Florence In Transition Volume :

Florence in Transition Marvin B. Becker, 1967 **Florence in Transition** Marvin Becker, 2019-08-01 Political social and cultural historians will find *Florence in Transition Volume One* a helpful elucidation of the dynamics of historical change and the birth of a state **Florence in Transition** Marvin Becker, 2019-08-01 Originally published in 1968 In the pluralistic society of the medieval commune informal and personal ties of obligation bound men together In trecento Florence this gentle communal structure gradually evolved into the stricter more centralized organization characteristic of the modern state A growing emphasis on law and order transformed the medieval commune of the early fourteenth century into the Renaissance territorial state of the latter half of the century Professor Becker's subject is this metamorphosis Following his study of the declining communal *paideia* in *Volume One* the author examines in this second volume the growing vigor of public world as well as the attendant depersonalization and repression He is concerned primarily with two factors that he considers the major forces producing the Renaissance territorial state and encouraging the growth of imperial government and constitutionalism the intrusion of new citizens *novi cives* into politics after 1343 and the skyrocketing of communal debt Thus the author disputes Burckhardt's idea of the state as a work of art viewing it instead as a creation of socioeconomic mobility and deficit financing Further in examining art and literature as symptoms of developing public culture and reactions to it Professor Becker interprets them as indications of increased public involvement of the Florentine citizens thus providing a sharp refutation of Burckhardt's egoistic violent Renaissance man The author concludes his study with a detailed description of the territorial state itself pointing out the new relationship between citizen and polis which emerged in the early fifteenth century These two volumes provide a compelling and challenging interpretation of a crucial period in Western history

Florence in Transition Marvin B. Becker, 1967 **Florence in Transition** Marvin B. Becker, 1967 *Renaissance Transformations of Late Medieval Thought* Charles Trinkaus, 2024-10-28 Charles Trinkaus can be counted among the eminent intellectual and cultural historians of the Renaissance This new collection of his articles brings together pieces published since 1982 The studies are concerned with Italian Renaissance humanists and philosophers who tended to affirm human capacities to shape earthly existence despite the traditional limitations proposed by some scholastics and astrologers Professor Trinkaus holds that without abandoning their Christian faith or their acceptance of physical influences from the cosmos these writers in their stress on human capacities were responding to the vigorous activism of their contemporaries in all aspects of their existence The final four papers also provide a series of reflections on the modern historiography of the Renaissance **Violence and Civilization in the Western States-Systems** Andrew Linklater, 2017-01-11 Andrew Linklater's *The Problem of Harm in World Politics* Cambridge 2011 created a new agenda for the sociology of states systems *Violence and Civilization in the Western States Systems* builds on the author's attempts to combine the process sociological investigation of civilizing processes and the English School analysis of international society in a higher synthesis Adopting

Martin Wight's comparative approach to states systems and drawing on the sociological work of Norbert Elias Linklater asks how modern Europeans came to believe themselves to be more civilized than their medieval forebears He investigates novel combinations of violence and civilization through a broad historical scope from classical antiquity Latin Christendom and Renaissance Italy to the post Second World War era This book will interest all students with an interdisciplinary commitment to investigating long term patterns of change in world politics

Terrorism J. Lutz, 2005-09-02

Terrorism is not a new phenomenon but has been present for over two thousand years It has been used to advance ethnic religious and ideological goals it has been used by dissidents and states to maintain control it has been used at times as a means for attaining or maintaining power for its own sake Terrorism has often appeared as a response to the intrusion of outside groups in established societies This book places terrorism in a historical and analytical context It is a comparison of terrorist groups over time noting both similarities and differences It will also contribute to discussions of the underlying causes of terrorism by providing a broader context than is usually attempted It is important to put recent terrorist events in an appropriate context and to learn what history has to offer for dealing with this type of political violence

Florentine Tuscany William J. Connell, Andrea Zorzi, 2000

Florence has often been studied in the past for its distinctive urban culture and society while insufficient attention has been paid to the important Tuscan territorial state that was created by Florence in the fourteenth and fifteenth centuries Comprising a handful of formerly independent city states and numerous smaller communities in the plains and mountains the Florentine empire in Tuscany supplied the markets and fiscal coffers of the Renaissance republic while providing lessons in statecraft that nourished the political thought of Machiavelli and Guicciardini This volume comprises seventeen original essays representing the new directions being taken by historians of the Florentine Renaissance It offers new and exemplary

approaches towards state building political vocabulary political economy civic humanism local history and social patronage in what is one of the most interesting and well documented of the states of late medieval and Renaissance Europe **Spain, Portugal and the Atlantic Frontier of Medieval Europe** Jose-Juan Lopez-Portillo, 2016-12-05 As seen from the perspective of 1492 the medieval expansion of Latin Europe was nowhere as dramatic or enduring as in the Iberian Peninsula and the Atlantic Its Christian kingdoms continued their advance against Al Andalus up to 1492 whereas territorial expansion elsewhere against the Muslim world had either ceased or subsided by the late 13th century Castile and Portugal also transformed the Atlantic Ocean from the inaccessible dead end of Eurasia into the most promising avenue for European expansion for the first time in history The articles collected in this volume explore the causes and the nature of this expansion from a variety of historical traditions They investigate the extent to which the transference of Mediterranean traditions aided this process the characteristics of Iberian conflict that eventually led to the success of its Christian kingdoms and the motives for launching and techniques for running the first European overseas empires in the unfolding Atlantic frontier In the process they illuminate the new identities and cultural interactions that this expansion produced in its wake while the new introduction sets them in the broader context **Manuscripta** ,1971 Issues for Feb 1957 July 1959 include a Checklist of the Vatican manuscript codices available for consultation at the Knights of Columbus Vatican Film Library at St Louis University pts 1 8 **Renaissance Humanism, Volume 1** Albert Rabil, Jr., 2016-11-11 This book is a volume in the Penn Press Anniversary Collection To mark its 125th anniversary in 2015 the University of Pennsylvania Press rereleased more than 1 100 titles from Penn Press s distinguished backlist from 1899 1999 that had fallen out of print Spanning an entire century the Anniversary Collection offers peer reviewed scholarship in a wide range of subject areas **The Journal of Politics** ,2004 Includes section Book reviews **AUFS Reports** ,1966 *The Catholic Historical Review* ,1973 *Filippo Brunelleschi* Howard Saalman, 2010-11-01 A definitive modern study of Filippo Brunelleschi s buildings based on detailed archaeological investigation of the monuments and new exhaustive studies in the Florentine archives has long been needed This sequel to the author s *Filippo Brunelleschi The Cupola of Santa Maria del Fiore* 1980 answers that need It makes a major contribution to our understanding of the creation of Renaissance architecture and of fifteenth century patronage In *Filippo Brunelleschi The Buildings* Professor Saalman not only gives new insights into the physical fabric of Brunelleschi s projects but reinterprets every one of his buildings on the basis of previously unpublished archival evidence and in the light of modern historical research on Early Renaissance Florence The result is a monograph that reassesses Brunelleschi s architectural work in the context of the political economic and religious environment of early fifteenth century Florence The author reexamines Brunelleschi s personal style of designing details and of managing the quantity and disposition of light in his metrically and geometrically proportioned spaces Major chapters deal with the role of leading patrons the Barbadori in their chapel in Santa Felicità Cosimo de Medici at San Lorenzo Andrea Pazzi at the chapter house of the Pazzi in the convent

of Santa Croce and the Scolari at the Angeli rotunda An extensive selection of documents is provided in addition to the short excerpts quoted in the main text The picture of Brunelleschi that emerges confirms earlier views of him as a traditionalist with an all antica language But the reader will find here a new dimension of historical precision in the definition of this much studied architect Clear lines of demarcation are drawn between the work of Filippo and that of major contemporaries such as Michelozzo de Bartolommeo and in particular Leon Battista Alberti We return at the end of the twentieth century to Filippo Brunelleschi s buildings to learn fundamental lessons about the craft and the profession There is a universal element in his work integrity integrity of design integrity of structure integrity of detail There are no false notes no easy solutions no slipshod details His buildings do not shout for attention they command it silently through flawless execution and understated monumentality They do not lend themselves to facile appreciation but demand careful study and rigorous thought to be fully understood and enjoyed A man thoroughly of his time and place Filippo like Mes van der Rohe strove for simplicity clarity perfection It is what makes him relevant to architects today **Orsanmichele** Marie D'Aguanno Ito, 2023-10-09 This work provides a new narrative for Orsanmichele in the era before the Renaissance It examines Orsanmichele from the mid thirteenth century as the piazza transformed into the city s grain market It considers the market s tandem confraternity with its stunning Madonnas over three successive loggias It examines the grain market and confraternity from a social economic political and artistic perspective It provides extensive data on the Florentine grain trade sales at the market and the nexus between traders political leaders and the confraternity The work suggests that developments at Orsanmichele during the medieval period formed the basis for the Renaissance structure The Journal of European Economic History ,2000
