Governance Of Ethnic Communities Political Structures And Processes In Canada:

Ethnic Relations in Canada Raymond Breton, 2005-10-13 The introduction by Jeffrey Reitz focuses on the evolution of Breton's distinctive institutional framework which both extends and in some ways alters John Porter's classic analysis in *The Vertical Mosaic*. Reitz shows how Breton's original concept of institutional completeness has been extended to provide a comprehensive framework for the institutional analysis of inter-ethnic relations creating a unified theoretical structure that has reshaped the study of inter-ethnic relations in Canada and points toward a future research agenda.

Ethnicity, Politics, and Public Policy Harold R. Troper, 1999-01-01 Ten essays on multiculturalism form a comprehensive picture of the problems and prospects of pluralism and mirror the nuanced issues which arise when theories and goals of cultural sensitivity confront real life.

The Governance of Ethnic Communities Raymond Breton, 1991 Greenwood Press's Contributions in Ethnic Studies series focuses on the interactions and outcomes both positive and negative of people from different cultures and their often dissimilar expectations and goals. In *The Governance of Ethnic Communities* Raymond Breton examines Chinese, German, Italian, Spanish, Portuguese, Ukrainian, and West Indian communities in Canada with occasional references to the native peoples and other ethnic communities in that country and in the United States. These groups respectively unique cultural and historical matrices coupled with their status in the dominant social structure furnish provocative and diverse data and serve as the bases for scholarly generalizations. From a previously rather underdeveloped perspective Breton looks at the ethnic community as a stateless political entity with political structures and political processes for self-governance arguing that although these groups have no state institutions they do have public ones. He also highlights the processes of collective decision-making, how participation and resources are mobilized for collective projects, the relationship between elites and members, conflict management and the exercise of power in managing community affairs. The relevant community affairs are both internal matters such as cultural events, educational and religious activities or aid to new immigrants and external affairs such as immigration legislation and its implementation, civil rights and relations with the country of origin. The volume's eight chapters explore the origin and structures of governance, examine some of the processes of governance including community leadership and the formulation of collective goals and inquire into the construction and maintenance of the sociopolitical community through an investigation of individual participation in community affairs and of the group's collective identity. Throughout this analysis Breton considers the impact of environmental forces and of internal political competition. With its orientation toward significant variables and principles this important study represents an excellent summary of current research on ethnic communities in North America and will contribute greatly to the present understanding as well as future investigations of such groups. It will be of compelling interest to historians, sociologists, political scientists, psychologists and psychiatrists among others.

The Vertical Mosaic Revisited Rick Helmes-Hayes, James Curtis, 1998-12-15 When *The Vertical Mosaic* first appeared in 1965 it became an instant classic. Its key message was that

Canada was not the classless democracy it fancied itself to be In fact Canada was a highly inegalitarian society comprising a vertical mosaic of distinct classes and ethnic groups This collection of papers by five of Canada s top sociologists subjects John Porter s landmark study to renewed scrutiny and traces the dramatic changes since Porter s time both in Canadian society and in the agenda of Canadian sociology Based on papers written for a conference held in commemoration of the thirtieth anniversary of *The Vertical Mosaic* s publication the five essays revisit the central themes of the original work including gender and race inequality citizenship and social justice and class power and ethnicity from the viewpoint of political economy An introduction by the editors provides a historical biography of Porter and discusses his influence on Canadian sociology

Different Gods Raymond Breton, 2012-03-09 In recent decades the ebb and flow of immigration to Canada has changed significantly with the majority of immigrants coming from non European countries A striking feature of this shift is that a significant proportion of immigrants are non Christians newly immersed in a society entrenched in Christian ideals In *Different Gods* Raymond Breton looks at the significance of religious differences and what they mean for immigrants non immigrants and Canada's future Breton examines the evolution over time of the religious attitudes and behaviour of the new minorities and the challenges that their presence poses to the receiving society The analysis consists of a review of recent research and formulates possible conclusions about the transformations that integration may bring about for both the minorities and the receiving society An important analysis of immigration in an era of rapidly changing social values *Different Gods* looks boldly into issues of collective identity and cultural accommodation

Patriotism, **Becoming a Citizen** Irene Bloemraad, 2006-10-03 *Becoming a Citizen* is a terrific book Important innovative well argued theoretically significant and empirically grounded It will be the definitive work in the field for years to come Frank D Bean Co Director Center for Research on Immigration Population and Public Policy This book is in three ways innovative First it avoids the domestic navel gazing of U S immigration studies through an obvious yet ingenious comparison with Canada Second it shows that official multiculturalism and common citizenship may very well go together revealing Canada and not the United States as leader in successful immigrant integration Thirdly the book provides a compelling picture of how the state matters in making immigrants citizens An outstanding contribution to the migration and citizenship literature Christian Joppke American University of Paris

Ethnicity and Culture in Canada John W. Berry, J. A. Laponce, 1994 Ethnicity write J W Berry and J A Laponce in their introduction to this volume is likely to be to the twenty first century what class was to the twentieth that is a major source of tension and political conflict However ethnicity is also increasingly likely to be a source of inspiration and diversification within society Because of the rapidly developing importance of ethnicity and culture in Canada the Social Sciences and Humanities Research Council and the Ministry of Multiculturalism and Citizenship undertook in 1991 a project to review research on the subject This volume in nineteen chapters is the record of the findings Papers cover such topics as demography political philosophy history anthropology sociology media studies literature language learning education and ethnic and multicultural attitudes Looking back to the Commission on Bilingualism and Biculturalism mandated in 1963 the editors point out that the terminology has changed radically and that the evolution from biculturalism to multiculturalism has clarified not only the political agenda but the research agenda as well An insistent theme recurs throughout this volume multiculturalism is taken increasingly as being a characteristic of Canadian society as a whole rather than a concept focused exclusively on new Canadians While the Canadian population has always been ethnically diverse only recently has the diversity been systematically analysed Ethnic and multicultural studies are remarkably well developed in Canada the editors conclude However they point out one shortcoming more apparent in some fields than others we often know quite well how the dominant group views a minority but we often lack knowledge of the reverse attitudes and opinions Berry and Laponce recommend that we replace one way mirrors with windows preferably open windows BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Yousif, 2008 Despite Islam's long history in the new world the majority of Muslims in Canada are relatively new immigrants How do Muslims in Canada cope with living in a non Islamic environment Are they able to maintain their Islamic values or do they prefer to become assimilated To what extent does observance of the five pillars of Islam influence their identity What effect do Canadian values such as drinking alcohol eating pork celebrating Christmas premarital sex bank interest etc have on a Muslim's identity particularly since many of these are forbidden by Islam What role do Muslim's community groups and organizations play in the adaptation of Muslims immigrants to their new homeland How are Muslim's living in Canada affected by the political structure at the community national and international level This book examines these questions as well as many others in an attempt to determine the extent to which Muslims in the Canadian multicultural mosaic are able to maintain their identity

"I Thought Pocahontas was a Movie" Carol Schick, James McNinch, 2009 A significant contribution to the understanding of systemic racism in Canadian institutions this collection of essays arising out of the unique Prairie context interrogates how professionals practicing in law education health and other helping professions engage with issues of race and culture This book examines the challenges and resistance found within professional groups working with Aboriginal and racial minority peoples For teachers social workers healthcare providers and professors the greatest barriers to working across difference may be themselves and their assumptions about what the nature of the problem of difference is considered to be The authors in this volume advocate question and critique the uses of what are often considered to be binaries of race and or culture They offer examples from professional fields that illustrate the complexity of teaching that finds problems in a culturalist approach as well as a critical orientation that is still found wanting Will addressing inequality as a race gender class or sexual orientation issue provide greater forward movement than focusing on cultural issues The answers in this collection are never either or and must look beyond theoretical orthodoxy for inspiration if not new questions
