[Bills of Rights Before the Bill of Rights](#) Peter J. Galie,Christopher Bopst,Bethany Kirschner,2020-09-14 This book is a documentary history of the rights found in the American state constitutions adopted between 1776 and 1790 Despite the rich tradition of rights at the state level rights in America have been identified almost exclusively with the national Bill of Rights Indeed there is no work that provides a comprehensive treatment of the early state declarations of rights Rather these declarations have been viewed as halting first steps towards the adoption of the national Bill of Rights in 1791 Bringing together the full text of the rights provisions from the 13 original states and Vermont this book presents America s first tradition of rights on its own terms and as part of this country s heritage of rights Early chapters will examine the sources of these rights and provide a comparative framework An introduction to each chapter will review that state s colonial history focusing on any charters or legislation related to rights protections that help explain its constitutional provisions This work will make it possible for students scholars and interested citizens to rediscover the first fruits of the American Revolution

Constitutional Law: Rights, Liberties and Justice 8th Edition Lee Epstein, Thomas G. Walker, 2013. Judicial decisions never occur in a vacuum; they are influenced by a myriad of political factors. From lawyers and interest groups to the shifting sentiments of public opinion to the ideological and behavioral inclinations of the justices, Epstein and Walker show how all these dynamics play an integral part in the overall development of constitutional doctrine. Drawing deeply from the spheres of political science and legal studies, the excerpted case material is skillfully analyzed and presented for today's students. Known for fastidious revising and streamlining, the authors account for the latest scholarship in the field and offer rock-solid analysis of recent landmark cases, including all the important opinions handed down through 2011. Building on the successes of the 7th edition, the book's clean layout and design clearly distinguishes between commentary and opinion excerpts. Not only does the design make the book an easier read for students, it effectively showcases photos, justice biographies, and the Aftermath and Global Perspective sidebars. And based on positive user feedback, the authors have added even more Aftermath boxes in this new edition. New cases in the 8th
