advertising newly armed with the electric sensibility that informed The Gutenberg Galaxy Understanding Media and The Medium Is the Message McLuhan takes on the mad men a play on the ad men of Madison Avenue of the sixties Approaching commercial messages as unacknowledged art forms and cultural artifacts McLuhan delivers a series of probes that pick apart their meanings and underlying values their paradoxes and paralogsms and their overt function as persuasion and propaganda Through humor satire and a poetic sensibility he provides us with a serious exploration of the consumer culture that emerged out of the electronic media environment In keeping with the participatory ethos of the Internet that McLuhan so clearly anticipated this is a book that is meant to open the door to further study reflection and discussion and to encourage the development of critical reception on the part of the reader Research in Education ,1974 **Canadian Books in Print.
