preposterous to believe While

it seems the shadow flicker effect has driven some of the island's animals crazy is it possible it's caused an even worse mental breakdown among the human inhabitants Or is something more nefarious at work on the island As Oscar's investigation deepens he discovers the turbines create an unexpected phenomena kept secret by a select group of people on Kidney Island who have made a scientific breakthrough and attempt to harness its dark power FLAME TREE PRESS is the imprint of long standing independent Flame Tree Publishing dedicated to full length original fiction in the horror and suspense science fiction the award winners and exciting original voices **Outdoor Illinois**, 2011 Goodbye, Flicker Carmen Giménez Smith, 2012 This distinctive collection introduces a new type of mythmaking daring in its marriage of fairy tale tropes with American mundanities Conspiratorial Goodbye Flicker describes the interior life of a girl whose prince is a deadbeat dad and whose escape into a fantasy world is also an escape into language beauty and the surreal **In a Flicker** George R Lopez, Andrea Perron, 2017-05-23 Dr Ethan LaPierre was content in his tenure as a professor at the prestigious Oxford University spending his days in the classroom his leisure time with his dearest friend Dr Colin Bishop An accomplished intellectual rooted in academia Ethan had no greater aspirations and no intention of altering his current trajectory in life until an astounding discovery in the field of science captured his attention and imagination grabbing him by the throat His friend and longtime colleague Dr Anson Van Ruden would introduce Ethan to this conceptual project of limitless potential while still in its infancy Although intrigued he'd initially rejected the offer to join Anson's team opting instead for the simpler life as a professor of history and philosophy not believing an opportunity presented him would ever come to fruition It was not until the moment a program shrouded in secrecy for years finally went public and took center stage that Ethan took notice reconnecting with Anson and the project Ultimately by surrendering to his innate curiosity wondering what it could mean for him for humanity and for history Ethan took a decided leap of faith What followed is an extraordinary tale of the human spirit and mind a divine and hellacious roller coaster ride inside a tornado of emotions and experiences that will leave the main character and the reader breathless In A Flicker delves into the deepest darkest fears of any mortal soul what one fears of them self and likewise the ones they love Those who dare to jump into the chasm will emerge haunted by the ghosts who have been there all along
