Governance Feminism Janet Halley, Prabha Kotiswaran, Rachel Rebouché, Hila Shamir, 2018-03-13 Describing and assessing feminist inroads into the state Feminists walk the halls of power *Governance Feminism* An Introduction shows how some feminists and feminist ideas but by no means all have entered into state and state like power in recent years Being a feminist can qualify you for a job in the United Nations the World Bank the International Criminal Court the local prosecutor s office or the child welfare bureaucracy Feminists have built institutions and participate in governance

The authors argue that governance feminism is institutionally diverse and globally distributed. It emerges from grassroots activism as well as statutes and treaties as crime control and as immanent bureaucracy. Conflicts among feminists global North and South left center and right emerge as struggles over governance. This volume collects examples from the United States Israel India and from transnational human rights law. Governance feminism poses new challenges for feminists. How shall we assess our successes and failures? What responsibility do we shoulder for the outcomes of our work? For the compromises and strange bedfellows we took on along the way? Can feminism foster a critique of its own successes? This volume offers a pathway to critical engagement with these pressing and significant questions.

Governance and Multiculturalism Catherine Koerner, Soma Pillay, 2019-08-14. A key intervention in the growing critical literature on race, this volume examines the social construction of race in contemporary Australia through the lenses of Indigenous sovereignty, nationhood and whiteness. Informed by insights from white Australians in rural contexts, Koerner and Pillay attempt to answer how race shapes those who identify as white Australian, how those who self-identify thusly relate to the nation, multiculturalism and Indigenous Sovereignities and how white Australians understand and experience their own racialized position and its privilege. This insider perspective on the continuing construction of whiteness in Australia is analyzed and challenged through Indigenous Sovereign theoretical standpoints and voices. Ultimately, this investigation of the social construction of race not only extends conceptualizations of multiculturalism but also informs governance policy in the light of changing national identity.

An Introduction to Internet Governance Dr Jovan Kurbalija, 2016-11-08. Although Internet governance deals with the core of the digital world, governance cannot be handled with the digital binary logic of the true or false or good or bad. Instead, the subject demands many subtleties and shades of meaning and perception, requiring an analogue approach covering a continuum of options and compromises. The aim of the book *An Introduction to Internet Governance* by Dr Jovan Kurbalija is to provide a comprehensive overview of the main issues and actors in the field through a practical framework for analysis, discussion and resolution of significant issues. Written in a clear and accessible way, supplemented with figures and illustrations, it focuses on the technical, security, legal, economic, development, sociocultural and human rights aspects of Internet governance. The text and approaches presented in the book have been used by DiploFoundation and many universities as a basis for training courses and capacity development programmes on Internet governance.

Violence in America's Schools R. Murray Thomas, 2006-10-30 The problem of violence in schools has not gone away despite radical reductions in violent crimes throughout the country over the last decade Students continue to harass and harm each other in a variety of ways disrupting classrooms and whole schools In the wake of the Columbine massacre many focused on the worst kind of school violence deadly assaults with dangerous weapons But other forms of violence are more persistent common and just as destructive in many ways fighting sexual abuse carrying weapons to school vandalism and assorted other crimes that happen behind the closed doors of elementary middle and high schools across the country The consequences range from violent victimization and death to the disruption of learning and fear among student bodies and teaching staffs Here Thomas provides a foundation for understanding why the violence occurs preventing it from happening and treating both offenders and victims after it happens Using scores of case descriptions to illustrate the types of school violence and their treatment in recent years the author skillfully shows readers how the problem of violence and crime in schools is an insidious issue that cannot go untreated He offers both tested and proposed methods for dealing with a host of violence issues and a guide to planning treatment of the problem and its associated consequences He answers the questions What are prominent types of violence in American schools What conditions contribute to those types of violence What methods can be applied in an effort to reduce school violence Readers will come away from this book with a greater understanding of the scope of violence in America's schools and the myriad ways of addressing it

Global Free Expression - Governing the Boundaries of Internet Content Ben Wagner, 2016-09-02 This book examines the changes in the governance of human expression as a result of the development of the Internet It tells the story of the emergence of a global regime that almost completely lacks institutions and develops a concept of expression governance that focusses on the governance practices of key actors in Europe and North America The book illuminates the increased disciplinary capacity of the Internet infrastructure that has become apparent to the public following Edward Snowden's leaks in 2013 and provides a theoretical frame within which such changes can be understood It argues that the Internet has developed a global default of permissible speech that exists pervasively across the globe but beyond the control of any one actor It then demonstrates why the emergence of such a global default of speech is crucial to global conflict in the international relations of the Internet The book concludes with an elaboration of the regulatory practices and theatrical performances that enable a global regime as well as the three key narratives that are embedded within it

Routledge Handbook of Sport Governance David Shilbury, Lesley Ferkins, 2019-12-06 The Routledge Handbook

of Sport Governance is a comprehensive and authoritative survey of the wide range of issues shaping sport governance. It considers the evolution of the sport industry from a largely amateur volunteer driven sector into the globalised business that it is today and examines how professionalisation has fundamentally shifted the governance landscape for sport organisations and all those working within sport. Written by a team of leading sport management scholars from around the world, the book is organised around five key themes: Part I Overview of sport governance; Part II Environmental context and policy perspectives; Part III Ownership structures and governance models; Implications for sport governance; Part IV Board roles in the governance process; Part V Future sport governance challenges. Each chapter reviews the most recent research available and in some cases presents new data to support previously published studies. As sport governance is a relatively young field, each chapter maps future research needs to provide direction for sport governance scholars. A special feature of the handbook is a series of nine shorter research chapters in Part IV examining board roles in the governance process, tying theory to the day to day practical aspects of running a sport organisation. With broader and deeper coverage of the key issues in contemporary sport governance than any other book, this handbook is essential reading for students, researchers and practitioners in sport business and management.

Interest Groups and Experimentalist Governance in the EU Douwe Truijens, 2021-03-01. This book researches the role that interest groups play in new modes of EU governance with a specific focus on the role of interest representation in experimentalist governance frameworks. The research asks how lobbying in the legislative process contributes to the governance framework and its institutional arrangements and subsequently asks how the relevant interest groups participate in policy implementation in which broad policy goals are concretised. The research is based on four in depth case studies: the Industrial Emissions Directive, the General Data Protection Regulation, the Combating Child Abuse Directive and the Institutions for Occupational Retirement Provision Directive. Of special interest in these cases are the balance between types of interest groups, most notably business and NGOs, in policy formulation and implementation and the changing dynamics between interest groups and public policy makers in such horizontal governance. The book's findings are required reading for all those concerned with effective and democratic policy making in the EU.

There has been considerable research and authorship on child sexual abuse however much of this research has focused on adult perpetrators and child victims Less attention has been paid to children s harmful sexual behaviour and the multitude of influences Harmful Sexual Behaviour in Young Children and Pre Teens provides evidence based understanding on typical sexual development versus harmful sexual behaviour the prevalence and impacts associated with harmful sexual behaviour Australian laws policies and educator responsibilities responses and support systems for children who display harmful sexual behaviour and the implications and challenges for future practice This book provides understandings that directly respond to the recent Australian Royal Commission into Institutional Responses to Child Sexual Abuse recommendation 10.1 to address a primary prevention strategies to educate family community members carers and professionals about preventing harmful sexual behaviours b secondary prevention strategies to ensure early intervention when harmful sexual behaviours are developing and c tertiary intervention strategies to address harmful sexual behaviours The authors present a review of psychological sociological legal and educational research to inform and support professionals involved in the wellbeing and education of children to understand manage and reduce dysfunctional sexual development in children *Department of Defense FY 2008 Report on Sexual Assault in the Military* Kay Whitley, 2009-09 This report includes reports from the Military Services which provide data on reported sexual assault allegations involving members of the Armed Forces that occurred during FY 2008 They also summarize the policies and procedures that the DoD and the Military Services implemented to provide a solid foundation for DoD s goals of prevention through training and education victim care and support and accountability Illustrations **Implied Consent and Sexual Assault** Michael Plaxton, 2015-11-01 In *R v Ewanchuk* the Supreme Court of Canada held that sexual touching must be accompanied by express contemporaneous consent In doing so the Court rejected the idea that sexual consent could be implied Ewanchuk was a landmark ruling reflecting a powerful commitment to women s equality and sexual autonomy In articulating limits on the circumstances under which women can be said to consent to sexual touching however the decision also restricts their autonomy specifically by denying them a voice in determining the norms that should govern their intimate relationships and sexual lives In *Implied Consent and Sexual Assault*

Michael Plaxton argues that women should have the autonomy to decide whether and under what circumstances sexual touching can be appropriate in the absence of express consent. Though caution should be exercised before resurrecting a limited doctrine of implied consent, there are reasons to think that sexual assault law could accommodate a doctrine without undermining the sexual autonomy or equality rights of women. In reaching this conclusion, Plaxton challenges widespread beliefs about autonomy, consent, and the objectives underpinning the offence of sexual assault in Canada. Drawing upon a range of contemporary criminal law theorists and feminist scholars, *Implied Consent and Sexual Assault* reconsiders the nature of mutuality in a world dominated by gender norms, the proper scope of criminal law, and the true meaning of sexual autonomy.

Sociocultural Otherness and Minority Justice: A Study on China Hanna H. Wei, 2022-02-17 This book draws attention to the nonlegal sociocultural aspects of justice for minorities in China. The primary objectives are threefold. The first is to present a tentative analysis of the lived realities of being the other in China, with the aim of presenting a critical picture of the complex national context and identifying main concerns and key challenges. Six topics are covered: gender roles, health, class, intimacy, ethnicity, and religion, and expression. The second objective is to explore the interaction between a wide range of factors and myriad systems that enable or hinder protection and justice for these groups, be they historical, political, social, or cultural, hoping to open up a rich domain of inquiry for those interested in, to what extent and in what ways, otherness may or may not survive in China. The third objective is to bring attention to new trends and developments, some are easily identifiable, whereas others are less detectable, some are interrelated, while others are relatively isolated, some are straightforward, and others remain easily misinterpreted.
