Government By The People Basic Election Update:

Citizen Support for Democratic and Autocratic Regimes Marlene Mauk, 2020-04-30 Citizen Support for Democratic and Autocratic Regimes takes a political culture perspective on the struggle between democracy and autocracy by examining how these regimes fare in the eyes of their citizens Taking a globally comparative approach it studies both the levels as well as the individual and system level sources of political support in democracies and autocracies worldwide The book develops an explanatory model of regime support which includes both individual and system level determinants and specifies not only the general causal mechanisms and pathways through which these determinants affect regime support but also spells out how these effects might vary between the two types of regimes It empirically tests its propositions using multi level structural equation modeling and a comprehensive dataset that combines recent public opinion data from six cross national survey projects with aggregate data from various sources for more than 100 democracies and autocracies It finds that both the levels and individual level sources of regime support are the same in democracies and autocracies but that the way in which system level context factors affect regime support differs between the two types of regimes The results enhance our understanding of what determines citizen support for fundamentally different regimes help assessing the present and future stability of democracies and autocracies and provide clear policy implications to those interested in strengthening support for democracy and or fostering democratic change in autocracies Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Susan Scarrow Chair of the Department of Political Science University of Houston and Jonathan Slapin Professor Department of Political Science University of Zurich

Is This Any Way to Run a Democratic Election? Stephen J. Wayne, 2018-02-01 The 2016 elections are over but the debate over the fairness and accuracy of our electoral process has never been more contentious Hacking fake news a rigged system voter ID challenges Super PACs and an Electoral College defying the popular vote count all lead to a common question and concern Is this any way to run a democratic election New to the Sixth Edition New data and timely illustrations from the 2016 elections Social media Facebook YouTube Twitter and their impact Fake news vs more objective and traditional election news coverage Election integrity in the face of hacking rumoring and instantaneous news Money the role of Super PACs and billionaire donors as well as candidates Updates and refinements to pedagogical features including chapter introductions end of chapter exercises and online references in the suggested readings

The Department of State Bulletin, 1984 Electoral Justice and Political Culture Dai zhicheng, 2021-12-15 The election process reflects the essence of the electoral system The justice of the electoral process can best reflect whether the electoral system is legitimate and democratic The democratic and legal shortcomings of China's electoral system can be

solved by rationalizing and democratizing the electoral process which is consistent with the realization of justice under the electoral process In this book procedural justice is combined with the electoral process to find the conditions and elements needed to achieve more justice in elections The electoral system is still based on the political will of the political party to rule and the electoral system itself has serious legislative problems which shows that the foundation of China s electoral system has problems Then China s electoral system cannot truly represent the political voices and political interests of the people in the implementation and at the same time cannot reflect the fairness of the election in the electoral procedure and the determination of the election results The People s Congress system and the Political Consultation system simply cannot elect the right representatives who truly represent the interests of the people The elected government and state power organs are separated from the people s political status political interests and development interests in the operation of their duties and the exercise of power By analyzing the problems in China s electoral system and election procedures the book concludes the conditions for the realization of more justice rationalization and democratization of China s electoral system and election procedures through procedural justice The spiritual connotation of procedural justice under the electoral system and election procedures are combined with the traditional Chinese democratic political culture to construct an electoral political culture adapted to the contemporary Chinese political environment advancing the development of procedural justice in China s electoral system to realize the rationality legitimacy and democracy of elections *Daily Graphic* Ransford
