Holt,Hyun Chul Paul Kim,2015-02-26 Isaiah Jeremiah and Ezekiel share much in common They address the pivotal times and topics associated with the last stages of the monarchical history of Israel and with the development of new forms of communal and religious life through exile and beyond One important structural component of all three books is a substantial section which concerns itself with a range of foreign nations commonly called the Oracles against the Nations which form the focus of this book These chapters together present the most up to date scholarship on the oracles an oft neglected but significant area in the study of the prophetic literature The particular characteristics of Isaiah Jeremiah both Masoretic Text and Septuagint versions and Ezekiel are discussed showcasing the unique issues pertinent to each book and the diverse methods used to address them These evident differences aside the Oracles Against the Nations are employed as a springboard in order to begin the work of tracing similarities between the texts By focusing on these unique yet common sections a range of interrelated themes and issues of both content and method become noticeable for example though not exhaustively pattern structure language comparative history archaeology sociology politics literature imagery theme theology and hermeneutical issues related to today's context As a result this collection presents a range of cutting edge approaches on these key prophetic books and will provide a basis for further comparative study and reflection **Sade** Marcel Hénaff,1999 *Sexuality Beyond Consent* Avgi Saketopoulou,2023-02-07 *Sexuality Beyond Consent* makes a counter intuitive claim trauma discourse especially when it comes to racial and sexual trauma is stalled by our fixation on preventing or healing

Dorsality David Wills, 2008 In this highly original book David Wills rethinks not only our nature before all technology but also what we understand to be technology Rather than considering the human being as something natural that then develops technology Wills argues we should instead imagine an originary imbrication of nature and machine that begins with a dorsal turn a turn that takes place behind our back outside our field of vision With subtle and insightful readings Wills pursues this sense of what lies behind our idea of the human by rescuing Heidegger's thinking from a reductionist dismissal of technology examining different angles on Levinas's face to face relation and tracing a politics of friendship and sexuality in Derrida and Sade He also analyzes versions of exile in Joyce's rewriting of Homer and Broch's rewriting of Virgil and discusses how Freud and Rimbaud exemplify the rhetoric of soil and blood that underlies every attempt to draw lines between nations and discriminate between peoples In closing Wills demonstrates the political force of rhetoric in a sophisticated analysis of Nietzsche's oft quoted declaration that God is dead Forward motion Wills ultimately reveals is an ideology through which we have favored the front what can be seen over the aspects of the human and technology that lie behind the back and in the spine what can be sensed otherwise and shows that this preference has had profound environmental political sexual and ethical consequences David Wills is professor of French and English at the University of Albany SUNY He is the author of *Prosthesis* and *Matchbook Essays in Deconstruction* as well as the translator of works by Jacques Derrida including *The Gift of Death*

Decadence, Radicalism, and the Early Modern French Nobility Chad Denton, 2016-12-01 The image of the

debauched French aristocrat of the seventeenth and eighteenth centuries is one that still has power over the international public imagination from the unending fascination with the Marquis de Sade to the successes of the film *Ridicule* Drawing on memoirs letters popular songs and pamphlets and political treatises *The Enlightened and Depraved* Decadence Radicalism and the Early Modern French Nobility traces the origins of this powerful stereotype from between the reign of Louis XIV and the Terror of the French Revolution The decadent and enlightened noble of early modern France the libertine was born in a push to transform the nobility from a warrior caste into an intelligentsia Education itself had become a power through which the privileged could set themselves free from old social and religious restraints However by the late eighteenth century the libertine noble was already falling under attack by changing attitudes toward gender an emphasis on economic utility over courtly service and ironically the very revolutionary forces that the enlightened nobility of the court and Paris helped awaken In the end the libertine nobility would not survive the French Revolution but the basic idea of knowledge as a liberating force would endure in modernity divorced from a single class

The Meaning of Being Illuminati Nicolas Laos, 2019-05-23 This book articulates a new research program called Ur Illuminism which consists in an integrated and systematic study of humanity's quest for illumination namely for the highest and noblest possible mode of being Thus it takes on the challenge of revising widely accepted ways of understanding and interpreting the ontological underpinnings of civilization and the ontological potential of humanity It allows the reader to delve into a creative rediscovery of Platonism medieval Christian mystics and scholars writings and various illuminist systems from the Orphic mystical cult to the European Enlightenment and thence to the eighteenth century Illuminati fraternities and beyond Moreover the book studies major issues in the history of philosophy politics and esoteric systems such as Hermeticism the Kabbalah alchemy the Rosicrucian movement Freemasonry and the Bavarian Illuminati It maintains that a postmodern rediscovery of premodern metaphysics specifically a postmodern esoteric theocracy as distinct from old sacerdotalism and religious formalism is the best bulwark against oppression and the ontological degradation of humanity as well as the best path to the attainment of that wisdom and spiritual self knowledge which constitute the existential integration and completion of the human being In this context it proposes a peculiar and intellectually fecund synthesis between Tory Anarchism Libertarianism Platonism and Byzantine Hesychasm as they are elucidated here

Powers of Reading Peter Szendy, 2025-03-11 A historical literary and philosophical study that transforms our understanding of reading Peter Szendy offers a subtle persuasive and unprecedented account of the time of reading and its scene of address one that is as archaic as it is contemporary When we read are we listening to a voice or being read to If it is not a private and monologic exercise how do we understand the populated scene of reading What reads when we read and how does reading push and pull between temporalities and voices Why do we keep leaving the text when we seek to obey the injunction to stay within its terms Questions such as these produce a fresh even startling consideration of a wide range of literary and popular texts including Hobbes *Leviathan* Flaubert's *Madame Bovary*

Kant's moral injunctions. Sade. Valéry. Blanchot and de Certeau but also modern fiction film audiobooks and hypertext. The power of reading turns out to belong to its surprising engagement with time and direction: the deliberate reader stays close but strays, tries to fill in the gaps but gets pushed back by a countercurrent. The key to the text is sought outside only to be led back to the text and its failure to deliver a final answer. Equally at odds with older versions of literary formalism that insist on the self-referentiality of the text as well as contextualists who scour an external social order to discover the truth of the text, Szendy approaches that very conflict as an oscillation constitutive of reading itself. Paradoxically, reading is sustained precisely by what interrupts its teleological flow. The result is a comic, profound and timely reconceptualization of reading which rushes forward only to find itself pushed back into the heart of the text which discovers that this incessant breaking from the text, this headlong rushing ahead to the world outside the text, is a sequence of overreach, delay and return that forms the ragged rhythm of reading itself. Powers of Reading is a patient, brilliant and illuminating inquiry into the crosscurrents of voice and address, one that speaks to the speed and complexity of our time, how we are upended by our forward propulsions, to consider how multiple voice, action and passivity are all rearranged in the scene of reading.

Judith Butler, Distinguished Professor in the Graduate School, University of California, Berkeley. [The Sexual/Political](#) Lorenzo Bernini, 2023-06-28. The Sexual/Political engages with contemporary political issues in sexuality through a survey of modern philosophy, psychoanalytic thought, 20th century political theory and more recent queer philosophies. The book investigates how the sexual has perturbed philosophical, political and psychoanalytic thought and how this has fed into discrimination against the LGBTQI community. It analyses the social stigmas applied to public and private sexual acts and the psychopolitical processes leading to the prevalence of neo-fascist populism in Italy and the world. Tracing the history of sexuality through Freud, Marx, Fanon and Foucault among many others, Bernini considers why the sexual has always been an exceptionally difficult object to consider in political theory. This book will be of key interest to scholars in queer theory, antisocial theory, psychoanalysis and politics, drive theory, political philosophy, critical theory, LGBTQIA issues, gender and sexuality studies and Italian studies.
