Katz, 1997-03-01 Rabbi Jacob Agus 1911 1986 intellectual production spanned nearly a half century and covered an enormous historical and conceptual range from the biblical to the modern era Best known as an important Jewish scholar he also held important

rabbinic teaching and public positions Although born and raised within an orthodox setting Agus was strongly influenced by American liberalism and his work displayed modernizing sympathies reservations about nationalism including some forms of Zionism and often severe criticisms of kabbalah Agus crafted a unique quite American modernizing vision that ardently sought to remain in touch with the wellsprings of the rabbinic tradition while remaining open to the intellectual and moral currents of his own time The Essential Agus brings together a sampling of Agus most important published and unpublished material in one easily accessible volume It will be an invaluable resource for students and researchers seeking to experience Agus intellectual legacy     Women and Kabbalah ,2009-01-01     *Historical Teleologies in the Modern World* Henning Trüper,Dipesh Chakrabarty,Sanjay Subrahmanyam,2015-09-24 *Historical Teleologies in the Modern World* tracks the fragmentation and proliferation of teleological understandings of history the notion that history had to be explained as a goal directed process in Europe and beyond throughout the 19th and into the 20th century Historical teleologies have profoundly informed a variety of other disciplines including modern philosophy natural history literature humanitarian and religious philanthropism the political thought and practice of revolution emancipation imperialism colonialism and anti colonialism the conceptualization of universal humankind and the understanding of modernity in general By exploring the extension and plurality of historical teleology the essays in this volume revise the history of historicity in the modern period *Historical Teleologies in the Modern World* casts doubt on the idea that a single if powerful conception of time could function as the unifying principle of all modern historicity instead pursuing an investigation of the plurality of modern historicities and its underlying structures By bringing together Western and non Western histories this book provides the first extended treatment of the idea of historical teleology It will be of great value to students and scholars of modern global and intellectual history     *Polemical Encounters* Olav Hammer,Kocku Von Stuckrad,2007 In its historical development from late antiquity to the present western esotericism has repeatedly been the issue of polemical discourse This volume engages the polemical structures that underlie both the identities within and the controversy about esoteric currents in European history From Jewish and Christian kabbalah through heretical discourse and interconfessional polemics in early modernity to the legitimization of esoteric identity in modern culture the 12 chapters accompanied by an editors introduction provide a cornucopia of relevant cases that are interpreted in a framework of polemical discourse and Othering This volume sheds new light on the ultimately polemical structure of western esotericism and thus opens new vistas for further research into esoteric discourse     **Dream ESP** Carl Llewellyn Weschcke,2025-08-05 Dreams fascinate the mind and the imagination and now those dreams can be harnessed to enrich daily life through the power of intentional dreaming Written in part by Louis Culling and completed by Carl Llewellyn Weschcke *Dream ESP* is the key to creating a partnership between your subconscious and conscious self Using psychic and spiritual methods this comprehensive guide reveals the process of Prophetic Causal Dreaming and the phenomenal benefits that accompany it Explore and develop the paranormal power of dreams through true

Goldish,R.H. Popkin,2013-03-09 The earliest scientific studies of Jewish messianism were conducted by the scholars of the Wissenschaft des Judentums school particularly Heinrich Graetz the first great Jewish historian of the Jews since Josephus These researches were invaluable because they utilized primary sources in print and manuscript which had been previously unknown or used only in polemics The Wissenschaft studies themselves however prove to be polemics as well on closer inspection Among the goals of this group was to demonstrate that Judaism is a rational and logical faith whose legitimacy and historical progress deserve recognition by the nations of Europe Mystical and messianic beliefs which might undermine this image were presented as aberrations or the result of corrosive foreign influences on the Jews Gershom Scholem took upon himself the task of returning mysticism and messianism to their rightful central place in the panorama of Jewish thought Jewish messianism was for Scholem a central theme in the philosophy and life of the Jews throughout their history shaped anew by each generation to fit its specific hopes and needs Scholem emphasized that this phenomenon was

essentially independent of messianic or millenarian trends among other peoples For example in discussing messianism in the early modern era Scholem describes a trunk of influence on the Jewish psyche set off by the expulsion from Spain in 1492
