Grabroot Horizons:

Grassroot Horizons Richard Morse, Anisur Rahman, Kersten L. Johnson, 1995 Sourced From A 1989 Workshop At The East West Centre Grassroot Activists And Researchers Build On Their Varied Personal Experiences To Clarify And Strengthen The Effectiveness Of Participatory Group Action In Overcoming Impoverishment Oppression And Exclusion In This Muticountry Work Without Dustjacket In Good Condition *Grassroot Horizons* Richard Morse, Anisur Rahman, Kersten L. Johnson, 1995

Grassroots Ecumenism Dr. Karen Petersen Finch ,2022-09-09 The quest for Christian unity has traditionally been initiated at the international level between official leaders of Christian denominations with the effects of their dialogue expected to trickle down to local Christian communities In *Grassroots Ecumenism* Karen Petersen Finch upends this process proposing an approach to Christian unity that begins in your neighborhood Finch draws directly from her experience equipping everyday Christians to know their own Christian tradition more thoroughly and to engage thoughtfully with separated Christians down the street and around the corner

Reimagining Development Peter Sutoris, Uma Pradhan, 2025-05-15 Imagining a better future is at the heart of development But mainstream development models are driven by a very narrow Western centric set of ideas about what it means to be human What could be possible if we let ourselves imagine differently As our world continues to evolve at breakneck speed and faces unprecedented crises from the decaying environment to cascading inequality the need for bold new directions for development has never been greater Peter Sutoris and Uma Pradhan put a spotlight on the thought provoking visions of leading theorists activists and practitioners for rethinking development as a political project towards more equitable futures Questioning top down economic frameworks they explore transformative ideas from degrowth to indigenous knowledge that may enable us to address the complexities of our rapidly changing global landscape They consider how the world can chart a path towards reconciling the moral case for eradicating poverty with these critical perspectives to advance a more ethical approach one that is sensitive to history diversity and the challenges and opportunities of this moment If development is to remain relevant today it must reinvent itself and finally listen to voices on the ground *Development from Within* Varun Vidyarthi, Patricia A. Wilson, 2008-06-09 Development from below is not enough The key to sustainable social change is development from within change in individual and group consciousness that leads to collective capacity for self management among people s organizations This book is a conversation between a practitioner and a scholar of participatory development exploring the inner and outer journeys of both development facilitators and women villagers It is grounded in the experience of manavodaya a non profit organization that has facilitated self help groups among rural poor and trained development practitioners in methods of dialogue and empowerment for over twenty years The book presents a successful method of dialogue called collective reflection that has enabled significant changes in the lives of the participants both development professionals and villagers alike

Grassroots Development ,1982 **We Are Not Able to Live in the Sky** Mara Kardas-Nelson, 2024-06-11 Shortlisted

for the J Anthony Lukas Prize A deeply reported work of journalism that explores the promises and perils of microfinance told through the eyes of international lenders and women borrowers in West Africa In the mid 1970s Muhammad Yunus an American trained Bangladeshi economist met a poor female stool maker who needed money to expand her business In an act widely known as the beginning of microfinance Yunus lent 27 to forty two women hoping small credit would help the women pull themselves out of poverty Soon Yunus s Grameen Bank was born and the idea of giving very small high interest loans to poor people took off In 2006 Yunus and the Grameen Bank won the Nobel Peace Prize for efforts to create economic and social development from below But there s a problem with this story There are mounting concerns that these small loans are as likely to bury poor people in debt as they are to pull them from poverty with borrowers from India to Kenya facing consequences such as jail time and forced land sales Reportedly hundreds have even committed suicide What happened Did microfinance take a wrong turn or was it flawed from the beginning Mara Kardas Nelson s We Are Not Able to Live in the Sky is about unintended consequences blind optimism and the decades long ramifications of seemingly small policy choices The book is rooted in the stories of women borrowers in Sierra Leone West Africa Their narratives woven through a deep history of modern international development are set against the rise of Yunus s vision that tiny loans would put poverty in museums Kardas Nelson asks What is missed with a single financially focused solution to global inequity that ignores the real drivers of poverty Who stands to benefit and more important who gets left behind Soil Survey ,1931 **Grassroots**

Postmodernism Gustavo Esteva,Madhu Suri Prakash,2014-08-14 With the publication of this remarkable book in 1998 Gustavo Esteva and Madhu Suri Prakash instigated a complete epistemological rupture Grassroots Post modernism attacks the three sacred cows of modernity global thinking the universality of human rights and the self sufficient individual Rejecting the constructs of development in all its forms Esteva and Prakash argue that even alternative development prescriptions deprive the people of control over their own lives shifting this control to bureaucrats technocrats and educators Rather than presuming that human progress fits a predetermined mould leading towards an increasing homogenization of cultures and lifestyles the authors argue for a radical pluralism that honours and nurtures distinctive cultural variety and enables many paths to the realization of self defined aspirations This classic text is essential reading for those looking beyond neoliberalism the global project and the individual self Descendants of Slavery: on the Event Horizon Steven Nur Ahmed,2021-11-02 Descendants of Slavery on the Event Horizon is book about problems and problem solving in the African American community It is a red flag on the field because the United States is on track for a convergence of unparalleled national and global crises some of which are unsolvable What does that mean for descendants of slavery Not since the beginning of the civil war have descendants of slavery been in such tenuous circumstances Unimaginable fifty years ago our individual life chances are fast approaching zero **Bulletin of the American Soil Survey Association** ,1921

Bulletin American Soil Survey Association,1922 Includes its Report of the annual meeting **Grassroots**

Post-Modernism Gustavo Esteva, Madhu Suri Prakash, 1998 Gustavo Esteva is one of Latin America's best known alternative thinkers about development. For this book he teams up with Madhu Suri Prakash to offer a vibrant and provocative critique of the Western development paradigm.
