**Mystery of Spirit** George Robbins,2021-02-25 Focusing on techniques of spiritual development and awareness of the presence of spirit in ordinary life Robbins challenges the reader to move beyond spiritual blockages and obstacles and raise the vibrational frequencies that bring us to greater enlightenment This reduces negative emotions such as despair meaninglessness and unhappiness Robbins wants to help us increase our pro social activity thereby contributing to a more open minded service towards others In this book he shows how to use effective techniques for practical and spiritual change while following a path of heart      *The Purification Papers* Daniel Briggs,2012 This original 2012 review by an Amazon Top 1000 Reviewer was redacted from the Amazon Website Author Daniel Briggs has done a lot of work to put together this remarkable compilation of evidence that we are inevitably heading toward a major shift in consciousness I was very impressed he must have read hundreds of books in his research of this compilation It includes history going back to

matriarchal times biblical times esoterica alien influences the Mayans of course the Bible code Terence McKenna's analysis of the I Ching and much much MUCH more Modern events such as 9 11 and OJ Simpson are weaved into the prophecies Though I have read a great deal on the vast majority of these topics I was nonetheless surprised and shocked by tidbits of info such as the concept that men actually leave energy lines in women during sex and these take 7 years to go away Astronaut Edgar Mitchell went into Samadhi during his space flight I was most astonished to learn that even hard headed engineering types have concluded that this shift is inevitable as we head toward zero point energy There is hope on the horizon I love how Mr Briggs suggests we will develop siddhis powers after the shift Attendance at the Hogwarts schools of the new Golden Age promises inconceivable thrills as we develop our God given siddhis in a natural and controlled environment Without doubt the most popular class will be flying Sporadic levitations have been recorded throughout history mostly connected with an overpowering euphoric vision rapture My only complaint about this book is that there is no introduction for us to get the overall picture of what the book is about nor is there an author bio But if you want a summary of all things pointing to a major shift this is a great read Susan Schenck Amazon Top 1000 Reviewers **The Akashic Field** Sheldon Stoff, 2011-12-12 From The Akashic Field It Makes Every Place in the Universe Part of the Neighborhood It is easy to entertain the idea that religions and spirituality make sense only when we consider the probability of the Akashic Field What we call Heaven the Other Side and even Nirvana are inconceivable without an Akashic Field In using this concept we are able for the first time to provide rational answers to where the soul goes between so called death and rebirth As if by magic so many of life's questions can now find answers even the concept of the existence of the soul coming from the unseen universe and returning to it periodically It is only the physical body that perishes as eventually all material must when it is no longer needed This field even makes the appearance and disappearance of photons possible The actions of photons provide answers to non locality in communication We can communicate over long distances only because our thoughts enter and emerge from this stated Akashic Field As Einstein said There is no space between souls The actual appearance of the universe can now also be explained Tarot and the Tree of Life Isabel Radow Kliegman, 2013-11-01 Though many books are available on the 22 major Tarot cards few look in depth at the 56 Minor Arcana or suit cards Simple accessible and easy to understand these overlooked mirrors of everyday life can help us access our inner knowing and learn more about ourselves In refreshingly down to earth terms and with a joyous commonsense wisdom Kliegman demystifies the Tarot by revealing its small secrets

Leadership in a Challenging World Barbara Shipka,2012-08-06 Leadership in a Challenging World is about a journey to wholeness The whole self is sacred and required in order to lead well in the complex world of today and tomorrow Divided into 3 parts the book begins with the metaphor of the forest for the world with both its demanding challenges and its magnificent possibilities Part 2 uses the metaphor of walking on a path to suggest eight subjective human powers that are essential to leading in business today and tomorrow Finally part 3 describes an ancient basis for the powers and shows how they can serve to bring balance to each other that results in human wholeness

*Infamous Eve* May Sinclair,2007-04 Unlike those who are expected to place their hand on its cover and make an oath the Bible does not tell the truth the whole truth and nothing but the truth The biblical authors only told theirs Even the women actually named are remarkably silent making it easy to believe whatever has been said about their lives throughout the ages The biblical story of Eve impacts modern society on both a conscious and subconscious level Are you aware that the authors of the Garden of Eden creation narrative were greatly influenced by the Persians in the fifth century BCE maybe even taking the basic story from them Did you know Adam had a wife prior to Eve the equality demanding Lilith Do you think it is possible for a single mother to have populated this planet It is well past the time for all of this to be common knowledge Infamous Eve includes many legends stories and folktales even that of Eve also being the snake in the Garden of Eden but first May Sinclair delves into the genetically induced response that has been handed down as a physical emotional and psychological inheritance to modern people She rips open the seams of the historical records to see the weave of the religious economic and political threads that have endlessly rolled out the same pattern of notions about Eve and her daughters
