Kargil War Past Present And Future:

Kargil War Bhaskar Sarkar,1999 **Past, Present, and Future of Kashmir** Raj Kumar Singh,2008 The book past Present and Future of Kashmir deals in detail with the problem of the State of Jammu and Kashmir Beginning with the political history of the state in ancient times it presents a chronology of Kashmiri rulers Hindus Muslims and the British respectively When India was to become independent it was ruled by a Hindu King who failed in either way to decide the fate of the territory like other princely states of India As a result of the mini war between India and Pakistan a portion of it was held by the latter and is known as Azad Kashmir In post independence phase it continues to be a contentious issue between the two neighbours and caused four devastating wars over it Pakistan has complaints over its accession to the Union of India because at the time public at large were no consulted The very composition of Pakistani society and political system as well witnessed a sea change towards the direction opposite to India In recent year the two have realised the futility of third party began to look forward for better bilateral understanding to great rid of this vexed problem **Limited Conflicts Under the Nuclear Umbrella** Ashley J. Tellis,C. Christine Fair,Jamison Jo Medby,2002-02-04 This report examines the views of India and Pakistan on the significance of Pakistan's foray into the Kargil Dras sector in a limited war that has come to be known as the Kargil conflict The goal of the analysis is to assess both combatants' perceptions of the crisis with a view to evaluating the possibilities of future Kargil like events and the implications of the lessons each country learned for stability in South Asia The analysis is based almost exclusively on Indian and Pakistani source materials The Kargil crisis demonstrated that even the presence of nuclear weapons might not appreciably dampen security competition between the region's largest states However the question remains of whether or not the Kargil war represents a foretaste of future episodes of attempted nuclear coercion if India and Pakistan believe that their nuclear capabilities provide them the immunity required to prosecute a range of military operations short of all out war *Outstanding Victories of the Indian Army, 1947-1971* Col Bhaskar Sarkar - VSM (Retd),2016-04-20 The Indian Army has fought many battles in the 52 years since independence Most of them were fought against Pakistan Some of these were fought against the Chinese some against the LITE some against Nizam of Hyderabad and some against the Portuguese in Goa Some were fought in the mountains of Kashmir Sikkim or Arunachal Pradesh Some were fought in the deserts of Rajasthan Some were fought with adequate resources and after deliberate planning and preparations while others were fought under desperate situations with whatever could be mustered to thwart a superior enemy Some of these battles have been won some lost and others ended in stalemate Aspiring generals and students of military history must study these battles to understand why a particular battle went a particular way This book deals with 11 outstanding victories of the Indian Army Shalateg Rajauri and Zoji La from the Kashmir War 1947-48 Chusul from the 1962 Chinese War Hajipir Assal Uttar and Phillora from the Indo Pak War 1965 and Bayra Sylhet Basantar and Dacca from the Indo Pak War 1971 The book narrates the background and conduct of these battles It also tries to analyse the factors that

contributed to these outstanding victories It also tries to analyse the qualities that go into the making of a great general

Nuclear Deterrence in Southern Asia Arpit Rajain, 2005-05. This important and topical book examines the triangular relationship of China, India, and Pakistan through the prism of nuclear deterrence. The author highlights the interplay and role of strategic culture, nuclear weaponisation, and deployment command and control, arms control, non-state actors, and foreign policy issues which affect relations between the three countries. With two main purposes: a conceptual investigation into the notion of deterrence and a study of the theory and practice of limited war, this book addresses the strategic, political, and military dimensions of the role of nuclear weapons through examples of the only cases of nuclear weapon states having gone into armed conflict: the Cuban missile crisis, the Ussuri river clashes, and the Kargil conflict. It discusses the various pressures exerted on decision makers in the context of the notions of deterrence, the rational deterrence model, and a limited war under a nuclear umbrella. It evaluates all three countries with regard to their strategic culture, the role of nuclear weapons in their military strategy, the nature of public opinion, and political rhetoric. Responses to the various arms control treaties and foreign policy choices are based on a variety of sources, including interviews with key individuals in various sectors. This is the first book-length study of the triangular relationship between China, India, and Pakistan.

Artillery: The Battle-Winning Arm Maj Gen Jagjit Singh, 2014-01-08. Artillery: The Battle-Winning Arm is a book about the battle-winning role played by the artillery. The artillery made its first impact on the Indian soil in 1526 in the first Battle of Panipat when Babar inflicted a crushing defeat on his opponent Ibrahim Lodhi. The artillery shot into prominence once again during the rule of Maharaja Ranjit Singh. Then followed a period of relative stagnation with the value of the gun confined barely to a supporting role of infantry and armour. It is only during the last two decades that there has been a considerable growth in the expansion of the artillery. The artillery has now emerged as a formidable force of about 250 units, including two artillery divisions, on its order of battle. Orbat. Further, the artillery of today is equipped with long-range multi-barrel rocket launchers, MBRLs, and guns capable of firing a variety of lethal ammunition. With the above resurgence of the Indian artillery, it is no longer a supporting arm but a fighting

arm much like the infantry and armour In fact the artillery has emerged as a battle winning arm where the artillery battles will decide the course of future ground operations **A Practical Approach to Vaastu Shastra** Col. Bhaskar Sarkar,2008
