The Supreme Court and McCarthy-Era Repression Robert M. Lichtman,2012-07-31 In Fred Vinson s term as chief justice 1946 53 the court largely rubber stamped government action against accused Communists and subversives After Earl Warren replaced Vinson as chief justice in 1953 however the Court began to rule against the government in Communist cases choosing the narrowest of grounds but nonetheless outraging public opinion and provoking fierce attacks from the press and Congress Legislation to curb the Court flooded Congress and seemed certain to be enacted The Court s situation was aggravated by its 1954 school desegregation decision *Brown v Board of Education* which led to an anti Court alliance between southern Democrats and anti Communists in both parties Although Lyndon Johnson s remarkable talents as Senate majority leader saved the Court from highly punitive legislation the attacks caused the Court to retreat with Felix Frankfurter leading a five justice majority that decided major constitutional issues for the government and effectively nullified earlier decisions Only after August 1962 when Frankfurter retired and was replaced by Arthur Goldberg did the Court again begin to vindicate individual rights in Communist cases its McCarthy era was over Provided by publisher **Senators of the United States** ,1995 **The American State from the**

Civil War to the New Deal Paul D. Moreno, 2013-06-28 The story of the breakdown of limited government in America and the rise of the federal state Senators of the United States Diane B. Boyle, 1995 S Doc 103 34 Compiled by Jo Anne McCormick Quatannens Diane B Boyle editorial assistant prepared under the direction of Kelly D Johnston Secretary of the Senate Lists scholarly works that profile the lives and legislative service of senators and their autobiographies and other published works Dissent and the Supreme Court Melvin I. Urofsky, 2015 Melvin Urofsky's major new book looks at the role of dissent in the Supreme Court and the meaning of the Constitution through the greatest and longest lasting public policy debate in the country's history among members of the Supreme Court between the Court and the other branches of government and between the Court and the people of the United States Dust jacket The World War II Bond Campaign Lawrence R. Samuel, 2025-02-04 How America's greatest marketing triumph in World War II shaped race ethnicity and class in modern America The World War II Bond Campaign is a history of the World War II bond drive led by the federal government an effort called the most successful marketing operation in history By the war's end some 85 million Americans had spent 186 billion in an unprecedented outpouring of patriotism that contributed to the military victory and the prosperity of the following decades The FDR administration used bonds to raise capital to support the war and promote national unity within the context of the nation's increasingly pluralistic society as the melting pot theory was retired African Americans Euro Americans and labor union members enthusiastically bought bonds to express national loyalty but also to demonstrate racial ethnic or class pride a reflection of their dualistic or hyphenated identities Drawing on various primary sources The World War II Bond Campaign illustrates how the Treasury Department's multicultural marketing strategies tapped into Americans' aspirations alongside their patriotic impulses Citizens of all social and economic backgrounds eagerly responded to what can be seen as the selling of America making the subject an ideal lens to view national identity at a critical moment in the country's history The author contends that the drive's success helped pave the way for the emergence of both the civil rights movement and the vigorous consumer culture of the postwar years Hugo Black Roger K. Newman, 1994 The extraordinary story of a man who bestrode his era like a colossus Hugo Black is the first and only comprehensive biography of the Supreme Court Justice of thirty four years 1886 1971 Once a member of the Ku Klux Klan Black became one of the most celebrated and important civil libertarians in the history of the United States and the chief twentieth century proponent of the First Amendment Newman presents us with the long odyssey of Hugo Black capturing the man as he was a brilliant trial lawyer the investigating senator called by one reporter a walking encyclopedia with a Southern accent and the wily politician and astute justice who led the redirection of American law toward the protection of the individual *Liberty and Coercion* Gary Gerstle, 2017-10-24 How the conflict between federal and state power has shaped American history American governance is burdened by a paradox On the one hand Americans don't want big government meddling in their lives on the other hand they have repeatedly enlisted governmental help to impose their views regarding marriage abortion religion and

schooling on their neighbors These contradictory stances on the role of public power have paralyzed policymaking and generated rancorous disputes about government's legitimate scope How did we reach this political impasse Historian Gary Gerstle looking at two hundred years of U S history argues that the roots of the current crisis lie in two contrasting theories of power that the Framers inscribed in the Constitution One theory shaped the federal government setting limits on its power in order to protect personal liberty Another theory molded the states authorizing them to go to extraordinary lengths even to the point of violating individual rights to advance the good and welfare of the commonwealth The Framers believed these theories could coexist comfortably but conflict between the two has largely defined American history Gerstle shows how national political leaders improvised brilliantly to stretch the power of the federal government beyond where it was meant to go but at the cost of giving private interests and state governments too much sway over public policy The states could be innovative too More impressive was their staying power Only in the 1960s did the federal government impelled by the Cold War and civil rights movement definitively assert its primacy But as the power of the central state expanded its constitutional authority did not keep pace Conservatives rebelled making the battle over government's proper dominion the defining issue of our time From the Revolution to the Tea Party and the Bill of Rights to the national security state Liberty and Coercion is a revelatory account of the making and unmaking of government in America

Standing Against Dragons Sarah Hart Brown, 2000-03-01 Standing Against Dragons examines the careers of three exceptional lawyers who championed civil liberties and fought for civil rights in the two decades after World War II John Coe of Pensacola Florida Clifford Durr of Montgomery Alabama and Benjamin Smith of New Orleans became southern dissenters resisting both the excessive zeal of the anti Communist right and southern segregation laws Coe Durr and Smith all appeared with their clients in the much publicized 1954 investigation of the Southern Conference Educational Fund and defended persons subpoenaed by the House Un American Activities Committee HUAC Coe represented the ardent integrationist who was the last man indicted for contempt by the HUAC and Smith's offices were raided in 1963 as a result of his civil rights work in Mississippi Despite personal and political differences these men remained committed civil libertarians in this era of repression While formally rejecting Communism defending freedom of expression and association in almost every instance these advocates in practice disavowed individualism in favor of the common good and feared the oppression of unbridled government Consequently they faced professional scorn personal ostracism and official harassment Sarah Hart Brown's astute analysis reveals the wide range of southern political ideas and defines the positions of southern liberals and radicals in the broader stream of American liberalism during the postwar period
