

FEATURES OF A Problem of Practice

| | |
|------------------|---|
| ISSUE | Instructional or Systemic Instructional or systemic issues are problems that involve the interactions of teachers, students, and content or interactions of system leaders, schools, and communities that relate to system performance and/or community well-being. |
| EVIDENCE | Directly Observable A problem of practice must be empirical in nature not theoretical. While theory may be used in the examination of the problem, the problem itself must be directly observable. |
| EXECUTION | Actionable in Real Time An actionable problem can be improved in real time. This extends the directly observable feature and defines the potential for executing a solution. |
| LINK | Connects to Strategy Problems of practice have a reciprocal relationship with broader system improvement plans. Improvement plans might assist in defining problems of practice, while the study of a particular problem may enable a school or system to realize its stated goals. |
| IMPACT | Makes a Difference Solving a problem of practice would make a significant difference for student, institutional, or community learning, processes, and/or health. |
