Israel In The Third World

Israel In The Third World:

Israel in the Third World Michael Curtis, Susan Aurelia Gitelson, 1976-01-01 Israel has had an unusual experience as both a recipient of foreign aid and as a donor country. Although it is small in area and population, it has developed the political, economic, and military capacities of a middle range power. It has thus been able to offer expertise to others while it has continued to develop at a rapid pace. In terms of location and ethnic background, the majority of the population of Israel belongs to Asia and therefore is an integral part of the Third World of Asia, Africa, and Latin America. Israel's economic, cultural, and political interactions with the Third World are the focal points of this volume. The articles reflect the evolution of Israel's position in the Third World, the range of its programs and activities, and the problems and constraints of its international relations. Many of the contributors are Israelis who have been personally connected with diplomatic, economic, or technical assistance activities. In addition to this practical treatment, Israeli and American scholars have tried to offer a more detached and objective view of the situation. The contributors indicate the contrasting conditions that have affected interchanges with Asian, African, and Latin American states. These views outline the possibilities and limitations of a small or middle range power engaged in a persistent regional conflict, to interact normally with other developing countries, and share the benefits of its own development experiences. Contributors: Moshe Alpan, Shimon Amir, Ehud Avriel, Joel Barromi, Michael Brecher, Michael Curtis, Samuel Decalo, Ephraim Dubek, Akiva Eger, Jacques Fomerand, Eli Ginzberg, Susan Aurelia Gitelson, Irving Louis Horowitz, Eliyahu Kanovsky, Edy Kaufman, Ran Kochan, Mordechai E. Kreinin, Netanel Lorch, Meron Medzini, Benjamin Rivlin, Dan Segre, Yoram Shapira, Yaacov Shimon. **Israel in Comparative Perspective** Michael N. Barnett, 2012-02-01 Because Israel is unique in many dimensions, many social scientists consider it a historical peculiarity. Neither East nor West, developed nor undeveloped, capitalist nor socialist, Third World nor First World, Israel has little in common with other countries and their historical experiences. This book of original essays challenges the image of Israeli uniqueness and the status of the Israeli case and at the same time corrects some common misperceptions about the comparative method in general and case selection in particular. At the same time, it compares Israeli and Arab experiences and addresses critical issues in Middle Eastern studies. To challenge the image of Israeli uniqueness, the authors situate Israel's history in comparative context, employ macrohistorical concepts both to reexamine the Israeli case and to build bridges between Israel and other historical experiences, and use the Israeli case to reconsider existing social science theories. Articles by Michael Barnett, Yehezkal Dror, Rebecca Kook, Ian Lustick, Joel Migdal, Gershon Shafir, Gabriel Sheffer, Shibley Telhami, and Mark Tessler, and Ina Warriner. *Israel in Comparative Perspective* demonstrates how our understanding of the region can be enriched by using models and theories developed in other regions to reexamine Israeli history. Israeli Cinema Ella Shohat, 2010-07-30 When the Hebrew edition of this groundbreaking book came out it provoked a stormy public debate The author has now updated Israeli Cinema adding a substantial new postscript that reflects on the book's initial reception and points to exciting new trends in the cinematic representation of Israel and Palestine Ella Shohat explores the cinema as a productive site of national culture dating back to the early Zionist films about turn of the century Palestine She offers a deconstructionist reading of Zionism viewing the cinema as itself participating in the invention of the nation Unthinking the Eurocentric imaginary of East versus West Shohat highlights the paradoxes of an anomalous national colonial project through a number of salient issues including the Sabra figure as a negation of the Diaspora Jew the iconography of the land of Israel as a denial of Palestine and the narrative role of the good Arab The new postscript examines the emergence of a richly multiperspectival cinematic space that transcends earlier dichotomies through a palimpsestic and

cross border approach to Israel Palestine **Security and Economy in the Third World** Nicole Ball,2014-07-14 Nicole Ball brings the effects of security expenditure to the center of that debate examining in detail how the potential negative consequences on development outweigh the potential positive effects Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Political and Social Thought in Africa Sharawy, Helmi,2015-03-02 The essays collected together in this book reflect the author's varied experiences in the realms of politics and social struggle he notes that they cannot be separated from his other experiences in his country Egypt over the years These experiences extend from popular culture or folklore through the wider political world of African liberation politics to the Committee for the Defense of National Culture This book is like a long trip through African culture from the 1950s to the beginning of the 21st century These essays will most likely provoke a lot of memories sweet and bitter with maybe the bitter ones as the more lasting The author notes that it appears as if the only relationship that seems to have mattered for a long time for the Egyptians with the rest of Africa was the river Nile which joins the country to ten other countries while a vast desert stands in between Such separation ignores the ancient relations between Pharaonic Egypt and the rest of Africa and the role of Egypt in supporting many liberation movements on the continent The author has set himself some tough questions in this book Is it legitimate today to use race to subdivide the African continent Can this moreover be simply done as if race is ahistorical or an idealistic concept of identities Or are we going to talk about Arabism in Egypt Libya or Maghreb as if it were an identity gained with the advent of the Arabs implying that these were lands with no people a sort of No Man's Land Or was this a fragile space that could not confront the invading empire Or will Arabism equate with Bantuism or negroism sometimes and Hausa and Swahili cultures at other times These are the types of issues that Helmi Sharawy examines in this very important book Experiences that inform this book began with the author's first encounter in March 1956 with some African youths who were in Cairo for higher studies or as representatives of liberation movements with whom he worked as an intermediary with the Egyptian national state which work left on him an everlasting impression **Sharing the Book** John Witte,Richard C. Martin,2008-05-01 More than a dozen religious leaders offer authoritative statements and analyses of classic and contemporary perspectives on mission activity and conversion in Judaism Christianity and Islam Politics and Government in Israel Gregory S. Mahler,2011 This even handed and thorough text explores Israeli government and politics First tracing the history and development of the state Mahler then examines the social religious economic and cultural contexts within which Israeli politics takes place The book explains the operation of political institutions and behavior in Israeli domestic

politics as well as Israel's foreign policy setting and apparatus the Palestinian conflict and the question of Jerusalem and the Middle East peace process overall This clear and concise text provides an invaluable starting point for all readers needing a cogent introduction to Israel today

Israel's Colonial Project in Palestine Elia Zureik, 2015-11-19 Colonialism has three foundational concerns violence territory and population control all of which rest on racist discourse and practice Placing the Zionist project in Israel Palestine within the context of settler colonialism reveals strategies and goals behind the region's rules of governance that have included violence repressive state laws and racialized forms of surveillance In *Israel's Colonial Project in Palestine Brutal Pursuit* Elia Zureik revisits and reworks fundamental ideas that informed his first work on colonialism and Palestine three decades ago Focusing on the means of control that are at the centre of Israel's actions toward Palestine this book applies Michel Foucault's work on biopolitics to colonialism and to the situation in Israel Palestine in particular It reveals how racism plays a central role in colonialism and biopolitics and how surveillance in all its forms becomes the indispensable tool of governance It goes on to analyse territoriality in light of biopolitics with the dispossession of indigenous people and population transfer advancing the state's agenda and justified as in the interests of national security The book incorporates sociological historical and postcolonial studies into an informed and original examination of the Zionist project in Palestine from the establishment of Israel through to the actions and decisions of the present day Israeli government Providing new perspectives on settler colonialism informed by Foucault's theory and with particular focus on the role played by state surveillance in controlling the Palestinian population this book is a valuable resource for students and scholars interested in the Arab Israeli Conflict and Colonialism

Although the Bene Israel community of western India the Baghdadi Jews of Bombay and Calcutta and the Cochin Jews of the Malabar Coast form a tiny segment of the Indian population their long term residence within a vastly different culture has always made them the subject of much curiosity India is perhaps the one country in the world where Jews have never been exposed to anti-Semitism but in the last century they have had to struggle to maintain their identity as they encountered two competing nationalisms Indian nationalism and Zionism Focusing primarily on the Bene Israel and Baghdadis in the late nineteenth and twentieth centuries Joan Roland describes how identities begun under the Indian caste system changed with British colonial rule and then how the struggle for Indian independence and the establishment of a Jewish homeland raised even further questions She also discusses the experiences of European Jewish refugees who arrived in India after 1933 and remained there until after World War II To describe what it meant to be a Jew in India Roland draws on a wealth of materials such as Indian Jewish periodicals official and private archives and extensive interviews Historians Judaic studies specialist India area scholars postcolonialist and sociologists will all find this book to be an engaging study A new final chapter discusses the position of the remaining Jews in India as well as the status of Indian Jews in Israel at the end of the twentieth
