Kansas in August Patrick Gale, 1988      *Federal Register*, 1945-08      The Kansas Beef Industry Charles L. Wood, Joshua Specht, 2021-10-08 This book relates the modern development of the Kansas beef cattle industry combining both the history of production including specific business problems and the significant work in upbreeding and an examination of the marketing aspects of the industry that became so important during the twentieth century Sharpest focus is on the period 1890 to 1940 after the Western beef industry had passed through the transition from using the expansive open range method of beef production to the more rational and organized methods of today Wood presents a detailed discussion of the history of upbreeding He points out the little known fact that the fine blooded animals especially Herefords that moved out from the Midwest were probably more important in stocking the ranges of the Plains and the Southwest than the many thousands of Longhorns driven from Texas He emphasizes the interregional aspect of beef production and the unique role played by Kansas On the threshold of the Great Plains Kansas received cattle from both the Midwest and the Southwest for many years upbred cattle moving South and stocker cattle moving from the South or Southwest into Kansas for additional maturing before being shipped to the Midwest for fattening or for slaughter Wood also looks closely at the relationship of cattlemen to government and to big business railroads stockyards and packers He sees the cattlemen as agricultural producers and business managers rather than as romantic self reliant giants of the earth Taking issue with the popular myth that cattlemen were and are ruggedly individualistic and disdainful of outside help Wood discusses the cattlemen s repeated demands for aid especially during the 1930s Included in the book is the history of the Kansas Livestock Association which the author credits as being one of the most significant stock associations in the West during this century Wood sets the KLA s growth within the context of the larger organizational revolution in the nation s business world A concluding chapter surveys major developments after World War II including the development of feedlots and irrigation the new cross breeding decentralization of packers and the advent of trucking to replace railroads There has been scant information on these topics in the general literature of the Great Plains      **Kansas in August** Patrick Gale, 2016-08-30 A riotous dark comedy set in the backstreets of London about an unconventional love triangle a lonely teacher and a lost baby Hilary Metcalfe is an English teacher who loathes his work so thoroughly that he requires a half bottle of scotch in order to grade a stack of homework His only joys are private ones American musicals from South Pacific to The King and I and his absolutely gorgeous lover Rufus whom he has utterly failed to domesticate Once he had dreams of being an actor a star of London s West End Now he would settle for the knowledge that Rufus is his and his alone He ll get neither but he may get something much better instead When Rufus stands him up on his birthday Hilary discovers something astonishing in the subway station a frightened abandoned baby boy Drunk and lonely Hilary brings the baby home to his seedy Shepherd s Bush flat and soon finds he cannot live without the child As Rufus falls into a romantic encounter with of all people Hilary s sister the three are caught in a bizarre
